DEAN'S MESSAGE

Congratulations to all new students of the Faculty of Education, Universiti Malaya for the 2024/2025 academic session. The Faculty is proud that you have selected UM as your destination in your pursuit of excellence in academics and human development.

Faculty of Education, Universiti Malaya has turned 60 and celebrated its Diamond Jubilee in 2023. This faculty has undergone significant changes and the numerous successes achieved has positioned it as the best in the country and listed in the top 100 in the world. The Faculty's agenda of excellence and prestige will continue through the concerted cooperation and effort between the Faculty's academics and students in a conducive environment. This combination of effort, collaboration and intellectuality will continue to drive the prestige that has been achieved over the years.

It is with great pleasure and honour for me to welcome all new students for the 2024/2025 Academic session. Congratulations and thank you for choosing the Faculty of Education, Universiti Malaya as your main choice to further your studies. This premier faculty has not only made a name for itself at the national level but also at the international level. Up till now, the Faculty has succeeded in producing more than 20,000 excellent graduates who have actively contributed to the Education industry at home and abroad.

The academic programs offered by the Faculty not only develop intellectual abilities but also current skills needed in the effort to instil the spirit of determination to contribute towards the development of education at the national and international level. The combination of theory and practice, physical and spiritual skills is the foundation of a well-balanced identity that will enable students to face the workforce in the real world and service the community, the country and the global community as well.

The Faculty plans to maximize student involvement in student development activities such as inbound and outbound, student development workshop series, collaboration with foreign universities, involvement in various humanitarian activities within and outside the country. For this purpose, the Faculty is constantly developing facilities to address students' needs as well as upgrading teaching and learning facilities at the Faculty.

Finally, to ensure continuous excellence, the mission and vision of Universiti Malaya must be upheld in the direction of education glory which requires the cooperation and commitment of all parties in shaping and achieving the continuous glory in a more challenging era.

Good luck!

UNIVERSITY OF MALAYA**

Universiti Malaya (UM) merupakan universiti pertama yang ditubuhkan di Persekutuan Tanah Melayu (Malaya) pada 8 Oktober 1949 dari gabungan *King Edward VII College of Medicine* (1905) dan *Raffles College* (1928). Penubuhannya menjadi pemacu kepada kemajuan pendidikan di Tanah Melayu pada ketika itu sehingga tertubuhnya dua cawangan autonomi yang terletak di Singapura dan Kuala Lumpur pada tahun 1956. Dalam usaha memperkukuhkan pendidikan tinggi di kedua-dua negeri, status universiti cawangan perlu dinaik taraf kepada universiti kebangsaan. Oleh itu, Akta Parlimen 1961 telah diluluskan dan secara rasminya Universiti Malaya di Kuala Lumpur telah diiktiraf serta mengangkat martabat kepada universiti kebangsaan pada 1 Januari 1962. Sejak itu, Malaysia (Gabungan dengan Singapura, Sabah dan Sarawak pada 1963) melalui pelbagai proses transformasi dalam dunia pendidikan. Selaras dengan ini Universiti Malaya terus melipat gandakan usahanya untuk menjadi sebuah institusi pengajian tinggi yang ternama di peringkat antarabangsa dalam penyelidikan, inovasi, penerbitan dan pengajaran.

The Universiti Malaya (UM) was the first university established in Malaya on 8th October 1949 with the merger of the King Edward VII College of Medicine (established in 1905) and the Raffles College (established in 1928). Its establishment accelerated the advancement of education in Malaya and led to the founding of two autonomous branches in Singapore and Kuala Lumpur in 1956. In order to enhance higher education in both countries, there was a need to upgrade the branches to national university status. Thus, with the passing of the Parliament Act in 1961, the Universiti Malaya, Kuala Lumpur was officially recognized as a national university on 1st January 1962. Since then, Malaysia (Joining of Singapore, Sabah and Sarawak in 1963) has undergone a myriad of educational transformations. In line with this, the Universiti Malaya has continually stepped up efforts of becoming an internationally renowned institution of higher learning in research, innovation, publication and teaching.

Bagi menjayakan wawasan murni ini, Universiti Malaya disokong oleh hospital penyelidikan terbesar dan pertama di Malaysia iaitu Pusat Perubatan Universiti Malaya (PPUM), dua akademi, dua belas fakulti, empat institut dan tiga pusat akademik yang bersifat menyeluruh merangkumi bidang perubatan, sains, teknologi serta sains sosial dan sains kemasyarakatan. Selain daripada itu, dalam usaha menyumbang kepada perkembangan ilmu, Universiti Malaya telah mewujudkan enam Kluster Penyelidikan. Penubuhan kluster ini menawarkan penyelesaian dan penemuan terbaharu dalam pelbagai bidang. Penekanan terhadap bidang penyelidikan diperkukuhkan dengan tertubuhnya pusat-pusat kecemerlangan di pelbagai pusat pengajian. Pada 11 Oktober 2006, Universiti Malaya telah diiktiraf oleh Jemaah Menteri sebagai salah satu dari lima universiti awam sebagai universiti penyelidikan. Pada 26 Januari 2012 pula, Universiti Malaya telah diberikan status autonomi oleh Kementerian Pengajian Tinggi (kini dikenali Kementerian Pendidikan Tinggi). Di atas kejayaan Universiti Malaya dalam pengurusan penyelidikan, proses audit *Malaysian Research Assessment Instrument II (MyRA II)*, Kementerian Pendidikan Tinggi ke atas Universiti Penyelidikan telah meletakkan Universiti Malaya sebagai '*the Best Research University in Malaysia with the Highest Marks*' pada 1 Disember 2013.

To achieve this vision, the Universiti Malaya is supported by the Universiti Malaya Medical Centre (UMMC), the biggest and the first research teaching hospital in Malaysia, two academies, twelve faculties, four institutes and three centers that comprehensively encompass medicine, science, technology, the social sciences and the humanities. In addition, six research clusters have also been established to place the University at the forefront of new knowledge and discoveries. Furthermore, the Universiti Malaya continues to place heavy emphasis on research through the establishment of centers of excellence. On 11th October 2006, the Universiti Malaya was recognized by the Ministers' Council as a research university among the five public universities. On 26th January 2012, the Universiti Malaya was granted autonomy status by the Ministry of Education (now known as the Ministry of Higher Education). The success of the Universiti Malaya in research management, was captured through the audit process based upon the Malaysian Research Assessment Instrument II (MyRA II) by the Ministry of Higher Education. The Universiti Malaya was found to be the 'Best Research University in Malaysia with the Highest Marks' on 1 December 2013.

Dengan menjadikan aspirasi nasional sebagai pegangan, Universiti Malaya terus memperkukuhkan kedudukannya dalam dunia akademik di peringkat nasional mahupun antarabangsa. UM berada pada kedudukan ke-114 di dunia bagi *QS World University Ranking 2018* dan di tangga ke-27 bagi *QS Asian University Rankings 2016*. UM juga merupakan satu-satunya universiti di Malaysia yang tersenarai dalam kalangan 400 universiti terbaik dunia (*Academic Ranking of World Universities*) oleh *Shanghai Jiao Tong, China*. Pencapaian ini menobatkan Universiti Malaya sebagai universiti terbaik di Malaysia. Pada 6 Mei 2014, Universiti Malaya menerima pengiktirafan di peringkat antarabangsa sebagai satu-satunya institusi pengajian tinggi di Malaysia yang mendapat penarafan 5 bintang oleh *QS Stars Ratings*. Universiti Malaya juga telah diiktiraf sebagai Universiti Pilihan oleh *Reader's Digest Trusted Brand* selama 10 tahun berturut-turut sejak tahun 2007 hingga 2016. Dengan rekod tersebut, UM telah dianugerahkan Anugerah Platinum dalam Kategori Universiti Awam pada 27 Mei 2014. Pengajaran, penyelidikan, penerbitan, inovasi dan komersialisasi menjadi tunjang usaha Universiti Malaya menyumbang kepada dunia akademik dan masyarakat.

With the nation's aspirations as its guide, the Universiti Malaya continues to strengthen its status in the academic world, both within the country and internationally. It has been ranked 114th in the 2018 QS World University Ranking and 27th in the 2016 QS Asian University Ranking. The Universiti Malaya is also the only university in Malaysia listed in the top 500 Academic Ranking of World Universities by Shanghai Jiao Tong, China. These accomplishments have endorsed the Universiti Malaya as the best university in Malaysia. On 6th May 2014, another international recognition was achieved when the Universiti Malaya became the only institution of higher learning in the country to be awarded a 5 star rating by the QS Stars Ratings. The Universiti Malaya has also been named as a University of Choice by the Reader's Digest Trusted Brand for ten consecutive years from 2007 until 2016. With that record, the Universiti Malaya was awarded the Platinum Award for the Public University Category on 27 May 2014. The thrust of the university's contribution to academia as well as society is through teaching, research, publication, innovation and commercialization.

Seiring dengan universiti-universiti antarabangsa, Universiti Malaya menjalinkan usahasama dengan institut penyelidikan dan universiti terkemuka dari 71 buah negara. Di antara universiti terkemuka dunia yang menjalinkan kerjasama secara aktif dengan Universiti Malaya adalah:

Sehingga kini, UM telah melantik empat Felo Nobel dan dua Profesor Ulung sebagai ahli Majlis Penasihat HIR. Mereka terdiri daripada Felo Nobel Profesor Barry Marshall (Psikologi atau Perubatan), Felo Nobel Profesor Ryoji Noyori (Kimia), Felo Nobel Profesor David Baltimore (Psikologi atau Perubatan), Felo Nobel Sir Dr. Richard Roberts (Psikologi atau Perubatan), Profesor Ulung Rita Colwell (University of Maryland, USA) dan Profesor Ulung Wong Chi-Huey (Academia Sinica, Taiwan).

To date, UM has appointed four Nobel Fellows and two Distinguished Fellows as members of the UM HIR Advisory Council. They are Nobel Fellow Professor Barry Marshall (Physiology or Medicine), Nobel Fellow Professor Ryoji Noyori (Chemistry), Nobel Fellow Professor David Baltimore (Physiology or Medicine), Nobel Fellow Sir Richard Roberts (Physiology or Medicine), Distinguished Professor Rita Colwell (University of Maryland, USA) and Distinguished Professor Wong Chi-Huey (Academia Sinica, Taiwan).

Universiti Malaya High Impact Research (UM HIR) telah ditubuhkan pada Februari 2010 dan telah diperuntukkan sejumlah RM10 juta dana dalaman UM bagi menggalakkan penyelidikan fundamental yang menasaskan penerbitan Tier 1 ISI/WoS. Menyedari kepentingan UM sebagai institusi penyelidikan terkemuka negara, Kementerian Pengajian Tinggi (KPT) telah meluluskan peruntukan berjumlah RM590 juta untuk Program UM-MoHE HIR bagi tempoh 5 tahun bermula Ogos 2011 sehingga Jun 2016.

Another landmark was in February 2010 when the University established the 'Universiti Malaya High Impact Research (UM HIR)' and provided RM10 million from its internal funds to promote fundamental research which will lead to Tier 1 ISI/WoS publications. Recognizing the importance of UM as a premier research institution in the country, the Ministry of Higher Education (MoHE) allocated RM590 million for the UM-MOHE HIR programme for a period of 5 years from August 2011 until June 2016.

In keeping the university on par with international universities, the Universiti Malaya has collaborated with renowned research institutes and universities from 71 countries. Some of its active global partners are:

FAKULTI PENDIDIKAN FACULTY OF EDUCATION

Fakulti Pendidikan ditubuhkan pada 1963, dan pada awalnya dinamakan Sekolah Pendidikan Universiti Malaya. Sekolah Pendidikan Universiti Malaya dibentuk untuk menawarkan Diploma Pendidikan, satu program pasca ijazah, bagi siswazah yang memilih profesion perguruan. Sekolah Pendidikan berkembang dengan amat pesat dan dinaikkan taraf kepada status fakulti pada bulan Julai 1965. Program Sarjana Pendidikan telah ditawarkan untuk julung kalinya selepas dua tahun kemudian, diikuti dengan penawaran program Doktor Falsafah pada tahun 1969.

The Faculty of Education was founded in 1963 and was initially named the School of Education. The School of Education offered the postgraduate Diploma in Education to graduates who chose to enter the teaching profession. The school expanded rapidly and was upgraded to the status of faculty in July 1965. The Master of Education (M.Ed) programme was introduced for the first time two years later and this was followed by the Doctor of Philosophy (Ph.D) programme in 1969.

Sejak penubuhannya, Fakulti Pendidikan Universiti Malaya telah berjaya melahirkan hampir 20,000 siswazah, iaitu lebih daripada 15,000 pemegang Diploma Pendidikan, lebih daripada 2,282 graduan Sarjana, dan kira-kira 3,500 dengan ijazah dasar pendidikan.

Since its establishment, the Faculty of Education has successfully trained almost 20,000 graduates. From among them, more than 15,000 have graduated with the Diploma in Education, more than 2,282 with a Master's degree and about 3,500 with a Bachelor in Education degree.

*Nilai-Nilai Teras Universiti Malaya adalah:

Fakulti Pendidikan menerima pakai peranan proaktif dalam usaha memenuhi era perubahan yang berterusan dalam bidang pendidikan. Ini termasuk penyemakan dan penelitian semula program dan kursus, penyemakan kurikulum dan instruksi untuk memasukkan, jika perlu, perubahan-perubahan yang berlaku dalam bidang pendidikan.

The faculty is proactive in keeping pace with the ever-changing demands in the field of education. This includes the reappraisal of programmes and courses, curriculum revisions and departmental restructuring to accommodate new changes when necessary.

Pada tahun 1970, pada dasarnya, struktur Fakulti Pendidikan adalah terdiri daripada lima bahagian yang berbeza. Bagaimanapun, oleh sebab perkembangan baru dan anjakan paradigma dalam sistem pendidikan, Fakulti Pendidikan telah melalui satu siri penstrukturan dan pembentukan semula organisasinya bagi membolehkan Fakulti ini memenuhi hasrat visi dan objektifnya. Pembentukan struktur organisasi terbaru Fakulti Pendidikan telah dilaksanakan pada tahun 2001 apabila jabatan-jabatan yang berikut ditubuhkan.

In 1970, the structure of the faculty comprised five divisions. However, because of new developments and paradigm shifts in the educational system, the faculty had a series of restructuring and reorganization exercises to enable the faculty to realize its vision and objectives. The latest organizational restructuring was carried out in 2001 resulting in the formation of the following departments.

- Jabatan Asas Pendidikan dan Kemanusiaan
Department of Educational Foundations and Humanities
- Jabatan Psikologi Pendidikan dan Kaunseling
Department of Educational Psychology and Counselling
- Jabatan Pengurusan, Perancangan dan Dasar Pendidikan
Department of Educational Management, Planning and Policy

- Jabatan Pendidikan Bahasa dan Literasi
Department of Language and Literacy Education
- Jabatan Pendidikan Matematik dan Sains
Department of Mathematics and Science Education
- Jabatan Kurikulum dan Teknologi Pengajaran
Department of Curriculum and Instructional Technology

Di samping menawarkan kursus-kursus peringkat ijazah tinggi, sejak permulaan penubuhannya, Fakulti Pendidikan terlibat dalam beberapa program ijazah dasar. Salah satu daripada program ini ialah program Ijazah Sarjana Muda Sains dengan Pendidikan. Program ini dimulakan bersama dengan Fakulti Sains Universiti Malaya pada tahun 1975 bagi memenuhi permintaan yang tinggi untuk guru-guru sains dan matematik bagi peringkat sekolah menengah atas. Selain itu, program ijazah Sarjana Muda Pendidikan Islam juga telah diperkenalkan pada tahun 1982. Kursus ini ditawarkan dengan kerjasama Akademi Pengajian Islam Universiti Malaya bagi menyediakan guru-guru untuk mengajar mata pelajaran Pendidikan Islam di sekolah-sekolah menengah.

Besides offering courses at the postgraduate level since its inception, the Faculty also conducts undergraduate programmes. Among these programmes is the Bachelor of Science with Education (B.Sc.Ed.). The programme was initiated jointly with the Faculty of Science in 1975, to meet the great demand for science and mathematics teachers at the upper secondary level. Another programme is the Bachelor of Islamic Education (B. Islamic Ed.) which was introduced in 1982. This course is conducted jointly with the Academy of Islamic Studies, Universiti Malaya, to prepare teachers to teach Islamic Studies in schools.

Pada tahun 1980, Fakulti Pendidikan mula menawarkan program ijazah dasarnya sendiri, iaitu Sarjana Muda Pendidikan Bahasa Inggeris Sebagai Bahasa Kedua (PBISBK). Program ini dilaksanakan dengan kerjasama Fakulti Sastera dan Sains Sosial. Satu program ijazah dasar dalam Pendidikan Awal Kanak-Kanak ditawarkan buat pertama kalinya pada tahun 1998 dan diikuti dengan satu lagi program ijazah dasar yang membawa kepada penganugerahan ijazah Sarjana Muda Kaunseling in 1997. Program Sarjana Muda Pendidikan (Pengajaran Bahasa Tamil) ditawarkan pada tahun 2000 dan pengambilan kumpulan pelajar terakhir bagi program tersebut ialah pada tahun 2004. Pada tahun 2004, Sarjana Muda Pendidikan (Pengajaran Bahasa Inggeris Sebagai Bahasa Kedua) Pendidikan Rendah telah ditawarkan.

In 1980, the Faculty started its own undergraduate programme the Bachelor of Education in the Teaching of English as a Second Language (B. Ed. TESL). The programme is being run in collaboration with the Faculty of Arts and Social Sciences. Other degree programmes offered by the Faculty include the Bachelor of Early Childhood Education which commenced in 1998 followed by the Bachelor of Counselling in 1997. An undergraduate program in Early Childhood Education was offered for the first time in 1998 and followed with another undergraduate program leading to the Bachelor of Counselling. Bachelor of Education (Teaching of Tamil Language) was offered in 2000 with the last intake for the programme being in 2004. In 2004, the Bachelor of Education (Teaching English as a Second Language) Primary Education was offered. Besides the above programmes, the Faculty is also involved in joint programmes with other faculties. Other programmes are the Bachelor of Education (Teaching of Tamil) conducted jointly with the Faculty of Arts and Social Sciences and the Bachelor of Language and Linguistics with Education (Chinese) conducted jointly with the Faculty of Languages and Linguistics.

Pada masa ini program sarjana muda yang ditawarkan di Fakulti Pendidikan adalah seperti berikut:
Currently the Faculty offers the following undergraduate programmes:

1. Sarjana Muda Pendidikan Pengajaran Bahasa Inggeris Sebagai Bahasa Kedua
Bachelor of Education Teaching English as a Second Language
2. Sarjana Muda Pendidikan Awal Kanak-Kanak
Bachelor of Early Childhood Education
3. Sarjana Muda Kaunseling
Bachelor of Counselling

Peranan Fakulti Pendidikan tidak terhad kepada pendidikan guru sahaja. Setiap ahli Fakulti mempunyai kepakaran tersendiri dalam bidang pendidikan, dan kebanyakan ahli akademik di Fakulti ini berkhidmat sebagai penasihat atau pakar runding kepada Kementerian Pendidikan Malaysia dan berbagai-bagai organisasi. Setengah-setengah daripada mereka bertugas rapat dengan agensi-agensinya antarabangsa termasuk Bank Dunia, UNESCO, UNICEF, IBRD, RECSAM, dan RELC. Semua staf Fakulti ini terlibat secara aktif dalam penyelidikan, dan sejumlah besar kertas kerja dan artikel telah diterbitkan di kedua-dua peringkat, tempatan dan antarabangsa. Kebanyakan geran penyelidikan ditaja oleh Universiti Malaya atau agensi dalam dan luar negara.

The Faculty's role is not limited to teacher education. Each Faculty member has his/her own area of expertise in a particular field of education and many serve as advisers or consultants to the Ministry of Education and various organisations. Some members of the Faculty work closely with overseas and international agencies including the

World Bank, UNESCO, UNICEF, IBRD, RESCAM and RELC. All academic staff members are actively involved in research and numerous papers and articles have been published in both local and international journals. Research by faculty members is largely sponsored by grants from the University or agencies from within and outside the country.

Fakulti Pendidikan telah memulakan usaha ke arah misinya untuk menjadikan Fakulti ini sebagai satu pusat pendidikan ijazah tinggi dalam bidang pendidikan yang membawa kepada penganugerahan ijazah sarjana dan doktor falsafah. Fakulti berhasrat untuk mengeluarkan pendidik berijazah tinggi bagi memenuhi permintaan sistem pendidikan yang dinamik. Dengan kekuatan semasa kakitangan akademik, yang hampir kepada 100 orang, berbanding dengan jumlah staf yang tidak seberapa, iaitu hanya lima orang, pada tahun 1963, tidaklah menghairankan bahawa Fakulti mempunyai sekumpulan pakar berbakat yang boleh memberikan sumbangan yang lebih besar kepada perkembangan dalam bidang pendidikan.

The Faculty of Education has embarked on a mission to enhance its role as a centre for higher degrees in education. The Faculty aims to produce more postgraduate educators to meet the demands of a dynamic education system. With the present academic staff strength of nearly 100 members compared to only five in 1963, the Faculty can proudly claim to have a pool of talented expertise with the ability to make greater contributions to development in the field of education.

Fakulti Pendidikan mempunyai jumlah terbesar pelajar ijazah tinggi untuk mengikuti pengajian ijazah sarjana dan doktor falsafah di Universiti Malaya. Di antara calon, yang terdiri daripada rakyat Malaysia, terdapat calon ijazah tinggi dari luar negara seperti Libya, Thailand, Brunei, Fiji, Sri Lanka, Cook Island, Samoa, China, Afrika, dan lain-lain. Dengan kehadiran pelajar dari luar negara, pendedahan dan latihan menjadi lebih luas apabila setiap pelajar dapat berkongsi pandangan dan pengalaman lepas.

The Faculty of Education has one of the largest number of postgraduate students pursuing either the Master or PhD degrees at the Universiti Malaya. While most of these graduate students are Malaysians, there are also postgraduate students who come from foreign countries like Indonesia, Iran, Iraq, Algeria, Libya, Thailand, Brunei, Fiji, Sri Lanka, the Cook Islands, Samoa, China and several African countries. With the presence of international students, the exposure and training received is enriching as students are able to share their diverse experiences and views.

Fakulti Pendidikan menawarkan pelbagai pilihan dalam bidang pengajian untuk ijazah Sarjana Pendidikan. Di antaranya ialah bidang:

15. Pengajaran Bahasa Inggeris Sebagai Bahasa Kedua
Teaching English as a Second Language (TESL)

Walaupun pada asalnya bahasa pengantar pengajian kebanyakannya dilaksanakan melalui pengantar Bahasa Melayu, namun semakin banyak kursus ditawarkan melalui pengantar Bahasa Inggeris. Ini membolehkan para pelajar luar negara yang tidak fasih dalam Bahasa Melayu dapat mengikuti pengajian ijazah tinggi melalui pengantar Bahasa Inggeris di Fakulti ini. Secara praktikal, semua staf akademik Fakulti Pendidikan adalah tenaga akademik dwibahasa, iaitu mereka berkemampuan dalam kedua-dua Bahasa Melayu dan Inggeris. Untuk pelajar dari luar negara yang tidak menguasai bahasa Melayu, Fakulti ini menyediakan, sebaik mungkin, tatacara pengajian khas, agar mereka dapat meneruskan pengajian kursus mereka dalam Bahasa Inggeris.

Although the official medium of instruction for the Masters and PhD programmes is Malay, most of the courses are taught in English. This is to enable foreign students who are not proficient in the Malay language to pursue their postgraduate studies at the Faculty. In effect, all staff members are bilingual, that is, they are proficient in the Malay language as well as in English. For students from overseas who do not master the Malay language, the Faculty provides, as far as possible, special education procedures, so that they can continue their course of study in English.

The background of the problem to be investigated, including the literature review

- (b) Pernyataan masalah yang akan diselidik dan
Statement of the problem to be investigated and
- (c) Tujuan, kepentingan dan batasan kajian
The purpose, importance and limitations of the study
- (2) Calon perlu menunjukkan pengetahuan yang cukup dengan mengemukakan kerangka teori (theoretical framework) bagi penyelidikan yang dirancangan itu.
The candidate must demonstrate adequate knowledge by presenting theoretical framework (Theoretical framework) for the planned research.
- (3) Biasanya calon dikehendaki menunjukkan bukti keupayaan penyelidikannya dalam bidang yang dipilih. Laporan daripada dua orang penyokong atau penilai yang dapat memastikan pengalaman ini adalah dikehendaki. Calon mungkin juga dikehendaki menghadiri satu temuduga.
Normally, candidates are required to show evidence of research capabilities in selected areas. Report of two referees or assessors who will ensure existence of the relevant experience is required. Candidates may also be asked to attend an interview.
- (4) Pemohon adalah dinasihatkan supaya mendapat nasihat dari kakitangan pendidikan sebelum mengemukakan prospektus mereka.
Applicants are advised to seek advice from the education staff before submitting their prospectus.
- (5) Permohonan mestilah dibuat secara atas talian melalui laman web Institut Pengajian Siswazah. Semua permohonan akan dipertimbangkan oleh fakulti.
Application must be made online from the Institute of Graduate Studies website. All applications will be considered by the Faculty.
- (6) Struktur Program / Programme Structure
Setelah didaftarkan, calon akan mengikuti kursus pengajian tinggi yang diluluskan (mungkin termasuk kerja kursus yang ditetapkan) dan penyelidikan di bawah arahan dan penyeliaan penyelia (atau penyelia-penyelia) bagi tempoh tidak kurang dari empat semester bagi calon penuh masa dan tidak kurang dari enam semester bagi calon sambilan.
Once registered, candidates will follow an approved course of higher education (may include prescribed course work) and research under the direction and supervision of the supervisor (or supervisors) for a period of not less than four semesters for full-time candidates and not less than six semesters for part-time candidates.
- Tertakluk kepada persetujuan Senat, seseorang calon mungkin dibenarkan mengikuti kursus pengajian dan penyelidikannya di universiti atau di institusi pendidikan/penyelidikan lain. Sekiranya tempat penyelidikan yang diluluskan itu terletak di luar dari Malaysia, calon itu dikehendaki memenuhi syarat bermastautin selama dua belas bulan di Universiti Malaya.
Subject to the consent of the Senate, a candidate may be allowed to follow courses of study and research in other universities or other educational/research institutions. If the approved research site is located outside Malaysia, the candidate is required to meet the requirements of twelve months residence at the University of Malaya.
- (7) Tempoh Pencalonan / Candidature Period
Tempoh maksimum pencalonan seorang calon Doktor Falsafah ialah enam tahun akademik, dikira dari tarikh permulaan pendaftaran. Tempoh minimum pencalonannya ialah empat semester.
Maximum period of candidature for a PhD candidate is six academic years, calculated from the date of initial registration. The minimum period of candidature is four semesters

7. KEHADIRAN DAN PENYELIAAN IJAZAH TINGGI/ ATTENDANCE AND SUPERVISION OF HIGH DEGREE

Semua calon ijazah tinggi, dikehendaki berjumpa dengan penyelia atau penasihat mereka, menghadiri kursus (sekiranya disyaratkan) dan seminar atau menggunakan perpustakaan dan kemudahan penyelidikan lain di Universiti.

All higher degree candidates are required to consult with their supervisor or their advisers, attend any courses (if required) and seminars or use the library and other research facilities at the University.

8. LAPORAN KEMAJUAN/ PROGRESS REPORT

Pada tiap sesi akademik, semua calon ijazah tinggi dikehendaki menyerahkan laporan kemajuan kepada penyelia mereka dengan mengisi borang secara online (myum.um.edu.my) Calon yang gagal menyerahkan laporan kemajuan dianggap kurang memuaskan dan pencalonan mereka akan dikaji semula oleh Jawatankuasa Pengajian Ijazah Tinggi. Pencalonan seseorang akan ditamatkan jika kemajuannya tidak memuaskan.

In each academic session, all candidates are required to submit a progress report to their supervisor through online (myum.um.edu.my). Candidates who fail to submit a progress report are considered unsatisfactory and their candidature will be reviewed by the Postgraduate Studies Committee. The candidature of a student will be terminated if progress is not satisfactory.

Calon dikehendaki mengemukakan laporan kemajuan penyelidikannya pada akhir semester kepada penyelia mengikut prosedur yang telah ditetapkan. Penyelia, Penyelia Bersama atau Perunding yang dilantik hendaklah menilai laporan kemajuan penyelidikan calon mengikut prosedur yang ditetapkan.

Candidates are required to submit their progress report at the end to the semester to their supervisor according to the fixed procedures. Supervisor/supervisors or appointed consultant needs to evaluate the progress report of the candidate according to the fixed procedures.

Calon yang kemajuannya memuaskan akan diperakukan untuk pencalonan diteruskan. Calon yang kemajuannya tidak memuaskan untuk tiga (3) semester berturut-turut akan ditamatkan pencalonannya oleh Fakulti. Pengarah, Pusat Pentadbiran dan Perkhidmatan Akademik akan dimaklumkan mengenai penamatan pencalonan calon untuk diambil tindakan.

Candidates whose progress is satisfactory will be allowed to continue their candidature. Candidates whose progress is unsatisfactory for three (3) continuous semesters will be terminated by the Faculty. The Director, Academic Administration and Service Centre will be notified regarding candidature termination for further action.

Calon yang gagal mengemukakan laporan kemajuan penyelidikannya dalam tempoh yang ditetapkan akan dihalang daripada mendaftar untuk semester berikutnya.

Candidates who fail to submit a progress report within the stipulated period will be barred from registration for the following semester.

9. PENAMATAN PENCALONAN/ TERMINATION OF CANDIDATURE

Penamatan pencalonan seseorang calon ijazah tinggi boleh berlaku atas sebab-sebab berikut: Termination of candidature of any candidate could have happened for the following reasons:\

- (i) Penarikan Diri/ *Withdrawal*:
- (ii) Atas permohonan secara bertulis oleh calon untuk menarik diri.
Upon application in writing by the candidate to withdraw.
- (iii) Luput/ *Lapse*:
Pencalonan dianggap luput apabila calon gagal mendaftarkan diri atau membaharui pencalonannya pada permulaan tiap-tiap sesi akademik.
Candidature nomination is considered lapsed when the candidate fails to register or renew his or her candidature at the beginning of every academic session.
- (iv) Penamatan/ *Termination*:
Pencalonan akan tamat jika calon gagal menyempurnakan pengajiannya dalam tempoh maksimum yang ditetapkan.

Candidature will expire if the candidate fails to complete the study within the prescribed maximum period.

Senat, atas perakuan Jawatankuasa Pengajian Ijazah Tinggi dan Fakulti, boleh membenarkan perlanjutan pencalonan, dan menetapkan syarat baginya, sekiranya permohonan untuk melanjutkan pencalonan dibuat secara bertulis kepada Fakulti.

The Senate, on the recommendation of the Postgraduate Studies Committee and the Faculty, may grant an extension of candidature, and set the conditions if the application for extension of the candidature is made in writing to the Faculty.

10. BAHASA PENULISAN TESIS/ THESIS WRITING LANGUAGE

Bahasa penulisan tesis adalah di dalam Bahasa Malaysia, Bahasa Inggeris Bahasa Arab.

The thesis writing is in Malay, English or Arabic Language.

11. KEBENARAN MENGGUNA SEKOLAH-SEKOLAH UNTUK PENYELIDIKAN/ PERMISSION TO USE SCHOOLS FOR RESEARCH

Calon yang ingin menggunakan sekolah/institusi lain di bawah penguasaan Kementerian Pendidikan untuk penyelidikan mereka dikehendaki meminta kebenaran daripada Kementerian tersebut. Permohonan harus dihantar kepada Bahagian Perancangan dan Penyelidikan Pendidikan, Kementerian Pendidikan. Borang permohonan untuk keperluan ini boleh didapati daripada Penolong Pendaftar, Fakulti Pendidikan.

Candidates who wish to use the school / other institutions under the control of the Ministry of Education for their research are required to seek permission from the Ministry. Applications should be sent to the Educational Research and Planning Division, Ministry of Education. Application forms for this requirement are available from the Assistant Registrar, Faculty of Education.

12. GARISPANDUAN MENYEDIAKAN CADANGAN PENYELIDIKAN (SEMINAR 1 DAN SEMINAR DUA) / PROVIDING GUIDELINES FOR RESEARCH PROPOSALS (PROPOSAL DEFENCE AND CANDIDATURE DEFENCE)

Seseorang calon Doktor Falsafah dikehendaki menyerahkan secara rasmi cadangan penyelidikannya untuk kelulusan Jawatankuasa peringkat Jabatan selewat-lewatnya lima semester selepas tarikh pendaftaran permohonan.

A PhD candidate is required to submit a formal research proposal for approval at the Department level Committee at least five semesters after the date of the registration application.

Lima salinan cadangan yang ditaip dengan menggunakan dua jarak atas kertas yang bersaiz A4, harus diserahkan kepada Jabatan mengikut program masing-masing.

Five typed copies of the proposal using double spacing on A4 size paper, should be submitted to the Department of the Programmes.

Satu Jawatankuasa Penasihat Penyelidikan yang dianggotai oleh Ketua Jabatan sebagai pengerusi, penyelia (atau penyelia-penyelia) dan penyemak yang dilantik akan menyemak cadangan penyelidikan dan menemuduga calon berkenaan.

A Research Advisory Committee consisting of the Head of Department as chairman, the supervisor (or supervisors) and the reviewer will review research proposals and interview the candidate.

Calon juga dikehendaki mempertahankan cadangannya semasa ditemuduga oleh Jawatankuasa Penasihat Penyelidikan.

Candidates are also required to defend the proposal during an interview by the Research Advisory Committee.

Cadangan ini biasanya mengandungi aspek-aspek di bawah:

The proposal generally contains the aspects below:

- (a) Penghuraian mengenai masalah penyelidikan, termasuk hipotesis atau pembentukan soalan-soalan penyelidikan yang tepat.
Description of research problems, including the formation of exact hypotheses or research questions.
- (b) Penerangan jelas mengenai tujuan, kepentingan dan batasan penyelidikan dari segi konteks, teori dan amalannya.
A clear description of the purpose, importance and limitations in the context of research, theory and practice.
- (c) Tinjauan bahan yang berkenaan berkaitan dengan penyelidikan yang akan dijalankan termasuk penjelasan mengenai tanggapan yang dibuat untuk kajian serta perkaitan kajian dengan sorotan kajian penyelidikan yang telah diikuti.
Review the relevant materials related to research will include an explanation of the assumptions for the study and highlight the relevance of research studies that have followed.
- (d) Ringkasan mengenai rekabentuk kajian termasuk keterangan dan penjelasan metodologi atau prosedur yang digunakan.
A summary of the research design, including information and details of methodology or procedure used.
- (e) Penjelasan yang memuaskan mengenai penyelidikan dan analisis data yang akan digunakan.
A satisfactory explanation of the research and data analysis to be used.
- (f) Lampiran-lampiran, termasuk soalselidik atau alat-alat penyelidikan dan maklumat yang berkenaan jika ada.
Appendices, including the questionnaire or the research tools and relevant information if available.
- (g) Bibliografi.
Bibliography.

13. PENYERAHAN TESIS/ *SUBMISSION OF THESIS*

- (a) Syarat-syarat khas/ *Special conditions:*
 - (i) Lima (5) tesis berkulit nipis diserahkan untuk pemeriksaan. Tesis hendaklah ditaip dua spasi ataupun dicetak di atas kertas bersaiz A4, kecuali untuk lukisan atau peta yang tidak mempunyai had saiz kertas. Ruang berukuran 4 sentimeter hendaklah disediakan di sebelah kiri. Tajuk atau ringkasan tajuknya serta nama pengarang hendaklah dicetak dalam huruf besar di tulang belakang tesis. Abstrak atau sinopsis yang tidak melebihi 500 perkataan hendaklah dijadikan prakata kepada tesis.

Abstract or synopsis not exceeding 500 words should be the preface to the thesis.
 - (ii) Tesis yang telah diperiksa itu dan mengandungi mana-mana pembetulan jika ada, hendaklah dijilid dalam kulit tebal berjenis reksin berwarna merah tua (dark red rexine).
Tiga (3) naskhah tesis tersebut hendaklah diserahkan kepada Universiti. The thesis that has been inspected and contains any corrections if any, shall be bound in dark red rexine. Three (3) copies of the thesis are to be submitted to the University.
 - (iii) Sebuah tesis Doktor Falsafah tidak boleh melebihi 100,000 perkataan (tidak termasuk notakaki, lampiran, jadual dan rajah) kecuali dalam kes di mana kebenaran khas telah diberi oleh Universiti untuk melebihi had ini. Sebagai

tambahan, sebuah abstrak yang tidak melebihi 500 perkataan perlu dikemukakan secara berasingan oleh calon Doktor Falsafah.

A PhD thesis must not exceed 100,000 words (not including the footnote, appendices, tables and figures), except in cases where special permission has been granted by the University to exceed this limit. In addition, an abstract not exceeding 500 words should be submitted separately by the PhD candidate

(b) Format manuskrip

Format of the manuscript

Pada kebiasaannya, tiap-tiap manuskrip mengandungi tiga bahagian utama; permulaan, teks dan tambahan termasuk rujukan atau bibliografi. Susunan tiap-tiap bahagian ini harus ditentukan oleh calon atas nasihat penyeliannya. Butir lanjut mengenai format dan isi kandungan tiap-tiap bahagian boleh didapati dalam Panduan Penyediaan Tesis, Disertasi dan Laporan Penyelidikan yang disediakan oleh Fakulti Pendidikan.

Usually, every manuscript contains three main parts: the beginning, the text and references or bibliography. The arrangement of every part should be determined by the candidate on the advice of his or her supervisor. Further details on the format and content of each part can be found in the Guide to the Preparation of Thesis, Disertasi and Reserch Report, prepared by the Faculty of Education.

14. MATLAMAT PROGRAM/ PROGRAMME AIM

Untuk melahirkan graduan kedoktoran dalam bidang pendidikan yang berkeupayaan dari segi intelektual dan profesional yang boleh berfungsi secara efektif dalam usaha mempertingkatkan mutu akademik atau kerjaya profesional mereka dalam bidang kepakaran mereka kepada komuniti intelektual dan masyarakat tempatan dan sejagat secara luas dan kukuh, mengikut bidang pengkhususan.

To produce intellectual, professional and capable doctorate holders in the field of education who will play effective roles in the effort to raise academic quality or personal professional careers according to their expertise within the intellectual community and local community according to fields of expertise.

15. OBJEKTIF PENDIDIKAN PROGRAM/ ROGRAMME EDUCATIONAL OBJECTIVES

PEO1 :Memajukan inovasi dalam penyelidikan dan amalan kerja

Develop innovation in research and practice ethics

PEO2 :Menerajui penyelidikan sebagai penyelidik dan / atau pengamal yang berkepakaran di peringkat kebangsaan dan / atau antarabangsa

To lead research as researchers or expert practitioners at national and/or international levels.

PEO3 :Menyebarkan hasil penyelidikan dan / atau memberi nasihat kepakaran secara beretika dan profesional

Disseminate research findings and/or provide ethical and professional expert consultation

16. HASIL PEMBELAJARAN PROGRAM/ PROGRAMME LEARNING OUTCOMES

Di akhir program, calon dapat;

At the end of the programme, candidates will be able to;

| Domain MQF | Hasil Pembelajaran/ Learning Outcomes |
|-------------------|---|
| PO1 | Mengkonstruk pengetahuan baru dan menyumbang kepada literatur penyelidikan dalam bidang pengkhususan yang berkait dengan profesion graduan <i>Construct new knowledge and contribute to research literature in specialized fields related to the graduant's profession</i> |
| PO2 | Memperkukuhkan pengetahuan dan ketrampilan teoretikal, empirical dan pratikal dalam bidang pengkhususan graduan <i>Strengthen knowledge and theoretical skills, empirical and practical, in the graduant's specialized field</i> |

17. KEPERLUAN PROGRAM/ PROGRAMME REQUIREMENTS

(1) SYARAT PENCALONAN CANDIDATURE REQUIREMENTS

Mengikuti Kursus Metodologi Penyelidikan (sekurang-kurangnya 3 jam kredit) tidak lewat dari semester kedua pencalonan;

Attend at least 3 credits of Research Methodology Course not later than the second (2nd) semester of candidature;

- (i) PWA8001 - Kaedah Penyelidikan Kuantitatif dalam Pendidikan atau
- (ii) PWA8005 - Kaedah Penyelidikan Kualitatif dalam Pendidikan
- (i) *PWA8001 Quantitative Research Approaches in Education or*
- (ii) *PWA8005 Qualitative Research Approaches in Education*

(fulfil attendance requirements for the University Bahasa Malaysia course not later than the second (2nd) semester of candidature;) additional for International student.

Membentangkan cadangan penyelidikan dalam Proposal Defence tidak lewat dari semester kedua pencalonan;

Present your research proposal at Proposal Defence not later than the second (2nd) semester of candidature;

Membentangkan kemajuan penyelidikan dalam Candidature Defence tidak lewat dari semester kelima pencalonan;

Present your research progress at Candidature Defence not later than the fifth (5th) semester of candidature;

Membentangkan kemajuan penyelidikan dalam Tesis Seminar sebelum penyerahan tesis;

Present your research progress at Thesis Seminar before the submission of thesis for examination;

Perlu menunjukkan bukti penerimaan untuk penerbitan seperti berikut (mengikut kriteria yang ditetapkan dalam garis panduan penerbitan), sebelum pengijazahan:
Must show proof of acceptance for publication as per the following (according to the criteria set in the publication guidelines), prior to graduation:

- i. sekurang-kurangnya satu (1) artikel dalam jurnal diindeks oleh Thomson Reuters Web of Science (WoS)
at least one (1) article in journals indexed by Thomson Reuters Web of Science (WoS)

atau; or;

- ii. sekurang-kurangnya satu (1) penerbitan buku yang diterbitkan di bawah senarai penerbit Thomson Reuters Web of Science (WoS) Master Book List atau Penerbit Universiti Malaya atau Dewan Bahasa dan Pustaka atau mana-mana penerbit yang diiktiraf dan disenaraikan oleh PTj
at least one (1) book published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List or by University of Malaya Press or Dewan Bahasa dan Pustaka or any publishers listed and recognized by the Faculty

atau; or;

- iii. sekurang-kurangnya satu (2) penerbitan dalam jurnal berkategori A atau B, atau bab buku seperti berikut:
at least two (2) publication in Category A or B refereed journals, or book chapters as follows:

- Artikel dalam jurnal kategori A:
Jurnal di senaraikan dalam indeks Scopus
*Articles in Category A journals:
Journals indexed in the Scopus citation database*
- Artikel dalam jurnal Kategori B:
Jurnal yang diterbitkan oleh Universiti atau penerbit ilmiah atau disenaraikan dalam MyJurnal (Malaysian Journal Management System). (Senarai jurnal kategori B yang diiktiraf dan disenaraikan oleh PTj)
*Articles in Category B journals:
Journals published by University or scholarly publishers or listed in MyJurnal (Malaysian Journal Management System). (List of Category B journals must be listed and recognized by the Faculty)*
- Bab buku daripada buku yang berlainan:
Bab buku yang diterbitkan di bawah senarai penerbit Thomson Reuters Web of Science (WoS) Master Book List atau Penerbit Universiti Malaya atau Dewan Bahasa dan Pustaka atau mana-mana penerbit yang diiktiraf dan disenaraikan oleh PTj. Dua (2) bab buku daripada buku yang berlainan adalah bersamaan dengan satu (1) penerbitan; dan
*Book chapters in different books:
Book chapters published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List, or by University of Malaya Press or Dewan Bahasa dan Pustaka or any publishers listed and recognized by the Faculty. Two (2) book chapters in different books are equivalent to one (1) publication;*

Memenuhi syarat mastautin untuk tempoh dua belas (12) bulan.
Fulfil the residential requirements of twelve (12) months.

- i. Mengikuti dan lulus kursus Metodologi Penyelidikan;
- ii. Membentangkan dalam Proposal Defence;

- iii. Membentang dalam Candidature Defence;
- iv. Membentang dalam Seminar Tesis sebelum penyerahan tesis untuk peperiksaan;
- v. Konsultasi bersemuka dengan penyelia seperti mana yang ditetapkan oleh Fakulti; dan
- vi. Penyertaan dalam aktiviti Fakulti seperti mana yang ditetapkan oleh Fakulti

(2) **KEHADIRAN DAN PENYELIAAN IJAZAH TINGGI/ ATTENDANCE AND HIGHER DEGREE SUPERVISION**

Semua calon ijazah tinggi, dikehendaki berjumpa dengan penyelia atau penasihat mereka, menghadiri kursus (sekiranya disyaratkan) dan seminar atau menggunakan perpustakaan dan kemudahan penyelidikan lain di Universiti.

All higher degree candidates are required to consult with their supervisor or their advisers, attend any courses (if required) and seminars or use the library and other research facilities at the University

(3) **PANJANG PATAH PERKATAAN TESIS/ LENGTH OF THESIS**

Panjang patah perkataan tesis perlu secara am berada dalam julat 80,000 - 100,000 patah perkataan. Jumlah maksimum panjang patah perkataan adalah tidak termasuk *footnotes*, rujukan, lampiran, jadual, rajah dan kata pengantar. Calon yang mahu melepasi had jumlah patah perkataan yang ditetapkan perlu memohon kepada Senat melalui Fakulti tersendiri sekurang-kurangnya tiga bulan sebelum tarikh penyerahan tesis untuk pemeriksaan dan memberikan sebab-sebab mengapa calon tidak boleh menepati jumlah patah perkataan yang telah ditetapkan.

Length of thesis should generally be in the range 80,000 - 100,000 words. The maximum length of words excludes footnotes, references, appendices, tables, figures and prefaces. A candidate who wishes to exceed the number of words specified must apply to the Senate through the respective Faculty at least three months before the submission of the thesis for examination and provide reasons for the inability to adhere to the prescribed length.

SINOPSIS KURSUS / COURSE SYNOPSIS

PWA8001 Kaedah Penyelidikan Kuantitatif dalam Pendidikan (3 jam kredit) ***PWA8001 Quantitative Research Approaches in Education (3 credit hours)***

Pelajar akan mempelajari perkara-perkara penting dalam menggubal penyelidikan kuantitatif bagi membolehkan calon menyediakan suatu cadangan penyelidikan yang mantap. Tajuk yang akan dibincangkan dalam kursus ini termasuk pemilihan dan definisi sesuatu masalah, menyediakan dan menilai sesuatu rancangan penyelidikan; pemilihan sampel dan alat pengukuran yang bersesuaian, penerangan reka bentuk penyelidikan kuantitatif serta pertimbangan etika dan perundangan dalam menjalankan kajian. Kursus ini akan meninjau reka bentuk penyelidikan kuantitatif yang spesifik seperti kaedah tinjauan, kaedah kausal-komparatif, kaedah eksperimental, kaedah korelasi; dan seterusnya.

In this course, candidates will be exposed to advanced quantitative methods in educational research so they can demonstrate practical understanding of those techniques. The course will explore several methods and techniques in quantitative research such as sampling, data gathering techniques, design procedures, measurement and instrumentation, as well as ethical and legal considerations in conducting quantitative research. The course will also deal in-depth with research issues on validity and reliability, the survey method, experimental method, causal-comparative, correlational survey, and so forth.

PWA8005 Kaedah Penyelidikan Kualitatif dalam Pendidikan (3 jam kredit) ***PWA8005 Qualitative Research Approaches in Education (3 credit hours)***

Kursus ini memperkenalkan kepada pelajar beberapa prinsip kaedah penyelidikan kualitatif. Ia akan meneliti secara mendalam beberapa isu berhubungkait dengan perbezaan antara pelbagai rekabentuk yang terdapat dalam kajian kualitatif seperti kajian kes, etnografi, fenomenologi dan lain-lain. Pelajar berpeluang untuk merangka pernyataan masalah, objektif dan soalan kajian, pemilihan sampel dan mengenalpasti pelbagai cara yang digunakan dalam pungutan data kualitatif seperti temubual, pemerhatian, analisis dokumen. Pelajar juga akan didedahkan dengan pelbagai isu yang berkaitan dengan kajian kualitatif seperti etika penyelidikan, kesahan dan kebolehpercayaan. Bagi membolehkan pelajar mendapat kemahiran secara praktikal, mereka dikehendaki menghasilkan satu cadangan penyelidikan yang menggunakan rekabentuk kajian kualitatif.

This course introduces students to the principles of qualitative research methods. It examines in depth issues relating to differences between various the qualitative research methods such as case study, ethnography, phenomenology etc. in terms of philosophical foundations, theoretical framework and data collection. Specific focus will be given on the training in question development, selection of sampling strategy, determination of data collection techniques such as interviewing, making observation, and document analysis, etc. Students will also be exposed to issues related to qualitative

research methodology such as ethical issues, validity and reliability. Scholarly presentation and writing of qualitative research proposal will also be reviewed.

1. SYARAT PENCALONAN /CANDIDATURE REQUIREMENTS

- 1) membentangkan cadangan penyelidikan dalam Proposal Defence;
present your research proposal at Proposal Defence;
- 2) membentangkan kemajuan penyelidikan dalam Candidature Defence;
present your research progress at Candidature Defence;
- 3) perlu menunjukkan bukti penerimaan untuk penerbitan seperti berikut (mengikut kriteria yang ditetapkan dalam garis panduan penerbitan), sebelum pengijazahan:
must show proof of acceptance for publication as per the following (according to the criteria set in the publication guidelines), prior to graduation:
 - i. sekurang-kurangnya satu (1) artikel dalam jurnal diindeks oleh Thomson Reuters Web of Science (WoS)
at least one (1) article in journals indexed by Thomson Reuters Web of Science (WoS)

atau; or;
 - ii. sekurang-kurangnya dua (2) Malaysian Citation Index (MyCite) atau Jurnal yang diiktiraf dan disenaraikan oleh PTj;
at least two (2) in the Malaysian Citation Index (MyCite) or any publishers listed and recognized by the Faculty

atau; or;
 - iii. sekurang-kurangnya satu (1) penerbitan buku yang diterbitkan di bawah senarai penerbit Thomson Reuters Web of Science (WoS) Master Book List atau Penerbit Universiti Malaya atau Dewan Bahasa dan Pustaka atau mana-mana penerbit yang diiktiraf dan disenaraikan oleh PTj
at least one (1) book published by publishers listed in the Thomson Reuters Web of Science (WoS) Master Book List or by University of Malaya Press or Dewan Bahasa dan Pustaka or any publishers listed and recognized by the Faculty

atau; or;
 - iv. sekurang-kurangnya dua (2) penerbitan berbentuk bab buku yang diterbitkan di bawah senarai penerbit Web of Science (WoS) Master Book List atau Majlis Penerbitan Ilmiah Malaysia (MAPIM) Penerbit Universiti Malaya atau Dewan Bahasa dan Pustaka atau mana-mana penerbit yang diiktiraf dan disenaraikan oleh PTj. Dua (2) bab buku daripada buku yang berlainan adalah bersamaan dengan satu (1) penerbitan.
at least one (2) book chapters published listed in the Thomson Reuters Web of Science (WoS) Master Book List or by Majlis Penerbitan Ilmiah Malaysia (MAPIM) University of Malaya Press or Dewan Bahasa dan Pustaka or any publishers listed and recognized by the Faculty. Two (2) book chapters in different books are equivalent to one (1) publication;

2. KEHADIRAN DAN PENYELIAAN IJAZAH TINGGI ATTENDANCE AND HIGHER DEGREES SUPERVISION

Semua calon ijazah tinggi, dikehendaki berjumpa dengan penyelia atau penasihat mereka, menghadiri kursus (sekiranya disyaratkan) dan seminar atau menggunakan perpustakaan dan kemudahan penyelidikan lain di Universiti.

All higher degree candidates are required to consult with their supervisor or their advisers, attend any courses (if required) and seminars or use the library and other research facilities at the University

3. LAPORAN KEMAJUAN/ PROGRESS REPORT

Pada tiap sesi akademik, semua calon ijazah tinggi dikehendaki menyerahkan laporan kemajuan kepada penyelia mereka dengan mengisi borang secara online (myum.um.edu.my) Calon yang gagal menyerahkan laporan kemajuan dianggap kurang memuaskan dan pencalonan mereka akan dikaji semula oleh Jawatankuasa Pengajian Ijazah Tinggi. Pencalonan seseorang akan ditamatkan jika kemajuannya tidak memuaskan.

In each academic session, all candidates are required to submit a progress report to their supervisor

through online (myum.um.edu.my). Candidates who fail to submit a progress report are considered unsatisfactory and their candidature will be reviewed by the Postgraduate Studies Committee. The candidature of a student will be terminated if progress is not satisfactory.

Calon dikehendaki mengemukakan laporan kemajuan penyelidikannya pada akhir semester kepada penyelia mengikut prosedur yang telah ditetapkan. Penyelia, Penyelia Bersama atau Perunding yang dilantik hendaklah menilai laporan kemajuan penyelidikan calon mengikut prosedur yang ditetapkan. *Candidates are required to submit their progress report at the end of the semester to their supervisor according to the fixed procedures. Supervisor/supervisors or appointed consultant needs to evaluate the progress report of the candidate according to the fixed procedures.*

Calon yang kemajuannya memuaskan akan diperakukan untuk pencalonan diteruskan. Calon yang kemajuannya tidak memuaskan untuk tiga (3) semester berturut-turut akan ditamatkan pencalonannya oleh Fakulti. Pengarah, Pusat Pentadbiran dan Perkhidmatan Akademik akan dimaklumkan mengenai penamatan pencalonan calon untuk diambil tindakan.

Candidates whose progress is satisfactory will be allowed to continue their candidature. Candidates whose progress is unsatisfactory for three (3) continuous semesters will be terminated by the Faculty. The Director, Academic Administration and Service Centre will be notified regarding candidature termination for further action.

Calon yang gagal mengemukakan laporan kemajuan penyelidikannya dalam tempoh yang ditetapkan akan dihalang daripada mendaftar untuk semester berikutnya.

Candidates who fail to submit a progress report within the stipulated period will be barred from registration for the following semester.

4. PENAMATAN PENCALONAN/ TERMINATION OF CANDIDATURE

Penamatan pencalonan seseorang calon ijazah tinggi boleh berlaku atas sebab-sebab berikut:
Termination of candidature of any candidate could have happened for the following reasons:\

- (i) Penarikan Diri/ *Withdrawal*:
- (ii) Atas permohonan secara bertulis oleh calon untuk menarik diri.
Upon application in writing by the candidate to withdraw.
- (iii) Luput/ *Lapse*:
Pencalonan dianggap luput apabila calon gagal mendaftarkan diri atau membaharui pencalonannya pada permulaan tiap-tiap sesi akademik.
Candidature nomination is considered lapsed when the candidate fails to register or renew his or her candidature at the beginning of every academic session.
- (iv) Penamatan/ *Termination*:
Pencalonan akan tamat jika calon gagal menyempurnakan pengajiannya dalam tempoh maksimum yang ditetapkan.
Candidature will expire if the candidate fails to complete the study within the prescribed maximum period.
Senat, atas perakuan Jawatankuasa Pengajian Ijazah Tinggi dan Fakulti, boleh membenarkan perlanjutan pencalonan, dan menetapkan syarat baginya, sekiranya permohonan untuk melanjutkan pencalonan dibuat secara bertulis kepada Fakulti.
The Senate, on the recommendation of the Postgraduate Studies Committee and the Faculty, may grant an extension of candidature, and set the conditions if the application for extension of the candidature is made in writing to the Faculty.

5. BAHASA PENULISAN TESIS/ THESIS WRITING LANGUAGE

Bahasa penulisan Tesis adalah dibuat dalam Bahasa Malaysia atau Bahasa Inggeris.
The thesis writing language is Bahasa Malaysia or English.

6. KEBENARAN MENGGUNA SEKOLAH-SEKOLAH UNTUK PENYELIDIKAN/ PERMISSION TO USE SCHOOLS FOR RESEARCH

Calon yang ingin menggunakan sekolah/institusi lain di bawah penguasaan Kementerian Pendidikan untuk penyelidikan mereka dikehendaki meminta kebenaran daripada Kementerian tersebut. Permohonan harus dihantar kepada Bahagian Perancangan dan Penyelidikan Pendidikan,

Kementerian Pendidikan. Borang permohonan untuk keperluan ini boleh didapati daripada Penolong Pendaftar, Fakulti Pendidikan.

Candidates who wish to use the school / other institutions under the control of the Ministry of Education for their research are required to seek permission from the Ministry. Applications should be sent to the Educational Research and Planning Division, Ministry of Education. Application forms for this requirement are available from the Assistant Registrar, Faculty of Education.

7. GARISPANDUAN MENYEDIAKAN CADANGAN PENYELIDIKAN (SEMINAR 1 DAN SEMINAR DUA) / PROVIDING GUIDELINES FOR RESEARCH PROPOSALS (PROPOSAL DEFENCE AND CANDIDATURE DEFENCE)

Seseorang calon Doktor Falsafah dikehendaki menyerahkan secara rasmi cadangan penyelidikannya untuk kelulusan Jawatankuasa peringkat Jabatan selewat-lewatnya lima semester selepas tarikh pendaftaran permohonan.

A PhD candidate is required to submit a formal research proposal for approval at the Department level Committee at least five semesters after the date of the registration application.

Lima salinan cadangan yang ditaip dengan menggunakan dua jarak atas kertas yang bersaiz A4, harus diserahkan kepada Jabatan mengikut program masing-masing.

Five typed copies of the proposal using double spacing on A4 size paper, should be submitted to the Department of the Programmes.

Satu Jawatankuasa Penasihat Penyelidikan yang dianggotai oleh Ketua Jabatan sebagai pengerusi, penyelia (atau penyelia-penyelia) dan penyemak yang dilantik akan menyemak cadangan penyelidikan dan menemuduga calon berkenaan.

A Research Advisory Committee consisting of the Head of Department as chairman, the supervisor (or supervisors) and the reviewer will review research proposals and interview the candidate.

Calon juga dikehendaki mempertahankan cadangannya semasa ditemuduga oleh Jawatankuasa Penasihat Penyelidikan.

Candidates are also required to defend the proposal during an interview by the Research Advisory Committee.

Cadangan ini biasanya mengandungi aspek-aspek di bawah:

The proposal generally contains the aspects below:

- (a) Penghuraian mengenai masalah penyelidikan, termasuk hipotesis atau pembentukan soalan-soalan penyelidikan yang tepat.
Description of research problems, including the formation of exact hypotheses or research questions.
- (b) Penerangan jelas mengenai tujuan, kepentingan dan batasan penyelidikan dari segi konteks, teori dan amalannya.
A clear description of the purpose, importance and limitations in the context of research, theory and practice.
- (c) Tinjauan bahan yang berkenaan berkaitan dengan penyelidikan yang akan dijalankan termasuk penjelasan mengenai tanggapan yang dibuat untuk kajian serta perkaitan kajian dengan sorotan kajian penyelidikan yang telah diikuti.
Review the relevant materials related to research will include an explanation of the assumptions for the study and highlight the relevance of research studies that have followed.
- (d) Ringkasan mengenai rekabentuk kajian termasuk keterangan dan penjelasan metodologi atau prosedur yang digunakan.
A summary of the research design, including information and details of methodology or procedure used.

- (e) Penjelasan yang memuaskan mengenai penyelidikan dan analisis data yang akan digunakan.
A satisfactory explanation of the research and data analysis to be used.
- (f) Lampiran-lampiran, termasuk soalselidik atau alat-alat penyelidikan dan maklumat yang berkenaan jika ada.
Appendices, including the questionnaire or the research tools and relevant information if available.
- (g) Bibliografi.
Bibliography.

8. PENYERAHAN TESIS/ SUBMISSION OF THESIS

- (a) Syarat-syarat khas/ Special conditions:
 - (i) Enam (6) tesis berkulit nipis diserahkan untuk pemeriksaan. Tesis hendaklah ditaip dua spasi ataupun dicetak di atas kertas bersaiz A4, kecuali untuk lukisan atau peta yang tidak mempunyai had saiz kertas. Ruang berukuran 4 sentimeter hendaklah disediakan di sebelah kiri. Tajuk atau ringkasan tajuknya serta nama pengarang hendaklah dicetak dalam huruf besar di tulang belakang tesis. Abstrak atau sinopsis yang tidak melebihi 500 perkataan hendaklah dijadikan prakata kepada tesis.
Six (6) thesis in hard cover must be submitted for examination. The thesis must be typed or printed double space on A4 size paper, except for drawings or maps that do not have the paper size limit. Space measuring 4 centimeters shall be provided on the left. Title or abbreviated title and author's name should be printed in block letters on the spine. Abstract or synopsis not exceeding 500 words should be the preface to the thesis.
 - (ii) Tesis yang telah diperiksa itu dan mengandungi mana-mana pembetulan jika ada, hendaklah dijilid dalam kulit tebal berjenis reksin berwarna merah tua (dark red rexine).
Tiga (3) naskhah tesis tersebut hendaklah diserahkan kepada Universiti.
The thesis that has been inspected and contains any corrections if any, shall be bound in dark red rexine. Three (3) copies of the thesis are to be submitted to the University.
 - (iii) Sebuah tesis Doktor Falsafah tidak boleh melebihi 80,000 perkataan (tidak termasuk notakaki, lampiran, jadual dan rajah) kecuali dalam kes di mana kebenaran khas telah diberi oleh Universiti untuk melebihi had ini. Sebagai tambahan, sebuah abstrak yang tidak melebihi 500 perkataan perlu dikemukakan secara berasingan oleh calon Doktor Falsafah.
A PhD thesis must not exceed 80,000 words (not including the footnote, appendices, tables and figures), except in cases where special permission has been granted by the University to exceed this limit. In addition, an abstract not exceeding 500 words should be submitted separately by the PhD candidate
- (b) Format manuskrip
Format of the manuscript
Pada kebiasaannya, tiap-tiap manuskrip mengandungi tiga bahagian utama; permulaan, teks dan tambahan termasuk rujukan atau bibliografi. Susunan tiap-tiap bahagian ini harus ditentukan oleh calon atas nasihat penyeliannya. Butir lanjut mengenai format dan isi kandungan tiap-tiap bahagian boleh didapati dalam Panduan Penyediaan Tesis, Disertasi dan Laporan Penyelidikan yang disediakan oleh Fakulti Pendidikan.
Usually, every manuscript contains three main parts: the beginning, the text and references or bibliography. The arrangement of every part should be determined by the candidate on the advice of his or her supervisor. Further details on the format and content of each part can be found in the Guide to the Preparation of Thesis, Disertasi and Reserch Report, prepared by the Faculty of Education.

9. PANJANG PATAH PERKATAAN TESIS/ LENGTH OF THESIS

Panjang patah perkataan tesis perlu secara am berada dalam julat 80,000 - 100,000 patah perkataan. Jumlah maksimum panjang patah perkataan adalah tidak termasuk *footnotes*, rujukan, lampiran, jadual, rajah dan kata pengantar. Calon yang mahu melepasi had jumlah patah perkataan yang ditetapkan perlu memohon kepada Senat melalui Fakulti tersendiri sekurang-kurangnya tiga bulan sebelum tarikh penyerahan tesis untuk pemeriksaan dan memberikan sebab-sebab mengapa calon

tidak boleh menentapi jumlah patah perkataan yang telah ditetapkan.

Length of thesis should generally be in the range 80,000 - 100,000 words. The maximum length of words excludes footnotes, references, appendices, tables, figures and prefaces. A candidate who wishes to exceed the number of words specified must apply to the Senate through the respective Faculty at least three months before the submission of the thesis for examination and provide reasons for the inability to adhere to the prescribed length.

SINOPSIS KURSUS / COURSE SYNOPSIS

PWA8001 Kaedah Penyelidikan Kuantitatif dalam Pendidikan (3 jam kredit) PWA8001 Quantitative Research Approaches in Education (3 credit hours)

Dalam kursus ini, calon akan didedahkan kepada kaedah kuantitatif lanjutan dalam penyelidikan pendidikan, supaya mereka dapat menunjukkan pemahaman praktikal tentang kaedah tersebut. Kursus ini akan meneroka beberapa kaedah dan teknik dalam penyelidikan kuantitatif, seperti teknik persampelan, reka bentuk penyelidikan, pengukuran, instrumentasi, dan jenis kaedah analisis data dalam menjalankan penyelidikan kuantitatif. Kursus ini juga akan membincangkan isu-isu penyelidikan yang mendalam tentang kesahan dan kebolehpercayaan, kaedah tinjauan, kaedah eksperimen, kaedah perbandingan, kajian korelasi dan sebagainya. Selain itu, kaedah penyelidikan kuantitatif yang baru iaitu permodalan persamaan struktural akan diperkenalkan melalui kursus ini.

In this course, candidates will be exposed to advanced quantitative methods in educational research, so that they can demonstrate practical understanding of the method. This course will explore several methods and techniques in quantitative research, such as sampling techniques, research design, measurement, instrumentation, and different types of data analysis methods in conducting quantitative research. This course will also discuss in-depth research issues on validity and reliability, survey methods, experimental methods, comparative methods, correlation studies and so on. In addition, a new method of quantitative research, namely structural capitalization, will be introduced through this course.

PWA8005 Kaedah Penyelidikan Kualitatif dalam Pendidikan (3 jam kredit) PWA8005 Qualitative Research Approaches in Education (3 credit hours)

Kursus ini memperkenalkan kepada pelajar beberapa prinsip kaedah penyelidikan kualitatif. Ia akan meneliti secara mendalam beberapa isu berhubungkait dengan perbezaan antara pelbagai rekabentuk yang terdapat dalam kajian kualitatif seperti kajian kes, etnografi, fenomenologi dan lain-lain. Pelajar berpeluang untuk merangka pernyataan masalah, objektif dan soalan kajian, pemilihan sampel dan mengenalpasti pelbagai cara yang digunakan dalam pungutan data kualitatif seperti temubual, pemerhatian dan analisis dokumen. Pelajar juga akan didedahkan dengan pelbagai isu yang berkaitan dengan kajian kualitatif seperti isu etika dalam penyelidikan, kesahan dan kebolehpercayaan.

This course introduces students to the principles of qualitative research methods. It examines in depth issues relating to differences between various qualitative research methods such as case study, ethnography, phenomenology etc. Students will have the opportunity to formulate problem statements,

objectives and research questions, sample selection and identify various methods used in qualitative data collection such as interviews, observations and document analysis. Students will also be exposed to issues related to qualitative research methodology such as ethical issues in research, validity and reliability.

PWX8005 Seminar Kedoktoran (3 jam kredit) **PWX8005 Doctoral Seminar (3 credit hours)**

Kursus ini adalah untuk pelajar mengembangkan cadangan penyelidikan berasaskan peluang berbincang dengan komuniti program Doktor Falsafah di Fakulti Pendidikan yang terdiri daripada rakan dan pensyarah. Pelajar akan membenteng dan berbincang kerja mereka, menerima maklumbalas yang mempertingkatkan mutu usul cadangan mereka secara berterusan.

This course is for students to develop their research proposal with opportunities for ongoing discourse with an extended learning community in the Faculty of Education doctoral program, consisting of fellow graduate students and members of the faculty. Students will present and discuss their work-in-progress proposals, receive feedback from fellow classmates and the instructor, and make relevant improvements..

PWX8006 Thesis (56 jam kredit) **PWX8006 Thesis (56 credit hours)**

Kursus ini memerlukan pelajar untuk menyediakan satu cadangan penyelidikan (termasuk ulasan literature yang lengkap), benteng usul cadangan, menjalankan pelan rekabentuk penyelidikan

(termasuk kutipan data dan analisis) dan akhirnya menulis satu laporan dan membentangkan dapatan kajian. Pelajar akan diselia oleh ahli Fakulti. Pada akhir program satu disertasi akan diserahkan untuk pemeriksaan dan dipertahankan di hadapan jawatankuasa yang dilantik

This course requires the student to prepare a research proposal (including a comprehensive literature review), defend the proposal, carry out the plan in the proposal (including data collection and analysis), and finally report and defend the findings. Students would be supervised by a member(s) of the faculty. A dissertation is submitted for examination at the end of the program and will be defended in front of appointed committee.

PWA8002 Statistik Lanjutan dalam Penyelidikan Pendidikan (3 jam kredit) ***PWA8002 Advanced Statistics in Educational Research (3 credit hours)***

Kursus ini menyediakan pelajar dengan kemahiran untuk menganalisis data daripada penyelidikan pendidikan. Pelajar akan mendapat pendedahan tentang explorasi data deskriptif, statistik inferensi, ujian korelasi dan regresi linear mudah dan statistik tak berparameter. Perisian komputer akan digunakan semasa menganalisis data.

This course provides students with skills to analyze data from educational research. Students will gain exposure on data exploration descriptive, inferential statistics, test correlation and simple linear regression and nonparametric statistics. Computer software will be used when analyzing the data.

PWA8003 Analisis Data Multivariat (3 jam kredit) ***PWA8003 Multivariate Data Analysis (3 credit hours)***

Kursus ini direkabentuk untuk membantu pelajar mengaplikasikan teknik analisis multivariat dalam penyelidikan pendidikan. Kursus ini bermula dengan penghuraian konsep dari matriks algebra dan perbincangan ciri-ciri taburan normal multivariat. Regresi gandaan dan regresi multivariat juga dibincang. Perbandingan pelbagai variabel antara kumpulan; kaedah menguji perbezaan min dan kovarians juga akan diperkenalkan. Analisis diskriminan dan kaedah analisis klasifikasi juga akan

diperkenalkan. Kursus ini dirumuskan dengan perbincangan analisis komponen principal dan analisis faktor.

The course is designed to assist students in applying multivariate on analysis techniques for research in education. The course begins with a review/introduction to basic concepts from matrix algebra and a discussion of the properties of the multivariate normal distribution. Multiple regression is briefly reviewed and multivariate regression is mentioned. The class then discusses methods for comparing groups on several variables; methods for testing for differences of means and covariances will be introduced. Discriminant analysis and classification analysis methods are then introduced. The course concludes with a discussion of principal components analysis and factor analysis.

PWA8006 Teori dan Amalan dalam Kurikulum (3 jam kredit) **PWA8006 Theory and Practice in Curriulum (3 credit hours)**

Tokoh-tokoh dalam teori kurikulum telah menulis secara meluas dan pelbagai tentang klasifikasi pemikiran kurikulum. Kursus ini meneliti secara kritikal teori kurikulum dengan memberi perhatian kepada pengaruh-pengaruh ideologi, politik, sosial, budaya, psikologi, epistemologi serta pegangan agama dan falsafah. Tumpuan ialah kepada perspektif awal kurikulum, perubahan fokus kurikulum yang dipengaruhi oleh pelbagai aliran (spt. Progresif, konstruktivisme), konsepsi pengetahuan dan perkembangan teknologi. Konsep tentang rekabentuk kurikulum dan perancangan kurikulum akan dibincangkan dengan terperinci dan juga berdasarkan kepada analisis perbandingan pelbagai bidang. Tumpuan juga diberi kepada masa depan kurikulum dengan merujuk kepada perkembangan globalisasi dan masyarakat berasaskan pengetahuan.

Curriculum theorists have written diversely and at length about the classification of different curriculum thought. This course critically reviews those curriculum theories in relation to the ideological, socio-political, cultural, psychological, epistemological influences including beliefs in religion and philosophy. Focus on early curriculum perspectives, changes on curriculum focus which were influenced by various schools of thought (e.g. Progressism, Constructivism), knowledge conception and technological development. The concept of curriculum design and curriculum planning will be discussed in detail and also will be based on a comparative analysis of the various fields. Attention is also given to the future curriculum with reference to globalization and knowledge based society.

Kursus ini akan meneliti isu-isu perundangan yang berkait dengan konflik dalam pengurusan pendidikan. Kursus ini juga akan membincangkan kesan, strategi dan cara mengatasi konflik dalam pelbagai keadaan dalam organisasi pendidikan. Kajian kes melibatkan langkah mengenal pasti asal-usul konflik; isu perundangan yang timbul; pendekatan yang digunakan untuk menyelesaikannya; perlindungan; intervensi perundangan; dan, mekanisme resolusi konflik. Analisis penyelidikan yang dijalankan dalam bidang ini akan dijalankan.

The course examines legal issues that are related to conflicts in educational management. Case studies include the identification of sources of conflict; legal issues that arises; alternative approaches to resolve these conflicts; protection; legal interventions; and the conflict resolution mechanism. The course would also analyze research that has been conducted in the area.

PWA8024 Teori dan Amalan Kaunseling Lanjutan (3 jam kredit)

PWA8024 Advanced Counselling Theories and Practices (3 credit hours)

Kursus ini adalah kursus lanjutan dalam teori dan amalan kaunseling. Penekanan diberi kepada aspek teori dalam perhubungan kaunseling dan juga dalam amalan umum kaunseling. Pelajar akan menilai teori-teori sedia ada dan membuat perbandingan berasaskan konteks budaya. Pelajar juga membina model sendiri yang mengambil kira aspek rohani, perskitaran dan neurologi.

This course is an advanced course in the theory and practice of counseling. Emphasis is given to the theoretical aspects in the counseling relationship as well as in the general practice of counseling. Students will learn existing theories and make comparisons based on cultural contexts. Students will develop their own theoretical model that take into account spiritual, environmental and neurological aspects.

PWA8026 Penyeliaan Dalam Kaunseling dan Psikoterapi (3 jam kredit)

PWA8026 Supervision in Counselling and Psychotherapy (3 credit hours)

Kursus ini dibentuk untuk pelajar ijazah lanjutan yang bercadang untuk mengambil peranan dan fungsi penyeliaan dalam bidang kaunseling dan psikoterapi dalam berbagai seting organisasi. Tumpuan akan diberikan kepada model-model sedia ada dalam penyeliaan dan bagaimana model-model tersebut boleh diaplikasi dalam seting penyeliaan. Pelajar juga akan didedahkan kepada kemahiran membina model penyeliaan sendiri.

This course is designed for postgraduate students who intend to take on supervisory roles and functions in the field of counseling and psychotherapy in a variety of organizational settings. The focus will be on existing models in supervision and how those models can be applied in a supervisory setting. Students will also be exposed to the skills of building their own supervisory model

PWA8027 Kaunseling Pencegahan (3 jam kredit) **PWA8027 Preventive Counseling (3 credit hours)**

Kursus ini menyediakan pelajar pasca ijazah dalam kaunseling dengan pengetahuan dalam konseptual dan "bagaimana untuk" merancang, melaksanakan dan menilai intervensi pencegahan. Pelajar akan memahami bagaimana mereka boleh memberi impak kepada individu, keluarga, dan sistem sosial dalam menangani masalah psikologi, pendidikan, dan kesihatan dengan menggunakan intervensi pencegahan Pencegahan masalah sosial dan psikologi seperti keganasan sekolah, kemiskinan, dan penyalahgunaan bahan yang telah dibuktikan oleh kajian empirikal akan turut dibincangkan. Selain itu isu-isu etika dan budaya dalam konteks intervensi pencegahan

This course provides graduate students in counselling with conceptual and "how-to" knowledge in designing, implementing and evaluating preventive interventions. Students will gain an understanding of how they can impact individuals, families, and social systems to avert psychological, educational, and health problems preventive interventions. Prevention of social and psychological problems such as school violence, poverty, and substance abuse that have been proven by empirical research will be discussed, Besides, along with ethical and multicultural issues in prevention.

PWA8029 Teori dan Amalan dalam Kepimpinan Pendidikan (3 jam kredit)

PWA8029 Theory and Practice in Educational Leadership (3 credit hours)

Kursus ini membincangkan pengenalan asas mengenai kepimpinan seperti definisi, konsep dan sejarah. Selanjutnya, kursus ini turut membincangkan pendekatan seperti trait, gelagat dan situasi serta teori kepimpinan pendidikan seperti transformasi, hamba, etika, pembelajaran dan penyelidikan. Di samping itu juga pelajar didedahkan dengan amalan pendekatan dan teori kepimpinan pendidikan oleh tokoh terkemuka dunia. Perbincangan mengenai isu kepimpinan pendidikan turut terkandung dalam kursus ini khususnya isu berkaitan perubahan persekitaran seperti Revolusi Industri 4.0.

This course discusses the basic concepts of leadership such as definitions, concepts and history. In addition, the course also discusses approaches such as traits, behavior and situations. Theories of educational leadership such as transformation, servant, ethics, learning and research leaderships are also introduced in this course. In addition, students are exposed to the application of educational leadership approaches and theories by famous international leaders. Discussions on education leadership issues are also covered in this course, especially on environmental change issues such as Industrial Revolution 4.0.

PWA8030 Analisis Data Kuantitatif (3 jam kredit)
PWA8030 Quantitative Data Analysis (3 credit hours)

Kursus ini menyediakan pelajar dengan kemahiran untuk menganalisis data daripada penyelidikan pendidikan. Pelajar akan mendapat pendedahan tentang explorasi data deskriptif, statistik inferensi, ujian korelasi dan regresi linear mudah dan statistik tak berparameter. Perisian komputer akan digunakan semasa menganalisis data.

This course provides students with skills to analyze data from educational research. Students will gain exposure on data exploration descriptive, inferential statistics, test correlation and simple linear regression and nonparametric statistics. Computer software will be used when analyzing the data.

PWA8031 Analisis Data Kualitatif dalam Pendidikan (3 jam kredit)
PWA8031 Qualitative Data Analysis in Education (3 credit hours)

Calon akan didedahkan kepada pelbagai kaedah menganalisa data kualitatif. Kandungan ini meliputi topik seperti sumber data kualitatif, teknik menganalisis data, pengurusan data, isu kesahan dan kebolehpercayaan, dan mentafsir data dalam penyelidikan pendidikan. Kursus ini juga akan menyentuh pengurusan data kualitatif menggunakan perisian komputer.

Candidates will be introduced to various methods of qualitative data analysis. The course covers topics such as sources of qualitative data, data analysis technique, data management, validity and reliability issues, and interpreting data in educational research. The course will also cover managing qualitative data using computer software.

PWA8032 Pengukuran Objektif (3 jam kredit)
PWA8032 Objective Measurement (3 credit hours)

Objektif kursus ini adalah memperkenalkan pengukuran menggunakan pemodelan rasch dalam konteks penyelidikan pendidikan. Topik termasuk: Pengenalan kepada psikometrik (pengukuran manusia), four building blocks, transformasi data dalam pemodelan rasch, isu kesahan dan kebolehpercayaan, membina kesahihan, analisis skala penilaian, analisis statistik patut item untuk dicotompus dan data politomus, fungsi item berbeza (DIF) orang yang sesuai dengan statistik, teknik penumpuan dan penumpukan, model kredit separa dan analisis pelbagai pihak.

The objective of this course is to introduce measurement using rasch modelling in the context of educational research. Topics include: Introduction to psychometrics (human measurement), four building blocks, data transformation in rasch modelling, validity and reliability issues, construct validity, rating scale analysis, item fit statistics analysis for dicotompus and politomus data, different item functioning (DIF), person fit statistics, racking and stacking techniques, partial credit model and multi rater analysis.

PWA8033 Model Statistik Linear Gunaan (3 jam kredit)
PWA8033 Applied Linear Statistical Models (3 credit hours)

Kursus ini direka bentuk untuk membantu pelajar dalam melaksanakan teknik analisis regresi untuk penyelidikan dalam pendidikan. Melalui tugas praktikal, pelajar bukan sahaja mempelajari cara menerapkan teknik statistik, tetapi juga bagaimana membina model regresi. Isi kandungan meliputi kes-kes khas Model Linear Umum (GLM) seperti regresi linear yang mudah, regresi berganda, model linear, model polinomial, outlier, peramal kategori,. Secara umum kursus ini merangkumi teknik regresi yang paling penting yang digunakan dalam penyelidikan pendidikan. Artikel dari jurnal penyelidikan pendidikan digunakan untuk menggambarkan bagaimana teknik regresi diterapkan dan diterangkan dalam literatur saintifik, dan bagaimana hasilnya boleh dilaporkan dan ditafsirkan.

The course is designed to assist students in applying regression analysis techniques for research in education. Through practical assignments, students not only learn how to apply the statistical techniques, but also how to construct a regression model. The contents cover special cases of General

Linear Models (GLM) such as simple linear regression, multiple regression, linear models, polynomial models, outliers, categorical predictors. In general, this course covers the most important regression techniques used in educational research. Articles from educational research journals are used to illustrate how the regression techniques are applied and described in the scientific literature, and how the results can be reported and interpreted.

PWA8034 Analisis Permodelan Persamaan Struktur (3 jam kredit) PWA8034 Structural Equation Modelling Analysis (3 credit hours)

Kursus ini memperkenalkan model variable latent dan kemahiran confirmatory factor analysis, structural equation models, dan lanjutan latent model-model tersebut. Analisis struktur latent adalah kaedah yang melibatkan variabel latent dan manifest. Variabel manifest boleh diperhatikan dan Variabel latent adalah konstruk teori dan tidak dapat 'diperhatikan'. Jangkaan, kovarians, regresi, maximum likelihood estimation, generalized least squares, path analysis, confirmatory factory analysis, measurement models, and structural equations juga terlibat. Pelajar akan dapat melukis model dan menulis model sebagai satu sistem persamaan, menulis dan menjalankan program serta menginterpretasikan keputusan analisis.

This course will introduce latent variable models. and confirmatory factor analysis, structural equation models skills and latent class extensions of these models. Structural equation modelling analysis is a general class of methods that involve manifest and latent variables that are continuous or categorical. Manifest variables are observed and are usually used as measures of the latent variables. Latent variables are not observed and are the constructs of interest in a theory. Expectations, covariance, regression, maximum likelihood estimation, generalized least squares, path analysis, confirmatory factory analysis, measurement models, and structural equations. You will learn how to diagram the model, write it as a system of equations, write and run a program, and interpret the results.

PWA8035 Undang-undang dan Governan dalam Pendidikan (3 jam kredit)
PWA8035 Laws and Governance in Education (3 credit hours)

Kursus ini membincangkan undang-undang dan governan dalam sector pendidikan. Perbincangan juga berfokus kepada model-model governan dari sudut politik, pengagihan kuasa, tekanan kumpulan berkepentingan, autonomi budaya ilmu liberal, dan operasi berterusan universiti dan kolej. Sistem pengurusan, konsep, teori, prinsip, dan pendekatan pengurusan dibincangkan menurut konteks penubuhan universiti dan kolej. Beberapa analisis struktur organisasi dibuat seperti analisis perlembagaan, analisis statut, analisis berstruktur, dan analisis program academic digunakan untuk memahami perana dan fungsi komponen universiti dan kolej.

This course discusses laws and governance in education sector. Discussion also focuses on various models of governance within the context of politics, distribution of power, competing demands of many interest groups, autonomy of liberal academic culture, and continuous sustenance of universities and colleges. Management system, concepts, theories, principles, and approaches are deliberated within the context of university or college establishment. Several types of analyses such constitutional analysis, statute analysis, structural analysis, and academic programmed analysis are used for deriving a deep understanding on the roles and functions of various components of a university or college organization.

Obtain a minimum band 4 Malaysian University English Test (MUET)

Untuk calon yang berkeperluan khas, selain syarat yang dinyatakan, permohonan calon boleh dipertimbangkan tertakluk kepada tahap keperluan khas dan ketidakupayaan, serta kesesuaian dengan keperluan program.

For candidates with special needs, in addition to the stated terms, the application may be considered subject to the level of special needs and disabilities, as well as suitability to program requirements.

Walau apapun syarat yang dinyatakan di dalam subperaturan di atas, dalam keadaan tertentu, kemasukan pelajar adalah tertakluk kepada keputusan Senat atas perakuan Jawatankuasa Pemilihan Kemasukan Fakulti yang berkenaan.

Notwithstanding the conditions stated in the above subregulations, in certain circumstances, the admission of students is subject to the decision of the Senate on the recommendation of the relevant Faculty Admission Selection Committee.

3. Tempoh Pengajian / Study Period

A. Sepenuh Masa / Full Time

Tempoh Minimum : 3 Semester Biasa
Minimum Period : 3 Regular Semesters

Tempoh Maksimum : 8 Semester Biasa
Maximum Period : 8 Regular Semesters

B. Separuh Masa / Part Time

Tempoh Minimum : 5 Semester Biasa
Minimum Period : 5 Regular Semesters

Tempoh Maksimum : 12 Semester Biasa
Maximum Period : 12 Regular Semesters

4. Matlamat Program / Programme Objective

Matlamat Program Sarjana Pendidikan Sains dengan Teknologi Maklumat adalah untuk menghasilkan graduan yang dinamik dan reflektif yang berupaya memantau dan memperbaiki amalan mereka serta boleh mengaplikasikan pengetahuan praktikal, teori pendidikan, penyelidikan dan pengetahuan Sains untuk menyelesaikan masalah yang berkaitan dengan bidang pendidikan sains.

The goal of the Master's Program in Science Education with Information Technology is to produce dynamic and reflective graduates who are able to monitor and improve their practice and who can apply practical knowledge, educational theory, research and science knowledge to solve problems related to the field of science education.

5. Hasil Pembelajaran Program / Programme Learning Outcomes

Di akhir program, pelajar dapat:

At the end of the programme, students will be able to:

| Domain MQF | Hasil Pembelajaran/ <i>Learning Outcomes</i> |
|------------|--|
| PLO 1 | Menganalisis dan mensintesis pengetahuan lanjutan secara kritis dan hasil dari penyelidikan yang berkaitan dengan pengajaran dan pembelajaran Sains dalam menghadapi cabaran kurikulum yang dinamik <i>Critically analyze and synthesize advanced knowledge and research results related to science teaching and learning in the face of dynamic curriculum challenges.</i> |
| PLO 2 | Menilai senario baharu dalam Pendidikan Sains dan menyelesaikan isu secara inovatif dengan mempamerkan penguasaan pengetahuan, serta menggabungkan teknik analitikal dan numerasi. <i>Evaluate new scenarios in science education and solve issues innovatively by demonstrating mastery of knowledge, as well as combining analytical and numerical techniques.</i> |
| PLO 3 | Mengorganisasi dan melaksanakan penyelidikan berasaskan-hasil dengan mengaplikasikan pelbagai teknik termasuk teknologi digital untuk memperkukuhkan pengetahuan dan amalan dalam pengajaran dan pembelajaran sains. <i>Organize and implement results-based research by applying various techniques including digital technology to strengthen knowledge and practice in science teaching and learning.</i> |
| PLO 4 | Mengadaptasi gaya kepimpinan yang sesuai dan mempamerkan tanggungjawab dan autonomi dalam persekitaran Pendidikan sains terkini yang dinamik. <i>Adapts and appropriate leadership style and exhibits responsibility and autonomy in a dynamic modern science education environment.</i> |
| PLO 5 | Komitmen melaksanakan tugas sama ada secara individu atau dalam pasukan multidisiplin dengan menggunakan kemahiran komunikasi dan interpersonal yang baik dalam persekitaran dan organisasi pendidikan Sains <i>Commitment to perform tasks either individually or in a multidisciplinary team by using good communication and interpersonal skills in educational environment and organization of science.</i> |

| | |
|-------|---|
| PLO 6 | Memenuhi standard pengajaran professional dan penyelidikan dalam meningkatkan imej profession pendidik sains setiap masa. <i>Meet the standards of professional teaching and research in improving the image of the profession of science educators at all times.</i> |
| PLO 7 | Mempamerkan sikap positif dan komitmen terhadap pembelajaran sepanjang hayat dengan mempunyai pemikiran keusahawanan bagi memenuhi keperluan perubahan dunia pendidikan Sains dan kemajuan profesional <i>Exhibit a positive attitude and commitment to life-long learning with an entrepreneurial mind-set in response to the needs and professional advancement in the field of Educational Leadership and Management.</i> |

6. Struktur Program / Programme Structure

Program ini merangkumi empat puluh tiga (43) kredit yang merangkumi dua puluh lapan (28) kredit bagi kursus teras, tiga (3) kredit elektif dan dua belas (12) kredit bagi projek penyelidikan. Strategi pembelajaran melibatkan aktiviti kuliah, perbincangan, pembentangan, tugasan, penyelidikan dengan menggunakan pendekatan yang komprehensif dan inovatif.

The programme consists of forty-three (43) credit that involves twenty-eight (28) credit of core courses, three (3) credit of elective courses and twelve (12) credit for a research project. Learning strategies involve lecture, discussion, presentation, assignments, and research activities that use comprehensive and innovative approaches.

Kursus Teras (Wajib) / Core Courses (Compulsory)

**PERATURAN-PERATURAN UNIVERSITI MALAYA (IJAZAH SARJANA) 2019 /
UNIVERSITY OF MALAYA (MASTER'S DEGREE) REGULATIONS 2019**

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu sebelum tarikh permulaan semester.
Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.

Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

SINOPSIS KURSUS / COURSE SYNOPSIS

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) *Research Methods in Education (3 credits)*

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) *Quantitative and Qualitative Data Analysis (3 credits)*

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan

keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

POX7004 Seminar Kesarjanaan Pendidikan (4 kredit)

Seminar on Educational Scholarship (4 credits)

Sinopsis /Synopsis:

Kursus ini memberi pendedahan tentang paradigma penyelidikan, kesarjanaan pendidikan, etika dalam penyelidikan dan prinsip utama untuk penulisan akademik secara efektif. Antara aspek yang akan dibincang adalah teknik utama, garis panduan dan cadangan untuk menambahbaik kesarjanaan pendidikan dan penulisan akademik. Kursus ini memberi pengalaman praktik dalam menderaf, menyusun, memurnikan dan membenteng teks akademik termasuk artikel, proposal kajian dan laporan penyelidikan.

This course provides exposure to research paradigms, educational scholarship, ethics in research and key principles of effective academic writing. Among the topics to be discussed include key techniques, guidelines and suggestions to improve educational scholarship and academic writing. It will give hands-on experience in drafting, organising, revising and presenting academic texts that includes articles, research proposal and research report.

KURSUS TERAS DISIPLIN / DISCIPLINE CORE COURSE

PQC7005 Teori dan Penyelidikan dalam Kurikulum Sains (3 kredit) ***Theory and Research in Science Curriculum (3 credits)***

Sinopsis /Synopsis:

Tujuan kursus ini merangkumi penilaian secara kritis pelbagai aspek dalam perkembangan kurikulum sains di Malaysia dan aspek berkaitan visi pendidikan negara kita. Rekabentuk, pelaksanaan dan penilaian kurikulum sains juga akan di bandingkan dengan pelbagai negara. Pelajar akan turut didedahkan kepada teori berkaitan pembangunan kurikulum dan kemahiran lain yang di perlukan dalam dunia yang kompleks dan saling berhubung, seperti kemahiran abad ke -21 dan IR 4.0. Fokus akan di berikan kepada rekabentuk instruksi dan kepentingannya.

The purpose of this course is to critically evaluate various aspects of the development of the science curriculum in Malaysia and aspects related to our country's educational vision. The design, implementation and evaluation of the science curriculum will also be compared across countries. Students will also be exposed to theories related to curriculum development and other skills needed in a complex and interconnected world, such as 21st century skills and IR 4.0. Focus will be given to the design of instruction and its importance.

PQC7006 Isu Kontemporari Pendidikan Sains Dalam Era Teknologi Terkini (3 kredit) ***Contemporary Issues in Science Education in the Current Technology Era (3 credits)***

Sinopsis /Synopsis:

Kursus ini akan meneliti isu kontemporari yang mempengaruhi pendidikan sains dalam era teknologi terkini. Pelbagai strategi yang sesuai akan digunakan untuk menentu dan membangun amalan terbaik yang mampu menangani cabaran yang wujud daripada isu kontemporari berkaitan dengan pendidikan sains. Kursus ini juga akan meneliti isu kontempori dalam pendidikan sains nasional dan antarabangsa. Pelajar juga berpeluang untuk membentuk pemahaman terhadap isu kontemporari dalam konteks teknologi terkini dan kesannya keatas persekitaran pembelajaran sains. Melalui kursus ini, diharapkan dapat melahirkan pendidik sains yang dapat memenuhi pengajaran profesional dalam meningkatkan imej profesion setiap masa.

This course will view the contemporary issues that affect science education in relation to the present of current technologies. Various strategies will be used in helping and develop best practices that are able to overcome the challenges encountered from contemporary issues related with science education. This course will also focus on the contemporary issues in science education nationally and internationally. Students could

understand the contemporary issues in the context of the present technology and its effects towards the science learning environment. Through this course, it hopes to produce science educators that are able to fulfil professional teaching in enhancing the image of the profession at all times.

PQC7007 Kognisi dalam Pembelajaran Sains (3 kredit)
Cognition in Learning Science (3 credits)

Sinopsis /Synopsis:

Kursus ini memberi tumpuan dari permulaan hingga penemuan terkini teori pembelajaran yang berpengaruh seperti kognitivisme, konstruktivisme dan teori berasaskan minda. Teori ini berkaitan dengan bagaimana orang belajar dan implikasinya terhadap pengajaran sains. Kursus ini juga memainkan peranan untuk membina latar belakang teori yang kukuh dan akan memberi input penting tentang asas teori dan prinsip sains terperinci dalam pendidikan sains. Pengalaman kumulatif bagi pelajar termasuklah kajian empirikal berasaskan kognisi dalam suasana bilik darjah.

This course focuses on the early beginnings to the latest findings of influential learning theories such as cognitivism, constructivism, and brain-based theories. These theories relate to how people learn and its implications to science teaching. This course will also serve as an enriching theoretical background and will provide important insights on theoretical underpinnings and specific principles in science research education. The culminating experience for the students will include an empirical study of cognition in a classroom setting.

PQC7008 Multimedia dalam Pengajaran Sains (3 kredit)
Multimedia in Science Teaching (3 credits)

Sinopsis /Synopsis:

Kursus ini bertujuan memberi pengalaman kepada pelajar membangunkan perisian multimedia dalam pengajaran sains yang berasaskan kepada gabungan teori dan kemahiran teknikal yang telah disentuh dalam kursus ini. Piawai dan keserasian setiap komponen multimedia diberi penekanan. Aspek antara muka perisian; format akhir pakej perisian pendidikan; dan penilaian perisian yang telah dibangunkan juga akan disentuh.

This course aims to give students experience in developing multimedia software in science teaching based on a combination of theory and technical skills that have been touched on in this course. Standards and compatibility of each multimedia component emphasized. Aspects of the software interface, end format software package for education, and evaluation of software that has been developed will also be touched.

PQC7009 Transformasi Pentaksiran dalam Pendidikan Sains (3 kredit)
Assessment Transformation in Science Education (3 credits)

Sinopsis /Synopsis:

Kursus ini membincangkan teori dan prinsip pentaksiran dalam pendidikan sains serta menganalisis secara kritis objektif, kaedah, strategi dan konstruk pentaksiran dalam kurikulum sains. Kursus ini menyediakan pengetahuan yang sesuai untuk merekabentuk proses pentaksiran yang mencabar, sahih, boleh dipercayai dan menarik. Akhirnya, kursus ini akan memberi pelajar kemahiran untuk menyampaikan komen yang tepat, sah dan sesuai untuk membantu, menjustifikasikan dan melibatkan pihak yang berkaitan dalam menggunakan data untuk meningkatkan prestasi.

This course discusses the theory and principles of assessment in science education and analyses critically the objectives, method, strategies, and construct of assessment in the science curriculum. This course provides appropriate knowledge to design challenging, authentic, reliable, and engaging processes of assessment. Finally, the course would equip students with the skills to communicate accurate, valid, and applicable comments to help, justify and engage relevant parties in using the data to enhance performance.

PQC7010 Pendidikan STEM (3 kredit)

STEM Education (3 credits)

Sinopsis /Synopsis:

Pelajar akan mengembangkan pemahaman mengenai teori, konsep dan isu-isu kontemporari dalam Pendidikan STEM, konteks dan sistem, tempatan, global dan merupakan perbahasan teori dan profesional utama dalam pendidikan STEM seperti yang terdapat dalam penyelidikan kontemporari. Belajar mengenai teknologi digital yang penting untuk penglibatan dalam bidang STEM. Pelajar akan terlibat dengan pedagogi inovatif untuk menjalankan kelas STEM yang merangkumi peringkat sekolah rendah, menengah dan pengajian tinggi. Dengan menggunakan pengetahuan, kemahiran dan kemampuan yang dikembangkan sepanjang kursus, pelajar akan mengkaji secara kritikal penggunaan elemen-elemen ini dalam *setting* STEM kontemporari sehingga meningkatkan peluang anda untuk terlibat dalam amalan STEM yang autentik sebagai seorang pendidik. Kursus ini ditujukan untuk pendidik yang ingin mempraktikkan atau memperluas kemampuan mereka sebagai pendidik sains, teknologi, kejuruteraan, matematik (STEM). Ini akan meningkatkan keupayaan anda untuk memimpin dan menyokong pendidikan STEM yang berkualiti dan memberi inspirasi kepada penglibatan pelajar anda dengan disiplin STEM. Pelajar akan mengembangkan pemahaman yang baik tentang konsep dan isu-isu kontemporari dalam pendidikan, konteks dan sistem STEM, tempatan dan global, dan perbahasan teori dan profesional utama dalam pendidikan STEM seperti yang terdapat dalam penyelidikan kontemporari.

Students will develop an understanding of the UNDERPINNING theory, concepts and contemporary issues in STEM education, contexts and systems, locally, globally and of the major theoretical and professional debates in STEM education as located within contemporary research. Learn about the digital technologies essential to engagement in STEM fields. Students will engage with innovative pedagogies to conduct a STEM class which include primary, secondary and tertiary level. Utilising the knowledge, skills and capabilities developed throughout the course, students will critically examine the use of these elements in contemporary STEM settings thus enhancing your opportunities to engage in authentic STEM practices as an educator. This course is intended for educators who wish to practise or extend their capacity as a science, technology, engineering, mathematics (STEM) educator. It will build your capacity to lead and support quality STEM education and inspire your students' engagement with STEM disciplines. Students will develop a sound understanding of concepts and contemporary issues in STEM education, contexts and systems, locally and globally, and of the major theoretical and professional debates in STEM education as located within contemporary research.

**PQC7011 Evolusi Pengajaran dan Pembelajaran Sains (3 kredit)
*Evolution of Science Teaching and Learning (3 credits)***

Sinopsis /Synopsis:

Kursus ini memberi tumpuan kepada model dan kaedah pengajaran dan pembelajaran (PdP) yang terkini dalam Pendidikan sains seperti model pengajaran 5E, pembelajaran berasaskan masalah (PBL), pembelajaran berasaskan inquiri (IBSE), pembelajaran berasaskan teknologi, kaedah pengajaran neurosains, aktiviti nanosains serta membincangkan bagaimana implikasinya kepada Pendidikan Sains. Kursus ini juga membincangkan evolusi pendekatan pengajaran dan pembelajaran dalam pendidikan Sains. Selain itu, kursus ini akan membincangkan teori-teori di sebalik pembinaan model dan kaedah-kaedah pengajaran dan pembelajaran ini dalam Pendidikan Sains. Pelajar juga dapat meningkatkan amalan profesionalisme dalam mengaplikasikan kaedah-kaedah PdP Sains yang terkini di dalam bilik darjah.

This course focuses on the current teaching and learning (PdP) models and methods in Science Education such as 5E learning cycle, problem-based learning (PBL), inquiry-based learning (IBSE), technology-based learning, neuroscience strategies, nanoscience activities and discusses its implications on Science Education. This course also discuss the evolution of the teaching and learning approach in science education. Furthermore, this course will discuss the theories behind the development of these models and teaching and learning methods in Science Education. Students can also enhance the practice of professionalism in applying the current teaching methods in the classroom.

**PQC7012 Kemampanan dan Kelestarian melalui Pendidikan Alam Sekitar (3 kredit)
*Sustainable and Sustainability through Environmental Education (3 credits)***

Sinopsis /Synopsis:

Kursus ini bertujuan memperkenalkan konsep-konsep utama dalam pendidikan, alam sekitar dan kemampanan (EES) sebagai laluan cara untuk memahami isu-isu dan cabaran alam sekitar di peringkat global dan tempatan. Melalui kursus ini pelajar akan mengaplikasikan pengetahuan berasaskan penyelidikan untuk menjalankan aktiviti berkaitan kelestarian alam sekitar di institusi mereka. Tumpuan juga akan diberikan kepada strategi dan kaedah pengajaran dalam pendidikan alam sekitar seperti pembelajaran antara disiplin pemikiran, pengajaran berasaskan masalah, citizen science dan lain lagi. Pelajar juga perlu menjalankan suatu penyelidikan mini tentang isu alam sekitar.

This course aims to introduce key concepts in education, environment and sustainability (EES) as a way of understanding environmental issues and challenges globally and locally. Through this course, students will apply research-based knowledge to conduct environmental-related activities at their institution. Focus will also be placed on teaching strategies and methods in environmental education such as interdisciplinary learning, problem-based teaching, citizen science and more. Students also need to conduct a mini research on environmental issue.

PQC7013 Reka Bentuk Inovatif Bahan Pengajaran Dan Pembelajaran Sains untuk Penyelidikan (3 kredit)
Innovative Design of Teaching and Learning Science Material for Research (3 credits)

Sinopsis /Synopsis:

Kursus ini mendedahkan pelajar kepada teori yang bersesuaian dalam mereka bentuk bahan pengajaran dan pembelajaran seperti modul, bahan pengajaran kreatif dan lain-lain dalam pembelajaran sains. Kursus ini juga memberi peluang kepada pelajar untuk menghasilkan bahan pengajaran dan pembelajaran yang kreatif dan inovatif dalam pengajaran dan pembelajaran sains. Melalui kursus ini, pelajar dapat meningkatkan amalan profesionalisme dan mengamalkan pembelajaran secara berterusan.

This course focuses on the theories used in developing teaching and learning materials such as modules, models, creative teaching aids and others used in the teaching and learning process of science subjects which include biology, physics and chemistry by applying current technologies. This course also provides opportunities for students to produce innovative and creative teaching and learning materials that can be used in teaching and learning of science. Through this course, students can enhance the practice of professionalism and practise live long learning.

PQC7014 Trend Penyelidikan dalam Pendidikan Sains (3 kredit)
Research Trends in Science Education (3 credits)

Sinopsis /Synopsis:

Kursus ini bertujuan untuk mendedahkan pelajar kepada sifat, ruang lingkup dan pelbagai aspek penyelidikan dalam pendidikan sains, serta kekuatan dan kelemahan masing-masing. Bidang penyelidikan terkini dalam pendidikan sains akan dikaji, dan kajian kuantitatif dan kualitatif yang dipilih, akan dianalisis secara kritis untuk membolehkan para pelajar mempunyai pemahaman yang lebih mendalam mengenai reka bentuk dan metodologi penyelidikan. Pelajar juga berpeluang menulis kertas konsep berdasarkan masalah kajian yang dikenal pasti.

The course is intended to expose students to the nature, scope and various aspects of research in science education, as well as the strengths and weaknesses of each of them. Areas of recent research in science education will be reviewed, and selected quantitative and qualitative studies, will be critically analyzed to enable the students to have a deeper understanding of research designs and methodologies. Students will also have the opportunity to write a conceptual paper based on the research problem identified.

PQC7015 Amalan Pengajaran Berasaskan Bukti Dalam Pendidikan Sains (3 kredit)
Evidence-Based Teaching Practices in Science Education (3 credits)

Sinopsis /Synopsis:

Kursus ini akan mengkaji konsep amalan pengajaran berasaskan bukti. Topik yang akan dibincangkan termasuk definisi, proses dan aplikasi amalan pengajaran berasaskan bukti dalam pengajaran sains. Konsep seperti *interleaving, dual coding, spaced practice, elaboration, retrieval practices* dan sebagainya akan dibincangkan. Pelajar dapat meningkatkan kemahiran dalam mencari bukti dan menentukan kualiti bukti dengan menggunakan literatur secara kritikal. Pelajar juga dikehendaki menyediakan laporan / pembentangan untuk memberi cadangan

berdasarkan bukti dalam pengajaran sains.

This course will examine the concept of evidence-based teaching practice. Topics will include the definitions, processes and applications of evidence-based practices in relation to science teaching. Concepts like interleaving, dual coding, spaced practice, elaboration, retrieval practices and more would be discussed. Students will develop skills in searching for evidence and determining the quality of evidence using critical appraisal of literature. Students are also required to prepare reports/presentation to provide recommendations for effective science teaching based on evidence.

PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)

Sinopsis /Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistik yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

PQX7010 Projek Penyelidikan (12 kredit)
Research Project (12 credits)

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. . Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2,3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2,3, 4 and 5 in the second semester will be submitted for evaluation.

1. Mod Program / Programme Mode

Program secara Kerja Kursus, merupakan program secara perkuliahan sepenuhnya yang melibatkan penghasilan Laporan Penyelidikan.

Coursework mode programme involves lectures and the production of a Research Report.

2. Syarat Kemasukan / Admission Requirements

Kelayakan masuk untuk mengikuti program ini adalah seperti berikut:

Admission requirements for this programme are as follows:

1. Ijazah Sarjana Muda Pendidikan dalam bidang Matematik dengan PNGK 3.00 atau setaraf
A Bachelor of Education Degree in the field of Science with CGPA of 3.00 or equivalent

ATAU/OR

2. Ijazah Sarjana Muda dengan PNGK 3.00 atau setaraf
A Bachelor Degree with CGPA of 3.00 or equivalent

DAN/AND

- i. Diploma Pendidikan Pascasiswazah (Minimum PNGK 3.00) atau,
Postgraduate Diploma in Education (Minimum of CGPA 3.00) or,
- ii. Kelayakan Mengajar yang diiktiraf universiti atau,
Teaching qualification recognised by the university or,
- iii. Pengalaman mengajar dengan institusi yang diiktiraf Senat atau,
Teaching experience in an institution recognised by the Senate or,
- iv. Kelayakan profesional dari badan profesional yang diiktiraf atau
A professional qualification from recognised professional bodies or,
- v. Kelayakan lain yang diluluskan Senat dari semasa ke semasa
Qualifications that are approved by the Senate from time to time

ATAU/OR

3. Ijazah Sarjana Muda Pendidikan dalam bidang Matematik dengan PNGK 2.70 hingga 2.99 atau setaraf
A Bachelor of Education Degree in the field of Science with CGPA of 2.70 to 2.99 or equivalent

DAN/AND

Memenuhi sekurang-kurang satu (1) daripada kriteria berikut:

Fulfilled at least one (1) of the criteria as below:

- i. Graduan UM, atau
UM Graduates, or
- ii. Pengalaman kerja dalam bidang yang berkaitan, atau
Experience in related field, or
- iii. Menghasilkan penerbitan dalam bidang yang berkaitan, atau
Published in related field, or
- iv. Merupakan penerima biasiswa, atau
A sponsorship holder, or
- v. Merupakan kakitangan agensi kerajaan; atau
A government servant; or
- vi. Lulus temuduga PTj, atau
Passed an interview by RoC, or
- vii. Lulus Penilaian Khas PTj.
Passed Special Assessment by RoC.

ATAU/OR

4. Ijazah Sarjana Muda dengan PNGK 2.70 hingga 2.99 atau setaraf
A Bachelor Degree with CGPA of 2.70 to 2.99 or equivalent

DAN/AND

- i. Diploma Pendidikan Pascasiswazah (Minimum PNGK 3.00) atau,

Passed Special Assessment by RoC.

Pemohon Bukan Warganegara/ *International Applicant*

Memenuhi mana-mana kelulusan seperti yang dinyatakan di atas

Fulfilled any qualification as mention above.

DAN/AND

Memperolehi keputusan yang berikut dalam salah satu (1) peperiksaan kecekapan Bahasa Inggeris yang dinyatakan di bawah:

Obtained one (1) of the English proficiency examinations as specified below:

- (i) Memperolehi skor minimum band 5.5 bagi International English Language Testing System (IELTS)(Academic).
Obtain a minimum score of band 5.5 for the International English Language Testing Services (IELTS) (Academic).

atau/or

- (ii) Memperolehi skor minimum sebanyak 550 untuk jumlah berasaskan kertas (PBT), skor sebanyak 213 bagi jumlah berasaskan komputer (CBT) atau skor sebanyak 80 bagi jumlah berasaskan internet (iBT) bagi Test of English as a Foreign Language (TOEFL).
Obtain a minimum score of 550 for paper-based total (PBT), a score of 213 for the computer-based total (CBT) or a score of 80 for the internet-based total (IBT) for the Test of English as a Foreign Language (TOEFL).

atau/or

- (iii) Memperolehi skor minimum 51 Pearson Test of Academic English (PTE Academic)
Obtain a minimum score of 51 Pearson Test of Academic English (PTE Academic)

atau/or

- (iv) Memperolehi minimum gred C bagi subjek Bahasa Inggeris General Certificate of Education (A-Level);
Obtain a minimum Grade C for the English Language subject General Certificate of Education (A-Level)

atau/or

- (v) Memperolehi minimum gred C Cambridge English: First (FCE)
Obtain a minimum Grade C for the Cambridge English: First (FCE)

atau/or

- (vi) Memperolehi minimum gred C Cambridge English: Advance (CAE)
Obtain a minimum Grade C for Cambridge English: Advance (CAE)

atau/or

- (vii) Memperolehi minimum gred C Cambridge English: Proficiency (CPE); atau
Obtain a minimum Grade C for Cambridge English: Proficiency (CPE); or

atau/or

- (viii) Memperolehi minimum band 4 Malaysian University English Test (MUET)
Obtain a minimum band 4 Malaysian University English Test (MUET)

Untuk calon yang berkeperluan khas, selain syarat yang dinyatakan, permohonan calon boleh dipertimbangkan tertakluk kepada tahap keperluan khas dan ketidakupayaan, serta kesesuaian dengan keperluan program.

For candidates with special needs, in addition to the stated terms, the application may be considered subject to the level of special needs and disabilities, as well as suitability to program requirements.

Walau apapun syarat yang dinyatakan di dalam subperaturan di atas, dalam keadaan tertentu, kemasukan pelajar adalah tertakluk kepada keputusan Senat atas perakuan Jawatankuasa Pemilihan Kemasukan Fakulti yang berkenaan.

Notwithstanding the conditions stated in the above subregulations, in certain circumstances, the admission of students is subject to the decision of the Senate on the recommendation of the relevant Faculty Admission Selection Committee.

3. Tempoh Pengajian / Study Period

A. Sepenuh Masa / Full Time

Tempoh Minimum : 3 Semester Biasa
Minimum Period : 3 Regular Semesters

Tempoh Maksimum : 8 Semester Biasa
Maksimum Period : 8 Regular Semesters

B. Separuh Masa / Part Time

Tempoh Minimum : 5 Semester Biasa
Minimum Period : 5 Regular Semesters

Tempoh Maksimum : 12 Semester Biasa
Maksimum Period : 12 Regular Semesters

4. Matlamat Program / Programme Objective

Matlamat Program Sarjana Pendidikan Matematik dengan Teknologi adalah untuk menghasilkan graduan dengan pengetahuan dan kemahiran teknologi dalam bidang pendidikan matematik serta penyelidikan, mempunyai nilai integriti, kemahiran kepimpinan, profesionalisme dan tanggungjawab sosial untuk menghadapi persekitaran yang berdaya saing dan dapat menyumbang kepada bidang pendidikan matematik yang seiring dengan pembangunan negara dan global.

The goal of the Master of Mathematics Education program is to produce graduates who have the knowledge and technological skills in the field of mathematics education as well as research, who has integrity,

leadership skills, display professionalism and are socially responsible to face a competitive environment and able to contribute to the field of mathematics education in line with national and global development.

5. Hasil Pembelajaran Program / Programme Learning Outcomes

Di akhir program, pelajar dapat:

At the end of the programme, students will be able to:

| Domain MQF | Hasil Pembelajaran/ <i>Learning Outcomes</i> |
|------------|---|
| PLO 1 | Mensintesis secara kritis pengetahuan terkini dan pengetahuan yang terbit dari penyelidikan yang berkaitan dengan pengajaran dan pembelajaran matematik berasaskan teknologi yang relevan dengan kurikulum matematik yang inovatif <i>Critically synthesize the contemporary knowledge from research findings that are related to learning and teaching mathematics with technology that is relevant to the innovative curriculum in mathematics education</i> |
| PLO 2 | Menilai isu terkini dan menyelesaikan masalah pendidikan matematik berasaskan teknologi secara inovatif dengan menggunakan kemahiran kognitif dan numerikal <i>Evaluate contemporary issues and innovatively solve technological based mathematics education problems by utilising cognitive and numerical skills</i> |
| PLO 3 | Melaksanakan penyelidikan berasaskan hasil menggunakan teknologi digital untuk meningkatkan amalan pembelajaran dan pengajaran dalam pendidikan matematik berasaskan teknologi <i>Implement outcomes-based research using digital technology to enhance practices on learning and teaching in technological based mathematics education</i> |
| PLO 4 | Mengaplikasikan kemahiran kepimpinan dan mendemonstrasikan tanggungjawab dalam menyelesaikan isu semasa pendidikan matematik berasaskan teknologi <i>Apply appropriate leadership skills and demonstrate responsibility in solving contemporary issues in technological based mathematics education activities.</i> |
| PLO 5 | Menyelesaikan tugas sama ada secara individu atau berpasukan menggunakan komunikasi efektif dan kemahiran interpersonal dalam persekitaran pendidikan matematik berasaskan teknologi <i>Completing tasks either individually or through multi-disciplinary teams using effective communication and interpersonal skills in all technological based mathematics education settings</i> |
| PLO 6 | Memenuhi standard penyelidikan dan pengajaran matematik setiap masa dalam meningkatkan profesionalisme pengamal pendidikan matematik <i>Fulfil technological based mathematics instruction and research standards at all times to improve the professionalism of mathematics educators.</i> |
| PLO 7 | Mempamerkan sikap yang positif dan komitmen terhadap pembelajaran sepanjang hayat dengan minda keusahawanan dalam dunia pendidikan matematik berasaskan teknologi dan untuk kemajuan profesional <i>Exhibit positive attitude and commitment to life-long learning with entrepreneurial mind-set in the technological based mathematics education field and for professional advancement.</i> |

6. Struktur Program / Programme Structure

Program ini merangkumi empat puluh tiga (43) kredit yang merangkumi dua puluh lima (25) kredit bagi kursus teras, enam (6) kredit elektif dan dua belas (12) kredit bagi projek penyelidikan. Strategi pembelajaran melibatkan aktiviti kuliah, perbincangan, pembentangan, tugas, penyelidikan dengan menggunakan pendekatan yang komprehensif dan inovatif.

The programme consists of forty-three (43) credit that involves twenty-five (25) credit of core courses, six (6) credit of elective courses and twelve (12) credit for a research project. Learning strategies involve lecture, discussion, presentation, assignments, and research activities that use comprehensive and innovative approaches.

**PERATURAN-PERATURAN UNIVERSITI MALAYA (IJAZAH SARJANA) 2019 /
UNIVERSITY OF MALAYA (MASTER'S DEGREE) REGULATIONS 2019**

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu sebelum tarikh permulaan semester.
Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.
Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

SINOPSIS KURSUS / COURSE SYNOPSIS

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) *Research Methods in Education (3 credits)*

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) *Quantitative and Qualitative Data Analysis (3 credits)*

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis

data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

POX7004 Seminar Kesarjanaan Pendidikan (4 kredit)

Seminar on Educational Scholarship (4 credits)

Sinopsis /Synopsis:

Kursus ini memberi pendedahan tentang paradigma penyelidikan, kesarjanaan pendidikan, etika dalam penyelidikan dan prinsip utama untuk penulisan akademik secara efektif. Antara aspek yang akan dibincang adalah teknik utama, garis panduan dan cadangan untuk menambahbaik kesarjanaan pendidikan dan penulisan akademik. Kursus ini memberi pengalaman praktik dalam menderaf, menyusun, memurnikan dan membenteng teks akademik termasuk artikel, proposal kajian dan laporan penyelidikan.

This course provides exposure to research paradigms, educational scholarship, ethics in research and key principles of effective academic writing. Among the topics to be discussed include key techniques, guidelines and suggestions to improve educational scholarship and academic writing. It will give hands-on experience in drafting, organising, revising and presenting academic texts that includes articles, research proposal and research report.

PQX7010 Projek Penyelidikan (12 kredit) **Research Project (12 credits)**

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

PQD7001 Pengajaran Algebra dengan Teknologi (3 kredit)
Teaching of Algebra with Technology (3 credits)

Sinopsis /Synopsis:

Kursus ini akan mendedahkan pelajar kepada konsep penting dalam pembelajaran algebra. Antara lain, tumpuan akan diberi kepada kesukaran pembelajaran dan kesilapan umum dalam pembelajaran algebra. Pengalaman tersebut akan dijadikan landasan bagi membincangkan tentang pentaksiran dan proses penyelesaian masalah algebra. Teknik pengajaran algebra di peringkat sekolah rendah dan menengah akan diteliti dan pembinaan tugas yang melibatkan murid menggunakan teknologi akan dibincangkan. Kursus ini juga akan membincangkan isu, cabaran, dan perspektif baru berkaitan penyelidikan tentang algebra.

The course offers the opportunity for students to be exposed to the important concept in algebra. In addition, the focus will be on the common errors and learning difficulties faced in the learning of algebra. The experience will be used as the foundation to discuss the assessment and problem solving in algebra. Teaching and learning techniques in teaching algebra at primary and secondary schools will be covered and the design of tasks that involve students using digital technology will be discussed. Issues, challenges and new perspectives on research in algebra will be covered.

PQD7007 Perkembangan Kurikulum dalam Pendidikan Matematik (3 kredit)
Curriculum Development in Mathematics Education (3 credits)

Sinopsis /Synopsis:

Kursus ini akan mendedahkan pelajar kepada reformasi kurikulum matematik sekolah yang berlaku di Malaysia dari tahun 1950-an hingga kini dari sudut mangkin, fokus, dan cadangan pembelajaran. Pelajar juga akan menganalisis kurikulum matematik sekolah terkini di Malaysia daripada aspek kandungan, pendekatan pengajaran dan pembelajaran serta pentaksiran. Di samping itu, pelajar turut menilai isu kritikal dalam kurikulum matematik sekolah.

The course will expose students to school mathematics curriculum reform in Malaysia from the 1950s to the present from the aspect of catalyst, focus and learning suggestions. Students will also analyse the current school mathematics curriculum in Malaysia from the aspects of content, teaching and learning approaches as well as assessment. Finally, students will evaluate the critical issues in school mathematics curriculum.

PQD7008 Perkembangan Minda Matematik (3 kredit)
Develop Mathematical Mindset (3 credits)

Sinopsis /Synopsis:

Kursus ini akan mendedahkan pelajar kepada pelbagai konsepsi dan komponen pemikiran matematik seperti penyelesaian masalah, penaakulan, komunikasi, perwakilan dan perkaitan matematik. Selain itu, pelbagai teori

tentang cara manusia belajar berfikir secara matematik dan kesukaran dalam memperkembangkan pemikiran matematik murid akan ditekankan. Teknik pedagogi matematik dalam memperkembangkan pemikiran matematik murid akan dibincangkan. Pelajar akan belajar membina tugas yang melibatkan penggunaan teknologi dalam memperkembangkan pemikiran matematik murid. Pelajar juga akan belajar membina instrumen yang boleh mentaksir pemikiran matematik murid.

The course will expose students to various conceptions and components of mathematical thinking such as mathematical problem solving, reasoning, communication, representation, and connection. In addition, various theories of how humans learn to think mathematically and difficulties in the development of students' mathematical thinking will be emphasized. Pedagogical techniques in developing students' mathematical thinking will be discussed. Students will learn to design tasks that will involve the use of technology in developing students' mathematical thinking. Students will also learn to design instruments to assess students' mathematical thinking.

PQD7005 Penyelesaian Masalah Matematik Berasaskan Teknologi (3 kredit)
Technology based Mathematical Problem Solving (3 credits)

Sinopsis /Synopsis:

Kursus ini akan memberi peluang kepada pelajar terlibat dalam pengintegrasian teknologi digital dalam penyelesaian masalah dalam topik seperti nombor, algebra, geometri, statistik, kebarangkalian dan kalkulus. Pengalaman tersebut akan dijadikan landasan bagi membincangkan teori tentang kebolehan dan proses penyelesaian masalah matematik. Teknik pengajaran penyelesaian masalah matematik di peringkat sekolah rendah dan menengah akan diteliti dan pembinaan tugas yang melibatkan murid menggunakan teknologi dalam penyelesaian masalah matematik di peringkat sekolah rendah dan menengah akan dibincangkan. Kursus ini juga akan membincangkan isu, cabaran, dan perspektif baru berkaitan penyelidikan tentang pengintegrasian teknologi digital dalam penyelesaian masalah matematik.

The course offers the opportunity for students to be involved in solving problems in the topics of numbers, algebra, statistics, probability, geometry and calculus. The experience will be used as the foundation to discuss theory related to the process of problem solving and ability in solving problems in mathematics. Teaching and learning technique in teaching problem solving at primary and secondary schools will be covered and the design of tasks that involve students using digital technology in solving mathematical problems at primary and secondary school levels will be discussed. Issues, challenges and new perspectives on research in the integration of digital technology in problem solving in mathematics will also be discussed.

PQD7010 Trend Penyelidikan Pendidikan Matematik (3 kredit)
Mathematics Education Research Trend (3 credits)

Sinopsis /Synopsis:

Kursus ini ditawarkan khusus bagi pelajar yang akan menjalankan penyelidikan untuk kertas projek. Antara lain, tumpuan akan diberi kepada beberapa jenis penyelidikan dalam pendidikan matematik berdasarkan perspektif teori yang berbeza dan membincangkan cara untuk melaksanakan agenda penyelidikan. Perhatian yang khusus akan diberi terhadap pemahaman tentang pelbagai rekabentuk kajian dan prosedur untuk mengumpul, menganalisis, dan mentafsir data kualitatif dan kuantitatif dalam penyelidikan pendidikan matematik.

This course is offered specifically for students who will be conducting research for a project paper. Among others, the focus will be on several types of research in mathematics education based on different theoretical framework and to discuss the method of conducting research. Specific focus will be given to the understanding of various research designs and procedures namely collection, analysis and interpretation of qualitative and quantitative data in mathematics education research.

PQC7008 Multimedia dalam Pengajaran Sains (3 kredit)
Multimedia in Science Teaching (3 credits)

Sinopsis /Synopsis:

Kursus ini bertujuan memberi pengalaman kepada pelajar membangunkan perisian multimedia dalam pengajaran sains yang berasaskan kepada gabungan teori dan kemahiran teknikal yang telah disentuh dalam kursus ini. Piawaian dan keserasian setiap komponen multimedia diberi penekanan. Aspek antara muka perisian; format akhir pakej perisian pendidikan; dan penilaian perisian yang telah dibangunkan juga akan disentuh.

This course aims to give students experience in developing multimedia software in science teaching based on a combination of theory and technical skills that have been touched on in this course. Standards and compatibility of each multimedia component emphasized. Aspects of the software interface, end format software package for education, and evaluation of software that has been developed will also be touched.

PQX7007 Analisis Regresi Gunaan (3 kredit)
Applied Regression Analysis (3 credits)

Sinopsis /Synopsis:

Kursus ini direka bentuk untuk membantu pelajar dalam melaksanakan teknik analisis regresi untuk penyelidikan dalam pendidikan. Melalui tugas praktikal, pelajar bukan sahaja mempelajari cara menerapkan teknik statistik, tetapi juga bagaimana membina model regresi. Isi kandungan meliputi kes-kes khas Model Linear Umum (GLM) seperti regresi linear yang mudah, regresi berganda, model linear, model polinomial, outlier, peramal kategori. Secara umum kursus ini merangkumi teknik regresi yang paling penting yang digunakan dalam penyelidikan pendidikan. Artikel dari jurnal penyelidikan pendidikan digunakan untuk menggambarkan bagaimana teknik regresi diterapkan dan diterangkan dalam literatur saintifik, dan bagaimana hasilnya boleh dilaporkan dan ditafsirkan.

The course is designed to assist students in applying regression analysis techniques for research in education. Through practical assignments, students not only learn how to apply the statistical techniques, but also how to construct a regression model. The contents cover special cases of General Linear Models (GLM) such as simple linear regression, multiple regression, linear models, polynomial models, outliers, categorical predictors, In general this course covers the most important regression techniques used in educational research. Articles from educational research journals are used to illustrate how the regression techniques are applied and described in the scientific literature, and how the results can be reported and interpreted.

PQX7008 Kaedah Multivariat (3 kredit)
Multivariate Methods (3 credits)

Sinopsis /Synopsis:

Kursus ini dirangka untuk membantu pelajar dalam menggunakan teknik analisis multivariat bagi penyelidikan dalam pendidikan. Kursus ini bermula dengan kajian / pengenalan kepada konsep asas dari matriks algebra dan perbincangan tentang sifat-sifat taburan normal multivariat. Regresi berganda dikaji semula secara ringkas dan regresi multivariat disebutkan. Seterusnya, kursus ini membincangkan kaedah untuk membandingkan kumpulan kepada beberapa pemboleh ubah; kaedah untuk ujian bagi perbezaan cara dan covariances akan diperkenalkan. Analisis dan klasifikasi kaedah analisis diskriminan kemudian diperkenalkan. Kursus ini diakhiri dengan perbincangan analisis komponen utama dan analisis faktor.

The course is designed to assist students in applying multivariate on analysis techniques for research in education. The course begins with a review/introduction to basic concepts from matrix algebra and a discussion of the properties of the multivariate normal distribution. Multiple regression is briefly reviewed and multivariate regression is mentioned. Next, this course then discusses methods for comparing groups on several variables; methods for testing for differences of means and covariances will be introduced. Discriminant analysis and classification analysis methods are then introduced. The course concludes with a discussion of principal components analysis and factor analysis.

PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)

Sinopsis /Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistik yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample

besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

Tempoh Minimum : 2 Semester Biasa + 1 Semester Khas
Minimum Period : 2 Regular Semesters + 1 Special Semester

Tempoh Maksimum : 8 Semester Biasa
Maximum Period : 8 Regular Semesters

4. Matlamat Program / Programme Objective

Untuk membangunkan pelajar pascasiswazah yang merupakan pengamal berpengetahuan luas serta bertanggungjawab sosial, penyelidik, dan pemimpin yang mempunyai pengetahuan dan kemahiran yang maju dalam bidang pendidikan Bahasa Inggeris Sebagai Bahasa Kedua.

To develop postgraduates who are well-informed and socially responsible practitioners, researchers and leaders with advanced knowledge and skills in the field of English as a Second Language Education.

5. Hasil Pembelajaran Program / Programme Learning Outcomes

Di akhir program, pelajar dapat:

At the end of the programme, students will be able to:

| Domain MQF | Hasil Pembelajaran/ <i>Learning Outcomes</i> |
|------------|--|
| PLO 1 | Membuat analisis dan sintesis yang kritis terhadap pengetahuan lanjutan tentang konsep, teori, kaedah, dan amalan khusus dalam bidang Pendidikan Bahasa Inggeris Sebagai Bahasa Kedua dalam mendepani cabaran kurikulum yang dinamik. <i>Critically analyse and synthesise advanced knowledge on specialized concepts, theories, methods, and practice in the field of ESL education in meeting the challenges of a dynamic curriculum.</i> |
| PLO 2 | Menilai senario baharu dan menyelesaikan isu-isu berkaitan Pendidikan Bahasa Inggeris Sebagai Bahasa Kedua secara inovatif dengan mempamerkan penguasaan pengetahuan menerusi penerapan teknik analisis dan numerasi lanjutan. <i>Evaluate emerging scenarios and innovatively solve related issues in ESL education demonstrating mastery of knowledge, incorporating advanced analytical and numerical techniques.</i> |
| PLO 3 | Merancang dan menjalankan penyelidikan berdasarkan hasil pembelajaran menggunakan pelbagai teknik, termasuk teknologi digital untuk memantapkan pengetahuan dan amalan mengenai pengajaran dan pembelajaran dalam bidang Bahasa Inggeris Sebagai Bahasa Kedua. <i>Organise and conduct outcomes-based research employing various techniques, including digital technology to strengthen the knowledge and practices on teaching and learning in the field of ESL education.</i> |
| PLO 4 | Menampilkan gaya kepimpinan yang sesuai dan mempamerkan tanggungjawab dan autonomi dalam persekitaran Pendidikan Bahasa Inggeris Sebagai Bahasa Kedua semasa yang baharu dan dinamik. <i>Adapt suitable leadership styles and demonstrate responsibility and autonomy in emerging and dynamic setting of ESL education.</i> |
| PLO 5 | Berkomitah untuk melaksanakan tugas sama ada secara individu atau secara berpasukan interdisiplin dengan kemahiran berkomunikasi dan interpersonal yang baik dalam semua persekitaran Pendidikan Bahasa Inggeris Sebagai Bahasa Kedua. <i>Commit to delivering tasks either individually or through multi-disciplinary teams with good communication and interpersonal skills in all ESL education settings.</i> |
| PLO 6 | Menjunjung profesionalisme dan etika untuk memenuhi standard pengajaran dan penyelidikan profesional bagi meningkatkan imej profesion sepanjang masa. <i>Uphold professionalism and ethics to fulfil professional teaching and research standards in enhancing the image of the profession at all times.</i> |
| PLO 7 | Mempamerkan sikap positif dan komitmen dalam pembelajaran sepanjang hayat dengan pemikiran keusahawanan bagi menangani perubahan dunia Pendidikan Bahasa Inggeris Sebagai Bahasa Kedua untuk kemajuan profesional. <i>Exhibit positive attitude and commitment to life-long learning with entrepreneurial mind-set in response to the changing world of ESL education and for professional advancement.</i> |

6. Struktur Program / Programme Structure

Program ini merangkumi empat puluh dua (42) kredit yang merangkumi dua puluh empat (24) kredit bagi kursus teras, enam (6) kredit elektif dan dua belas (12) kredit bagi projek penyelidikan. Strategi pembelajaran melibatkan aktiviti kuliah, perbincangan, pembentangan, tugasan, penyelidikan dengan menggunakan pendekatan yang komprehensif dan inovatif.

The programme consists of forty-two (42) credit that involves twenty-four (24) credit of core courses, six (6) credit of elective courses and twelve (12) credit for a research project. Learning strategies involve lecture, discussion, presentation, assignments, and research activities that use comprehensive and innovative approaches.

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu dari tarikh permulaan semester.
Course registration must be completed within two (2) weeks from the date semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) jam kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.

Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

SINOPSIS KURSUS / COURSE SYNOPSIS

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) *Research Methods in Education (3 credits)*

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion

PQJ7011 Bahasa Arab untuk Pendidikan Islam (3 kredit)

PQJ7011 Arabic Language for Islamic Education (3 hours)

Sinopsis/Synopsis

Kursus ini akan membincangkan mengenai perspektif Al-Quran yang merupakan sumber pertama dari kepelbagaian ilmu, yang terdiri daripada sains perundangan, ilmu tafsir, feqh, Qiraat dan sebagainya. Justeru daripada kepelbagaian ilmu tersebut lahirlah fundamental ilmu linguistik yang sangat sinonim dari segi retorik, penghujahan dan pengucapan. Oleh itu dalam kursus ini juga akan membincangkan topik mengenai proses linguistik dalam pengajaran kerana ianya adalah satu alat untuk memahami agama dan mengambil faedah di dalamnya, begitu juga dapat memahami dengan apa yang Tuhan kehendaki daripadanya, kerana dalam aspek bahasa setiap perbezaan melodi akan membawa kepada makna yang berbeza dan dengan demikian membawa kepada perbezaan ketetapan setiap hukum.

This course will discuss the perspective of the Qur'an which is the first source of a variety of knowledge, which consists of legal science, exegesis (tafsir), jurisprudence (feqh), Qiraat and so on. Thus, from the diversity of knowledge was exist the fundamentals of linguistic knowledge which is very synonymous in terms of rhetoric, argumentation, and utterance. Therefore, in this course will also discuss the topic of linguistic process in teaching as it is a tool to understand religion and take advantage of it, as well as to understand with what God wants from it, because in linguistic aspect every melodic difference will lead to meaning which are different and thus lead to differences in the stipulations of each legislation

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) *Research Methods in Education (3 credits)*

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) *Quantitative and Qualitative Data Analysis (3 credits)*

Sinopsis /Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan

keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis

deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

PQK7002 Penyelidikan dalam Pendidikan Kemanusiaan (3 kredit)
Research in Humanities Education (3 credits)

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan dalam bidang pendidikan kemanusiaan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori pendidikan kemanusiaan yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students are exposed to the process of conducting research in education. Among the aspects to be discussed are the production of research proposals which include: (1) basic concepts in research in the field of humanities education; (2) selecting the research topic to be studied and why it is being studied; (3) formulate relevant research questions; (4) critically reviewing previous studies, comparing theories of human education in connection with hypotheses; and (5) select the study methodology, including the appropriate data analysis method. Next, students will be guided on how to discuss their findings to draw conclusions.

PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)

Sinopsis /Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistiks yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal,

konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

**PERATURAN-PERATURAN UNIVERSITI MALAYA (IJAZAH SARJANA) 2019 /
UNIVERSITY OF MALAYA (MASTER'S DEGREE) REGULATIONS 2019**

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu sebelum tarikh permulaan semester.
Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.
Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) **Research Methods in Education (3 credits)**

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) **Quantitative and Qualitative Data Analysis (3 credits)**

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas

analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

POX7004 Seminar Kesarjanaan Pendidikan (4 kredit) **Seminar on Educational Scholarship (4 credits)**

Sinopsis /Synopsis:

Kursus ini memberi pendedahan tentang paradigma penyelidikan, kesarjanaan pendidikan, etika dalam penyelidikan dan prinsip utama untuk penulisan akademik secara efektif. Antara aspek yang akan dibincang adalah teknik utama, garis panduan dan cadangan untuk menambahbaik kesarjanaan pendidikan dan penulisan akademik. Kursus ini memberi pengalaman praktik dalam menderaf, menyusun, memurnikan dan membenteng teks akademik termasuk artikel, proposal kajian dan laporan penyelidikan.

This course provides exposure to research paradigms, educational scholarship, ethics in research and key principles of effective academic writing. Among the topics to be discussed include key techniques, guidelines and suggestions to improve educational scholarship and academic writing. It will give hands-on experience in drafting, organising, revising and presenting academic texts that includes articles, research proposal and research report.

PQX7010 Projek Penyelidikan (12 kredit) **Research Project (12 credits)**

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

Sinopsis/Synopsis:

Kursus ini bertujuan menyediakan pelajar dengan pengetahuan dan kemahiran untuk menjalankan penyelidikan berkaitan bidang Pendidikan Seni Visual. Pelajar akan didedahkan dengan teori, prinsip dan isu penting bidang penyelidikan Pendidikan Seni Visual dalam pelbagai dimensi. Selain itu, beberapa kaedah penyelidikan seperti kajian kes, kajian sejarah, kajian tindakan dan lain-lain digunakan untuk mengkaji isu yang wujud. Pelajar juga akan terlibat dalam projek kecil penyelidikan menggunakan kaedah yang bersesuaian bagi isu yang dipilih dalam bidang Seni Visual

This course aims to provide students with the knowledge and skills to conduct research related to the field of Visual Arts Education. Students will be exposed to the theories, principles and important issues of the field of Visual Arts Education research in various dimensions. In addition, several research methods such as case studies, historical studies, action studies and others are used to study the issues that exist. Students will also be involved in small research projects using methods appropriate to selected issues in the field of Visual Arts

ELECTIVE COURSES (CHOOSE 5 FROM 9 COURSES)

PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)

Sinopsis/Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistik yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

PQM7006 Seminar Pendidikan Seni Visual (3 kredit)
Visual Arts Education Seminar (3 credits)

Sinopsis/Synopsis:

Kursus ini bertujuan untuk membantu pelajar mengkonsepsi dan menyediakan satu cadangan penyelidikan. Pelajar akan dibimbing mencari dan mempersembahkan bukti pembacaan yang sesuai supaya dapat menguasai isu kajian yang dipilih. Berasaskan satu struktur proses yang disediakan, pelajar bekerja mengikut jadual untuk menghasilkan satu rancangan penyelidikan, dan membentangkannya untuk penilaian pakar dan rakan sebaya.

This course aims to help students conceptualize and prepare a research proposal. Students will be guided to find and present appropriate reading evidence in order to master the selected research issues. Based on a process structure provided, students work according to a schedule to produce a research plan, and present it for expert and peer evaluation.

PQM7007 Multimedia dalam Pendidikan Seni Visual (3 kredit)
Multimedia in Visual Arts Education (3 credits)

Sinopsis/Synopsis:

Kursus ini bertujuan memberi pengalaman kepada pelajar supaya dapat memahami elemen multimedia yang menjadi asas pengetahuan teknikal yang lebih berstruktur. Pelajar akan membangunkan produk multimedia interaktif bagi bidang Pendidikan Seni Visual berasaskan kepada gabungan teori dan kemahiran teknikal yang dipelajari dalam kursus ini. Piawaian dan keserasian setiap komponen multimedia akan diberi penekanan. Antara topik yang dipelajari ialah peranan teks dalam seni persembahan grafik, falsafah, model dan inovasi bagi produksi grafik, penerbitan video pendidikan, interaktif video dalam pengajaran dan penggunaan media baru menerusi Apps.

This course aims to provide experience for students to be able to understand the elements of multimedia that are the basis of a more structured technical knowledge. Students will develop interactive multimedia products for the field of Visual Arts Education based on a combination of theory and technical skills learned in this course. The standards and compatibility of each multimedia component will be emphasized. Among the topics studied were the role of text in graphic performance art, philosophy, model and innovation for graphic production, educational video production, video interactive in teaching and the use of new media through Apps.

ROD7002 Teori Seni Rupa (3 kredit)
Visual Arts Theories (3 credits)

Sinopsis/Synopsis:

Kursus ini akan mengkaji teori Visual Art dan kaedah yang berbeza yang boleh kita gunakan untuk mentafsir karya seni. Calon akan mengamalkan menulis dengan teori, termasuk memfokuskan penyelidikan mereka dan mengembangkan soalan tentang seni. Akhirnya, calon akan meneroka pelbagai cara untuk membina tesis atau esei mereka melalui penggunaan teori.

This course will study selected visual arts theories and the different methods we can employ to interpret a piece of artwork. Candidates will practice writing with theory and employ theory effectively to produce a line of questioning in their research that is focused and thorough. Finally, candidates will explore different ways of framing their thesis or essay through the use of theory.

ROD7005 Seni Rupa Moden Asia Tenggara (3 kredit)
Southeast Asian Modern Art (3 credits)

Sinopsis/Synopsis:

Kursus ini menyelidiki seni berkaitan dengan konteks sosial, politik dan ekonomi di Asia Tenggara dari hari ke-19 - sekarang, dengan fokus pada naratif 'duniawi'. Kami akan meneroka seni moden Asia Tenggara berkaitan dengan dan dibandingkan dengan budaya seni yang muncul dari Globalisasi (Imperialisme Barat dan Neo-Liberalisme) dan Dunia Ketiga. Kursus ini terdiri daripada tiga bahagian yang berkaitan, yang bertujuan untuk menjadikan 'bingkai tafsiran tempatan kelihatan' walaupun kita menceritakan kisah seni Asia Tenggara dari perspektif global.

Pertama-tama kita akan mengkaji idea-idea mengenai pertumbuhan bandar, perkembangan teknologi, yang lain melalui seni pada abad ke-19, untuk memastikan bagaimana peristiwa-peristiwa bersejarah tertentu - kolonialisme, perlawanan politik, dan pencerahan - membentuk avant-garde, budaya visual, dan gerakan popular. Analisis sejarah akan digabungkan dengan pengenalan pelbagai pendekatan yang digunakan dalam penafsiran seni dan seni bina.

Komponen kedua melihat seni dan seni bina yang berkembang berikutan kemerosotan dan kejatuhan kerajaan. Perkaitan erat antara seni dan konsep kebangsaan menandakan tempoh ini. Walaupun begitu, seniman tidak selalu sepakat dengan ideologi panduan atau bentuk gaya apa yang seharusnya. Pandangan berbeza antara kosmopolitanisme / nativisme, kemodenan / tradisi, realisme / pengabstrakan, kemajuan / pemulihan struktur antinomies seni dan seni bina 'Debat Besar' pada zaman ini.

Kursus ini diakhiri dengan cabaran seni ke arah paradigma moden yang bermula sekitar tahun 1970-an. Perbezaan jantina dan seksual, identiti budaya, globalisasi, digital dan politik lokaliti menjadi perhatian penting dalam pembuatan seni. Sebilangan besar masalah ini juga telah mengubah cara seni dipersembahkan, di mana ia ditunjukkan, dan juga kemunculan kurator sebagai pembicara baru untuk seni. Pergeseran ini dijelaskan dengan istilah 'kontemporari'. Kami akan mengkaji kontemporari berkaitan dengan warisan moden mengenai amalan seni terkini.

This course investigates art in relation to the social, political and economic contexts of Southeast Asia from the 19th – present day, focusing on narratives of 'worlding'. We will explore modern art of Southeast Asia in connection with and in comparison to artistic cultures that emerged from Globalisation (Western Imperialism and Neo-Liberalism) and the Third World. The course is made up of three related sections, which aims to make 'local interpretive frames visible' even as we tell the story of Southeast Asian art from a global perspective.

We will firstly examine ideas about urban growth, technological developments, encountering the other through the arts in the 19th century, to ascertain how specific historical events – colonialism, political resistance, and enlightenment – shaped the avant-garde, visual culture, and popular movements. Historical analysis will be combined with an introduction of various approaches used in the interpretation of art and architecture.

The second component looks at art and architecture that developed following the decline and fall of empire. A close association between art and concept of nationhood marks this period. Nevertheless, artists were not always in agreement what the guiding ideologies or stylistic forms should be. The dissenting views between cosmopolitanism/nativism, modernity/tradition, realism/abstraction, progress/recovery structure the antinomies of art and architectural 'Great Debates' of this period.

The course concludes with artistic challenges towards the modernist paradigm beginning around the 1970s. Gender and sexual difference, cultural identity, globalisation, digital and politics of locality became important concerns in the making of art. Many of these concerns have also changed the way art is presented, where it is shown, as well as the emergence of the curator as a new interlocutor for art. These shifts are described.

**PERATURAN-PERATURAN UNIVERSITI MALAYA (IJAZAH SARJANA) 2019 /
UNIVERSITY OF MALAYA (MASTER'S DEGREE) REGULATIONS 2019**

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu sebelum tarikh permulaan semester.
Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.
Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

SINOPSIS KURSUS / COURSE SYNOPSIS

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) **Research Methods in Education (3 credits)**

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) **Quantitative and Qualitative Data Analysis (3 credits)**

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas

analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

POX7004 Seminar Kesarjanaan Pendidikan (4 kredit)

Seminar on Educational Scholarship (4 credits)

Sinopsis /Synopsis:

Kursus ini memberi pendedahan tentang paradigma penyelidikan, kesarjanaan pendidikan, etika dalam penyelidikan dan prinsip utama untuk penulisan akademik secara efektif. Antara aspek yang akan dibincang adalah teknik utama, garis panduan dan cadangan untuk menambahbaik kesarjanaan pendidikan dan penulisan akademik. Kursus ini memberi pengalaman praktik dalam menderaf, menyusun, memurnikan dan membenteng teks akademik termasuk artikel, proposal kajian dan laporan penyelidikan.

This course provides exposure to research paradigms, educational scholarship, ethics in research and key principles of effective academic writing. Among the topics to be discussed include key techniques, guidelines and suggestions to improve educational scholarship and academic writing. It will give hands-on experience in drafting, organising, revising and presenting academic texts that includes articles, research proposal and research report.

PQX7010 Projek Penyelidikan (12 kredit)
Research Project (12 credits)

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. . Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama . Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation

**PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)**

Sinopsis /Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistiks yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

Sinopsis /Synopsis:

Kursus ini memperkenalkan kandungan pelbagai disiplin kinesiologi. Menunjukkan bagaimana disiplinnya disatukan ke dalam kajian yang berkaitan dengan pergerakan manusia. Asas kursus ini memberi tumpuan kepada fisiologi manusia, biomekanik dan anatomi. Kursus ini akan memberi penekanan lebih kepada pemahaman tentang pergerakan manusia yang berkaitan dengan aplikasi dalam situasi sebenar.

This course introduces contents multidiscipline of kinesiology. Demonstrate how its disciplines integrate into the study which related to human movement. The fundamental of this course focuses on human physiology, biomechanics and anatomy. This course will emphasize more on understanding of human movement relates to the application in actual situation.

PQC7010 Pendidikan STEM (3 kredit)
STEM Education (3 credits)

Sinopsis /Synopsis:

Pelajar akan mengembangkan pemahaman mengenai teori, konsep dan isu-isu kontemporari dalam Pendidikan STEM, konteks dan sistem, tempatan, global dan merupakan perbincangan teori dan profesional utama dalam pendidikan STEM seperti yang terdapat dalam penyelidikan kontemporari. Belajar mengenai teknologi digital yang penting untuk penglibatan dalam bidang STEM. Pelajar akan terlibat dengan pedagogi inovatif untuk menjalankan kelas STEM yang merangkumi peringkat sekolah rendah, menengah dan pengajian tinggi. Dengan menggunakan pengetahuan, kemahiran dan kemampuan yang dikembangkan sepanjang kursus, pelajar akan mengkaji secara kritikal penggunaan elemen-elemen ini dalam *setting* STEM kontemporari sehingga meningkatkan peluang anda untuk terlibat dalam amalan STEM yang autentik sebagai seorang pendidik. Kursus ini ditujukan untuk pendidik yang ingin mempraktikkan atau memperluas kemampuan mereka sebagai pendidik sains, teknologi, kejuruteraan, matematik (STEM). Ini akan meningkatkan keupayaan anda untuk memimpin dan menyokong pendidikan STEM yang berkualiti dan memberi inspirasi kepada penglibatan pelajar anda dengan disiplin STEM. Pelajar akan mengembangkan pemahaman yang baik tentang konsep dan isu-isu kontemporari dalam pendidikan, konteks dan sistem STEM, tempatan dan global, dan perbincangan teori dan profesional utama dalam pendidikan STEM seperti yang terdapat dalam penyelidikan kontemporari.

Students will develop an understanding of the underpinning theory, concepts and contemporary issues in STEM education, contexts and systems, locally, globally and of the major theoretical and professional debates in STEM education as located within contemporary research. Learn about the digital technologies essential to engagement in STEM fields. Students will engage with innovative pedagogies to conduct a STEM class which include primary, secondary and tertiary level. Utilising the knowledge, skills and capabilities developed throughout the course, students will critically examine the use of these elements in contemporary STEM settings thus enhancing your opportunities to engage in authentic STEM practices as an educator. This course is intended for educators who wish to practise or extend their capacity as a science, technology, engineering, mathematics (STEM) educator. It will build your capacity to lead and support quality STEM education and inspire your students' engagement with STEM disciplines. Students will develop a sound understanding of concepts and contemporary issues in

STEM education, contexts and systems, locally and globally, and of the major theoretical and professional debates in STEM education as located within contemporary research.

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu sebelum tarikh permulaan semester.
Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.
Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

SINOPSIS KURSUS / COURSE SYNOPSIS

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) **Research Methods in Education (3 credits)**

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) **Quantitative and Qualitative Data Analysis (3 credits)**

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis

dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

POX7004 Seminar Kesarjanaan Pendidikan (4 kredit) **Seminar on Educational Scholarship (4 credits)**

Sinopsis /Synopsis:

Kursus ini memberi pendedahan tentang paradigma penyelidikan, kesarjanaan pendidikan, etika dalam penyelidikan dan prinsip utama untuk penulisan akademik secara efektif. Antara aspek yang akan dibincang adalah teknik utama, garis panduan dan cadangan untuk menambahbaik kesarjanaan pendidikan dan penulisan akademik. Kursus ini memberi pengalaman praktik dalam menderaf, menyusun, memurnikan dan membenteng teks akademik termasuk artikel, proposal kajian dan laporan penyelidikan.

This course provides exposure to research paradigms, educational scholarship, ethics in research and key principles of effective academic writing. Among the topics to be discussed include key techniques, guidelines and suggestions to improve educational scholarship and academic writing. It will give hands-on experience in drafting, organising, revising and presenting academic texts that includes articles, research proposal and research report.

PQX7010 Projek Penyelidikan (12 kredit)
Research Project (12 credits)

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

PQL7002 Reka Bentuk Pengajaran dan Teknologi (3 kredit) ***Instructional Design and Technology (3 credits)***

Sinopsis /Synopsis:

Kursus ini memperkenalkan kepada pelajar-pelajar tentang prinsip-prinsip asas dan konsep reka bentuk pengajaran dan teknologi sebagai proses membentuk strategi pilihan untuk menyelesaikan masalah berkaitan dengan pengajaran dan pembelajaran. Pendekatan rekabentuk dan pembangunan yang digunakan akan merangkumi prinsip reka bentuk pengajaran dan teknologi, teori pembelajaran, model pengajaran, proses mengenal pasti masalah dalam pengajaran dan pembelajaran, mereka bentuk dan membentuk strategi pilihan dan bahan untuk menyelesaikan masalah, dan menilai serta menguruskan proses pembangunan selaras dengan keperluan hasil pembelajaran.

This course introduces students to the basic principles and concepts of instructional design and technology as the process of developing a preferred strategy for solving problems related to teaching and learning. The design and development approach used will include the principles of instructional and technology design, learning theory, teaching models, the process of identifying problems in teaching and learning, designing and developing strategies and materials for problems solving, evaluating and managing development processes in accordance with the need for learning outcomes.

**PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)**

Sinopsis /Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistik yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

Sinopsis /Synopsis:

Kursus ini memberi peluang membincangkan teori pembelajaran dan reka bentuk yang sesuai serta maklumat penyelidikan secara kritis untuk memupuk pembelajaran dan pemikiran aras tinggi (dicirikan oleh usaha kolektif persefahaman dan mewujudkan dan memajukan pengetahuan) dalam persekitaran pembelajaran digital. Satu projek berasaskan penyelidikan akan dijalankan untuk mengintegrasikan dan mengaplikasikan teori, prinsip dan

kemahiran reka bentuk atau membangunkan persekitaran pembelajaran digital yang boleh memupuk pembelajaran pada peringkat lanjutan.

This course provides the opportunity to discuss learning theory and design and research information critically to foster high level learning and thinking (characterized by collective efforts to understand and create and advance knowledge) in the digital learning environment. A research-based project will be undertaken to integrate and apply theory, principles and design skills or to develop a digital learning environment that can foster advanced learning.

PQL7007 Inovasi Digital dalam Pendidikan (3 kredit)
Digital Innovation in Education (3 credits)

Sinopsis /Synopsis:

Kursus ini bertujuan untuk memberi pendedahan kepada pelajar mengenai konsep dan alat pengajian masa depan dan aplikasi tersebut kepada perancangan pendidikan negara. Kaedah inovasi digital pendidikan terkini digunakan untuk pengumpulan data atau meramal hala tuju masa depan inovasi dalam pendidikan. Fokus utama adalah analisis trend global yang membentuk sistem pendidikan masa depan, digital kurikulum dan penilaian pedagogi.

This course is aimed at exposing students to the concepts and tools of future studies and their application to the educational planning of the nation. Current new digital innovations method is used for data collection for predicting future directions in education. The main focus is the analysis of global trends that shape the future education system, digital curriculum and pedagogy assessment.

POG7004 Pengurusan Kurikulum (3 kredit)
Curriculum Management (3 credits)

Sinopsis /Synopsis:

Kursus direkabentuk bagi memperkenalkan pelajar kepada proses pelaksanaan kurikulum, asas teori yang digunakan, masalah yang mungkin dan juga biasa dihadapi dan strategi serta pendekatan yang boleh digunakan bagi menyelesaikan masalah dan membolehkan pelaksanaan berjalan lancar.. Antara tajuk yang dibincangkan ialah kes-kes pelaksanaan dalam pelbagai senario perubahan kurikulum, teori dalam perancangan sebagai landasan menentukan strategi pelaksanaan, faktor dalam masalah pelaksanaan kurikulum, langkah dalam menentukan pendekatan yang efektif dalam mengatasi masalah pelaksanaan, sumber data dan pencerakinannya dalam membantu proses pelaksanaan, dan perkembangan professional serta arah aliran dalam pelaksanaan kurikulum dimasa akan datang.

This course is designed to introduce to students about processes of curriculum implementation, basic theory used, problem faced and strategy and approach used to solve problems and smoothen the implementation. Topics discuss are implementation cases in different changes in curriculum scenario, implementation theories as basis to decide implementation strategy, problems factors in implementation curriculum, steps in deciding effective approach to solve implementation problems, data resources and development in implementation processes and professional development and flow in implementing future curriculum.

POG7005 Aplikasi Teknologi Dalam Pelaksanaan Kurikulum (3 kredit)
Application of Technology in Curriculum Implementation(3 credits)

Sinopsis /Synopsis:

Kursus ini bertujuan untuk memperkenalkan pelajar kepada prinsip dan amalan teknologi pengajaran untuk membolehkan ia diaplikasikan dalam pengajaran subjek tertentu. Pelajar akan menganalisis literatur tentang penggunaan teknologi dalam konteks pengajaran dan pembelajaran. Tambahan pula, secara berkumpulan, pelajar akan mencadangkan penggunaan teknologi dalam kurikulum sedia ada yang dipilih.

The course explores the principles and practices of educational technology to enable its application into specific content areas. Students will analyze literature on the application of educational technology in the context of teaching and learning. Additionally, students will be involved in group work activities in which they will propose the integration of technologies into selected existing curriculum.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) **Quantitative and Qualitative Data Analysis (3 credits)**

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis

dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

Organizational Behaviour and Development in Education (3 credits)

Sinopsis/Synopsis:

Kursus ini menekankan kepelbagaian demografi dan budaya dalam organisasi serta menangani isu dan cabaran yang berkaitan dengannya. Pemahaman ini akan membantu pelajar, kakitangan, guru dan pemimpin untuk mewujudkan budaya kolaboratif dalam organisasi. Teori motivasi juga termasuk bagi menekankan kepada para pemimpin bagaimana berperilaku dengan orang bawahan untuk menyempurnakan tugas bagi memaksimumkan pengeluaran. Perbincangan juga merangkumi topik berkaitan stres dan emosi, bahagian penting manusia yang mempunyai kesan yang signifikan terhadap pengambilan keputusan pemimpin dan produktiviti guru. Bersama dengan tingkah laku organisasi, komponen pembangunan organisasi dan pemahaman mereka dengan strategi yang berubah juga difokuskan. Faktor yang memupuk perubahan dari dalam dan luar serta cabaran dan isu berkaitan telah dimasukkan dalam perbincangan untuk memahami dekonstruksi dan pembinaan semula pertubuhan pendidikan melalui revolusi digital.

This course highlights the presence of demographic and cultural diversity in organization and address the issues and challenges related to it. This understanding will help students, staff, teachers, and leaders to create a collaborative culture in organization. Motivational theories are also included to enlighten the leaders how to behave with subordinates to get the things done for maximising the output. Also the discussion includes the topic 'stress and emotion', the essential part of human being, which has significant impact on leaders' decision making and teachers' productivity. Along with organizational behaviour, the components of organizational development and their understanding with changing strategy are also focussed. Factors fostering change from inside and outside and related challenges and issues have been included in discussion to comprehend the Deconstruction and Reconstruction of the Educational Organization through digital revolution.

PQN7011 Penyeliaan dan Bimbingan dalam Organisasi Pendidikan (3 kredit)
Supervision and Coaching in Educational Organization (3 credits)

Sinopsis/Synopsis:

Sejak kebelakangan ini, terdapat perdebatan tentang pelbagai definisi dan pandangan tentang penyeliaan dan tugas penyelia yang telah berubah daripada peranan yang berpusat kepada mengawal-selia berubah kepada peranan yang bersifat lebih menyokong, jelek, kooperatif dan pementoran. Dua persoalan yang boleh merangsang

pemikiran kita terhadap perkembangan ini adalah: (1) Apakah proses penyeliaan dan bimbingan yang boleh membantu atau menggalakkan perkembangan dan pengajaran guru ditingkatkan? (2) Apakah ilmu pengetahuan dan kemahiran yang perlukan oleh seorang penyelia dan pembimbing boleh membantu guru yang berada pada tahap perkembangan yang berbeza? Oleh itu, dalam memberi maklum balas terhadap dua persoalan ini, kepentingan pembelajaran guru dalam proses penambahbaikan pengajaran mesti menjadi elemen paling utama. Justeru, peranan penyelia dan pembimbing sebagai pemimpin pengajaran dan proses penyeliaan dan bimbingan sebagai platform untuk membantu and menyokong perkembangan professional guru perlu di lihat secara kritis. Kursus ini tertumpu kepada konsep dan proses amalan penyeliaan dan bimbingan untuk menambahbaik keberkesanan sekolah melalui peningkatan dan pembangunan profesional guru-guru, secara berterusan berasaskan kepada tahap perkembangannya. Kandungan kursus terbentuk daripada gabungan tiga modul Kurikulum Kepimpinan iaitu: (a) Pembangunan Profesional yang Berfokus dan Berkesinambungan, (b) Pembangunan Pasukan Kepimpinan Pengajaran, dan (c) Bimbingan Penambahbaikan Sekolah. Program ini akan membolehkan calon membangunkan pengetahuan dan kemahiran menyelia dan membimbing yang penting dan mustahak dalam menyokong dan mengekalkan prestasi profesional guru yang lebih baik dalam sesebuah organisasi.

In recent years, there has been a debatable concern in the shift of definitions and views of supervision, and supervisors' roles from a control or deficit roles towards more supportive, collegial, cooperative, and mentoring roles. Two stimulating questions leading to our thinking in relation to the above development would be: (1) What are the supervisory and coaching processes that promote teacher's professional growth and development, which results in quality instructions? and (2) What knowledge and skills do supervisors and coaches need in order to help teachers in multiple stages of professional development? Hence, in responding to these two questions, teacher learning must be viewed as the most important element in the instructional improvement process. With that, the roles of supervisors and coaches as instructional leaders and the supervision and coaching processes as teachers' professional development platforms should be viewed critically in promoting individuals continuous growth and organisational systemic development, which can result in effective schools. Therefore, this course will focus on the concept and processes of supervisory and coaching practices in facilitating school effectiveness through capacity-building enhancement and professional development of teachers in school context. The course content derived heavily on three Leadership Curriculum Modules which includes: (a) Focused and Sustained Professional Development, (b) Building Instructional Leadership Teams, and (c) Coaching for School Improvement. Consequently, this course will enable candidates to develop essential and desirable knowledge and skills to support and sustain teachers' continuous professional development for the betterment of performance in an organisation.

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) *Research Methods in Education (3 credits)*

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) *Quantitative and Qualitative Data Analysis (3 credits)*

Sinopsis /Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, menranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas

analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

PQC7010 Pendidikan STEM (3 kredit)
STEM Education (3 credits)

Sinopsis /Synopsis:

Pelajar akan mengembangkan pemahaman mengenai teori, konsep dan isu-isu kontemporari dalam Pendidikan STEM, konteks dan sistem, tempatan, global dan merupakan perbahasan teori dan profesional utama dalam pendidikan STEM seperti yang terdapat dalam penyelidikan kontemporari. Belajar mengenai teknologi digital yang penting untuk penglibatan dalam bidang STEM. Pelajar akan terlibat dengan pedagogi inovatif untuk menjalankan kelas STEM yang merangkumi peringkat sekolah rendah, menengah dan pengajian tinggi. Dengan menggunakan pengetahuan, kemahiran dan kemampuan yang dikembangkan sepanjang kursus, pelajar akan mengkaji secara kritikal penggunaan elemen-elemen ini dalam *setting* STEM kontemporari sehingga meningkatkan peluang anda untuk terlibat dalam amalan STEM yang autentik sebagai seorang pendidik. Kursus ini ditujukan untuk pendidik yang ingin mempraktikkan atau memperluas kemampuan mereka sebagai pendidik sains, teknologi, kejuruteraan, matematik (STEM). Ini akan meningkatkan keupayaan anda untuk memimpin dan menyokong pendidikan STEM yang berkualiti dan memberi inspirasi kepada penglibatan pelajar anda dengan disiplin STEM. Pelajar akan mengembangkan pemahaman yang baik tentang konsep dan isu-isu kontemporari dalam pendidikan, konteks dan sistem STEM, tempatan dan global, dan perbahasan teori dan profesional utama dalam pendidikan STEM seperti yang terdapat dalam penyelidikan kontemporari.

Students will develop an understanding of the underpinning theory, concepts and contemporary issues in STEM education, contexts and systems, locally, globally and of the major theoretical and professional debates in STEM education as located within contemporary research. Learn about the digital technologies essential to engagement in STEM fields. Students will engage with innovative pedagogies to conduct a STEM class which include primary, secondary and tertiary level. Utilising the knowledge, skills and capabilities developed throughout the course, students will critically examine the use of these elements in contemporary STEM settings thus enhancing your

opportunities to engage in authentic STEM practices as an educator. This course is intended for educators who wish to practise or extend their capacity as a science, technology, engineering, mathematics (STEM) educator. It will build your capacity to lead and support quality STEM education and inspire your students' engagement with STEM disciplines. Students will develop a sound understanding of concepts and contemporary issues in STEM education, contexts and systems, locally and globally, and of the major theoretical and professional debates in STEM education as located within contemporary research.

PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)

Sinopsis /Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistiks yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

PQX7010 Projek Penyelidikan (3 kredit)
Research Project (3 credits)

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students

need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

SINOPSIS KURSUS / COURSE SYNOPSIS

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) *Research Methods in Education (3 credits)*

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) *Quantitative and Qualitative Data Analysis (3 credits)*

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas

analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

PQX7010 Projek Penyelidikan (12 kredit)
Research Project (12 credits)

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan diserahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.
Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) **Research Methods in Education (3 credits)**

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) **Quantitative and Qualitative Data Analysis (3 credits)**

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data, mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas

analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

POX7004 Seminar Kesarjanaan Pendidikan (4 kredit)

Seminar on Educational Scholarship (4 credits)

Sinopsis /Synopsis:

Kursus ini memberi pendedahan tentang paradigma penyelidikan, kesarjanaan pendidikan, etika dalam penyelidikan dan prinsip utama untuk penulisan akademik secara efektif. Antara aspek yang akan dibincang adalah teknik utama, garis panduan dan cadangan untuk menambahbaik kesarjanaan pendidikan dan penulisan akademik. Kursus ini memberi pengalaman praktik dalam menderaf, menyusun, memurnikan dan membenteng teks akademik termasuk artikel, proposal kajian dan laporan penyelidikan.

This course provides exposure to research paradigms, educational scholarship, ethics in research and key principles of effective academic writing. Among the topics to be discussed include key techniques, guidelines and suggestions to improve educational scholarship and academic writing. It will give hands-on experience in drafting, organising, revising and presenting academic texts that includes articles, research proposal and research report.

PQX7010 Projek Penyelidikan (12 kredit) **Research Project (12 credits)**

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

PQR7001 Teori Pengukuran dan Pentaksiran (3 kredit) Assessment and Measurement Theory (3 credits)

Sinopsis/Synopsis:

Kursus ini bertujuan untuk memperkenalkan pelajar unsur-unsur teori ujian klasik dan teori modern konsep asas pengukuran pendidikan. Topik turut membincangkan termasuk menerangkan pengukuran dalam pendidikan, skala pengukuran, teori ujian, konsep statistik dan asas untuk teori ujian, pengenalan kepada skala, skor ujian sebagai komposit kebolehpercayaan dan model klasik skor sebenar. Prosedur untuk menganggar kebolehpercayaan, kesahan, klasifikasi dan penentuan standard (piawaian).

The purpose of this course is to introduce students to the elements of classical test theory and modern test theory as basic concepts of educational measurement and assessment. The topics for discussion include: human measurement science, measurement scales, test theory, concepts and foundation for test theory, introduction to scaling, test scores as composites, reliability and validity issue, statistical procedures for prediction and classification, and setting standards.

PQR7002 Psikometrik dan Pentaksiran Dalam Pendidikan (3 kredit) Psychometrics and Assessments in Education (3 credits)

Sinopsis/Synopsis:

Kursus ini memberi pendedahan terhadap prinsip asas psikometrik dan pentaksiran yang diaplikasi dalam konteks pendidikan dengan penekanan terhadap pengukuran psikologikal. Proses pembinaan, adaptasi dan terjemahan ujian turut dibentangkan dengan amalan praktikal untuk membina kemahiran penggunaan ujian. Aspek komersil ujian psikologi akan turut dibincangkan. Contoh-contoh ujian serta pentaksiran dalam domain minat kerjaya, personaliti, kecerdasan, serta tingkah laku adaptif akan digunakan untuk membiasakan pelajar dengan instrumen yang biasa diguna dalam pendidikan.

This course provides an exposure to the basic principles of psychometrics and assessments as applied in an educational setting with a focus on psychological measurement. The processes of test development, adaptation and translation will be presented with practical exercises to build the skills as a test user. The commercial aspects of psychological tests will also be discussed. Examples tests in the domain of career interest, personality, intelligence and adaptive behaviour will be used to familiarize students with instruments that are used widely in the educational setting.

PQR7003 Kaedah Analisis Faktor (3 kredit)
Methods of Factor Analysis (3 credits)

Sinopsis/Synopsis:

Kursus ini membentangkan asas analisis faktor. Teori dan kegunaan faktor analisis dalam penyelidikan pendidikan akan dihuraikan. Kursus ini juga menerapkan pemahaman terhadap logik, pendekatan-pendekatan dan teknik-teknik analisis faktor 'exploratory' dan analisis faktor 'confirmatory' dalam penyelidikan pendidikan. Pelajar akan mendalami dan memahami kemahiran dan pengetahuan yang berkaitan untuk menganalisis data kuantitatif dan menguji hipotesis menggunakan perisian-perisian khusus seperti JASP, SPSS and AMOS.

This course will present the fundamentals of factor analysis. The theories and applications of factor analysis in educational research are explored. This course will also encourage understandings on the logic, approaches and techniques of exploratory and confirmatory factor analysis in educational research. Students will learn in-depth and understand the skills and knowledge that are relevant to analyse quantitative data and hypothesis testing using software like JASP, SPSS and AMOS.

PQR7004 Kaedah Analisis Item (3 kredit)
Item Analysis Method (3 credits)

Sinopsis/Synopsis:

Kursus ini bertujuan untuk memperkenalkan pelajar pada aplikasi teori ujian modern untuk analisis item pada pengukuran pendidikan. Topik turut membincangkan termasuk menerangkan pengukuran manusia, four building blocks, skala pengukuran, kesahan dan kebolehpercayaan di tingkat item, ketelitian item, ketepatan item, analisis pengecoh, analisis bias (DIF) dan analisis skala peringkat.

The purpose of this course is to introduce students to the application of modern test theory for item analysis in educational measurement and assessment. The topics for discussion include human measurement sciences, four building blocks, measurement scales, reliability and validity, item preciseness, fit statistics, distractor

analysis, item bias/different item functioning (DIF) and rating scale analysis.

Statistics with R (3 credits)

Sinopsis/Synopsis:

Kursus ini bertujuan mengukuhkan pengetahuan statistik pelajar dengan pendedahan terhadap perisian R dan R Studio. Pengetahuan asas tentang persekitaran R dan cara menggunakannya akan diberikan dengan menggunakan contoh-contoh praktikal. Justeru, kursus ini akan membantu pelajar membina kemahiran menggunakan perisian R untuk melakukan visualisasi data, analisis data, ujian statistik, simulasi dan pengaturcaraan.

This course aims to enhance students' knowledge of statistics through an exposure to R and R Studio. Basic knowledge about R and the way to use it will be given by using practical examples. Therefore, the course will help students to acquire skills in the use of R for data visualisation, data analysis, statistical test, simulation, and programming.

PQX7007 Analisis Regresi Gunaan (3 kredit)
Applied Regression Analysis (3 credits)

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar dalam melaksanakan teknik analisis regresi untuk penyelidikan dalam pendidikan. Melalui tugas praktikal, pelajar bukan sahaja mempelajari cara menerapkan teknik statistik, tetapi juga bagaimana membina model regresi. Isi kandungan meliputi kes-kes khas Model Linear Umum (GLM) seperti regresi linear yang mudah, regresi berganda, model linear, model polinomial, outlier, peramal kategori. Secara umum kursus ini merangkumi teknik regresi yang paling penting yang digunakan dalam penyelidikan pendidikan. Artikel dari jurnal penyelidikan pendidikan digunakan untuk menggambarkan bagaimana teknik regresi diterapkan dan diterangkan dalam literatur saintifik, dan bagaimana hasilnya boleh dilaporkan dan ditafsirkan.

The course is designed to assist students in applying regression analysis techniques for research in education. Through practical assignments, students not only learn how to apply the statistical techniques, but also how to construct a regression model. The contents cover special cases of General Linear Models (GLM) such as simple linear regression, multiple regression, linear models, polynomial models, outliers, categorical predictors, In general this course covers the most important regression techniques used in educational research. Articles from educational research journals are used to illustrate how the regression techniques are applied and described in the scientific literature, and how the results can be reported and interpreted.

PQX7008 Kaedah Multivariat (3 kredit)
Multivariate Methods (3 credits)

Sinopsis/Synopsis:

Kursus ini dirangka untuk membantu pelajar dalam menggunakan teknik analisis multivariat bagi penyelidikan dalam pendidikan. Kursus ini bermula dengan kajian / pengenalan kepada konsep asas dari matriks algebra dan perbincangan tentang sifat-sifat taburan normal multivariat. Regresi berganda dikaji semula secara ringkas dan regresi multivariat disebutkan. Seterusnya, kursus ini membincangkan kaedah untuk membandingkan kumpulan kepada beberapa pembolehubah; kaedah untuk ujian bagi perbezaan cara dan covariances akan diperkenalkan. Analisis dan klasifikasi kaedah analisis diskriminan kemudian diperkenalkan. Kursus ini diakhiri dengan perbincangan analisis komponen utama dan analisis faktor.

The course is designed to assist students in applying multivariate on analysis techniques for research in education. The course begins with a review/introduction to basic concepts from matrix algebra and a discussion of the properties of the multivariate normal distribution. Multiple regression is briefly reviewed and multivariate regression is mentioned. Next, this course then discusses methods for comparing groups on several variables;

methods for testing for differences of means and covariances will be introduced. Discriminant analysis and classification analysis methods are then introduced. The course concludes with a discussion of principal components analysis and factor analysis.

PQS7003 Perbezaan Individu dalam Pendidikan (3 kredit)
Individual Differences in Education (3 credits)

Sinopsis/Synopsis:

Kursus ini bertujuan memperkenalkan teori-teori terkini dan asas-asas dalam pengkajian psikologi perbezaan individu dalam konteks pendidikan. Matlamat umum kursus ini adalah membantu pelajar memahami bagaimana setiap individu ada karakteristik-karakteristik psikologi yang berbeza. Topik-topik yang berkaitan dengan psikologi perbezaan individu ini termasuklah pengertian perbezaan individu, personaliti dan isu-isu perbezaan individu, kecerdasan, perbezaan individu dalam proses-proses pembelajaran, dan isu-isu kreativiti.

This course introduces current theories and basics in individual differences studies in the context of educational psychology. The general objective of the course is to assist students to understand that each individual has different psychological characteristics. Topics include the meanings of individual differences, personality and issues in individual differences, intelligence, individual differences in learning process, and issues in creativity.

PQX7001 Statistik untuk Penyelidikan dalam Pendidikan (3 kredit)
Statistics for research in education (3 credits)

Sinopsis/Synopsis:

Kursus ini direkabentuk untuk membantu pelajar menggunakan statistik asas dalam penyelidikan pendidikan. Melalui tugas praktikal, pelajar akan mempelajari cara menggunakan prosedur statistik yang sesuai. Disamping itu, cara mengenalpasti masalah dalam analisis data seperti kes ekstrim (outlier), taburan tidak normal dan lain-lain juga akan dibincangkan. Data daripada penyelidikan pendidikan akan digunakan untuk

menunjukkan bagaimana teknik statistik diaplikasi, ditafsir dan dilaporkan menurut format APA. Isi kandungan kursus ini termasuk organisasi data, perwakilan secara grafik, ukuran kecenderungan memusat, ukuran kebolehubahan, skala pengukuran, taburan normal, konsep pengujian hipotesis, perbandingan perbezaan antara dua min (sample besar dan kecil), perbandingan perbezaan antara dua varians, jadual kontingensi, pengujian khi kuasa dua, ujian korelasi Pearson, persampelan rawak yang ringkas dan ANOVA satu hala. Secara umum kursus ini merangkumi teknik prosedur deskriptif dan inferensi penting yang digunakan dalam penyelidikan pendidikan. Indeks saiz kesan dan cara meningkatkan kuasa sesuatu prosedur statistik juga akan dibincangkan.

The course is designed to assist students in applying basic statistics for research in education. Through practical assignments, students not only learn how to apply the statistical techniques. In addition, the methods in identifying in the problems in data analysis such as extreme values (outliers), non-normal distribution will be discussed. Data from educational research journals are used to illustrate how the statistical techniques are applied, described and reported using the APA format. The contents cover the organisation of data, graphical representation of data, measurements of variables, central tendency and variability; measurement scales; normal distribution; concept of hypothesis testing, comparison of means (small and large samples), comparison of variances, contingency tables, Chi Square test, Pearson correlation, random sample and one-way ANOVA. In general, the course covers the most important descriptive and inferential statistical techniques used in educational research. Effect size indices and statistical power will be discussed.

1. Pendaftaran Kursus / Course registration

- (1) Pendaftaran kursus mesti disempurnakan dalam tempoh selama dua (2) minggu sebelum tarikh permulaan semester.
Course registration must be completed within two (2) weeks before semester begins.
- (2) Seseorang calon hendaklah mendaftar sekurang-kurangnya tiga (3) kredit termasuk kredit yang diperuntukan bagi penyelidikan pada mana-mana semester melainkan ia diluluskan penarikan diri daripada semester berkenaan.
The candidate must register for at least three (3) credits, including credits allocated for research, in any given semester unless withdrawal from that semester has been approved.

2. Penyeliaan / Supervision

Pelantikan penyelia dilakukan tidak lewat daripada semester pertama pengajian.
Appointment of supervisor must be done no later than the first semester of study.

3. Ketetapan Bidang Penyelidikan / Determination of Research Areas

Ketetapan bidang bagi laporan penyelidikan hendaklah dilakukan sebelum calon memulakan penyelidikannya.

Research area must be determined before the candidate begins his or her research.

4. Pendaftaran PQX7010 Projek Penyelidikan / Registration of PQX7010 Research Project

- (1) Tajuk laporan penyelidikan hendaklah dikemukakan kepada Fakulti untuk kelulusan tidak lewat dari satu (1) tahun sebelum calon menyerahkan laporan penyelidikannya untuk pemeriksaan.
The title of the research report must be submitted to the Faculty for approval no later than one (1) year before the candidate submits his/her research report for examination
- (2) Calon hendaklah menyerahkan laporan penyelidikannya untuk peperiksaan dalam tempoh pencalonannya.
The candidate shall submit his/her research report for examination within the candidacy period.
- (3) Calon dikehendaki menyerahkan borang kelulusan tajuk (FP44/2007) dan mendapatkan kelulusan tajuk daripada fakulti sebelum membuat pendaftaran bagi PQX7010 Projek Penyelidikan.
Candidates are required to submit title approval form (FP 44/2007) and get an approval from faculty before registering for PQX7010 Research Project
- (4) Calon dinasihatkan supaya melengkapkan semua kursus sebelum mendaftar PQX7010 Projek Penyelidikan.
Candidate are required to complete all courses before registering for PQX7010 Research Project.
- (5) Calon yang mendaftar PQX7010 Projek Penyelidikan perlu mendaftar kursus PROGRESIF 1 (P1) dan PROGRESIF 2 (P2) bagi DUA (2) SEMESTER BERTURUT-TURUT dan hendaklah berbincang bersama penyelia setiap kemajuan Projek Penyelidikan yang dijalankan.
Candidates who have registered for PQX7010 Research Project are required to register Progressive Course for two (2) consecutive semesters and to always discuss its progress with the appointed supervisor.

SINOPSIS KURSUS / COURSE SYNOPSIS

KURSUS WAJIB / CORE COURSE

POX7001 Kaedah Penyelidikan dalam Pendidikan (3 kredit) ***Research Methods in Education (3 credits)***

Sinopsis /Synopsis:

Pelajar diberi pendedahan tentang proses menjalankan penyelidikan dalam pendidikan. Antara aspek yang akan dibincang adalah penghasilan cadangan kajian yang merangkumi: (1) konsep asas dalam penyelidikan; (2) memilih permasalahan kajian yang hendak dikaji dan kenapa mengkajinya; (3) membentuk soalan kajian yang relevan; (4) mengulas secara kritikal kajian yang lalu, membanding teori yang bersabit dan membentuk hipotesis; dan (5) memilih metodologi kajian, termasuk kaedah data analisis yang sesuai. Seterusnya, pelajar akan dibimbing cara membincang dapatan kajian demi menghasilkan kesimpulan kajian.

Students will be introduced to the entire process of conducting research in education. Among the topics to be discussed include the preparation of research proposal that includes: (1) basic concepts in research; (2) selection of a topic or problem to carry out research; (3) to design relevant research questions; (4) critically review relevant past studies to discern relevant theories and to form research hypothesis; and (5) to select appropriate research methodology including relevant data analysis method. In addition, students will be guided on how to discuss the research findings to derive the research conclusion.

POX7003 Analisis Data Kuantitatif dan Kualitatif (3 kredit) ***Quantitative and Qualitative Data Analysis (3 credits)***

Sinopsis/Synopsis:

Kursus ini direka bentuk untuk membantu pelajar memahami konsep asas analisis data kuantitatif dan kualitatif. Melalui kuliah, pembelajaran online dan tugas praktikal, pelajar bukan sahaja dapat belajar bagaimana memilih kaedah analisis data yang sesuai, malah juga menganalisis data kuantitatif dan kualitatif menggunakan kaedah yang sesuai serta menginterpretasi keputusan analisis data dengan tepat dan jelas. Isi kandungan kursus ini meliputi kaedah analisis data kuantitatif yang termasuk analisis deskriptif dan inferensi. Selain itu, kaedah analisis data kualitatif termasuk menyediakan data, mentranskripsi data,

mengekod data, menganalisis dan melaporkan keputusan analisis. Secara umum, kursus ini merangkumi pengetahuan dan kemahiran asas analisis data bagi penyelidikan kuantitatif dan kualitatif yang perlu dikuasai oleh pelajar semasa melaksanakan penyelidikan pendidikan.

This course is designed to help students understand the basic concepts of quantitative and qualitative data analysis. Through lectures and practical assignments, students not only learn how to choose the right data analysis method, but also analyse quantitative and qualitative data using appropriate methods and interpret accurate data analysis results. The course content covers quantitative data analysis methods which include descriptive and inference analysis. In addition, qualitative data analysis methods include preparing data, transcribing data, coding data, analysing and reporting analysis results. In general, this course covers the basic knowledge and skills of data analysis for quantitative and qualitative research that students must master when conducting educational research.

**PQX7010 Projek Penyelidikan (12 kredit)
Research Project (12 credits)**

Sinopsis /Synopsis:

Kursus ini memerlukan pelajar meformulasikan masalah kajian dan kerangka konseptual / teori yang berkaitan dalam mana-mana bidang relevan untuk program yang didaftar dan menjalankan kajian secara koheren. Pelajar akan menjalankan sorotan literatur yang komprehensif dan mengaplikasikan kaedah sesuai untuk kutipan data dan analisis. Projek penyelidikan ini akan dibahagikan kepada dua bahagian. Pelajar perlu menyediakan kertas cadangan yang merangkumi bab 1, 2 dan 3 pada semester pertama. Laporan penyelidikan lengkap yang meliputi kesemua Bab 1,2 3, 4 dan 5 di semester kedua akan di serahkan untuk penilaian.

This course requires students to formulate research problems and relevant conceptual / theoretical frameworks in any field relevant to the program listed and conduct the study coherently. Students will conduct a comprehensive literature review and apply appropriate methods for data collection and analysis. Students will be supervised by a supervisor throughout this process. This research project will be divided into two parts. Students need to prepare a proposal paper covering chapters 1, 2 and 3 in the first semester. A complete research report covering all Chapters 1,2 3, 4 and 5 in the second semester will be submitted for evaluation.

PREFACE

In the process of completing a postgraduate programme in the Faculty of Education, and being awarded the degree by the Universiti Malaya, a candidate required to submit a research report or dissertation or thesis, depending on the requirements of the specific programme.

The terms “research report”, “dissertation” and “thesis” are defined as follows:

1. Research Report - the documentation of research prepared and submitted by the candidate for the award of a Master’s Degree by Coursework;
2. Dissertation - the documentation of the original research prepared and submitted by the candidate for the award of a Master’s Degree by Research and Master’s Degree by Mixed Mode;
3. Thesis - the documentation of the original research prepared and submitted by the candidate for the award of a Doctoral Degree by Research and Doctoral Degree by Mixed Mode.

This guideline will assist candidates to meet the minimum requirements set by the Faculty of Education, University of Malaya to complete the final form of a research report, dissertation or thesis.

CHAPTER 1 FORMAT

1.1 Introduction

Research reports, dissertations and theses of the Faculty of Education, University of Malaya reflect the standards that students need to abide by. As such, the rules and format in this document need to be strictly adhered to.

The guidelines in this document are specifically for the postgraduate students of the Faculty of Education, University of Malaya in the process of preparation of research reports, theses and dissertations. The formats for in-text citations, references, tables and figures follow the 7th edition of the American Psychological Association (APA) guidelines.

1.2 Binding

A research report/dissertation/thesis submitted shall be bound in one (1) volume. If there is a need for a second volume, special permission must be obtained from the faculty.

For the purpose of examination, a research report/dissertation/thesis submitted to the external examiner should be bound in soft cover rexine with the colour indicated below:

1. Research report: Ocean blue or Light bright blue
2. Dissertation: Dark red or maroon
3. Thesis: Dark red or maroon

For final submission prior to graduation, a research report/dissertation/thesis submitted to the faculty should be bound in hard cover rexine with the colour indicated below:

1. Research report: Ocean blue or Light bright blue
2. Dissertation: Dark red or maroon
3. Thesis: Dark red or maroon

The thesis cover must be of A4 size (210mm x 297mm).

The title of a research report/dissertation/thesis, name of author, name of the university and year of submission must be printed in gold block on the front cover. The letters for the Front Cover should be font size 16, font type Arial Narrow, bold and in uppercase letters. The examples are shown in Appendices A1 – A5.

The spine of a research report/dissertation/thesis should show the title of research, name of author, year of submission and name of degree. The year of submission must be in accordance with the year when the research report/dissertation/thesis is submitted. The examples are shown in Appendices B1 and B2.

1.3 Word Limit of Research Reports/Dissertations/Theses

A research report/dissertation/thesis should generally be in the word limit stated in Table 1.

Table 1*Word Limit for Research Reports/Dissertations/Theses*

| No. | Report/Dissertation/Thesis | Word Limit Range |
|-----|---|------------------|
| 1. | Research report (12 credit hours) | 14,000 - 17,000 |
| 2. | Research report (15 credit hours) | 17,000 – 20,000 |
| 3. | Masters dissertation (Mixed mode) (24 credit hours) | 20,000 - 25,000 |
| 4. | Masters dissertation (Mixed mode) (30 credit hours) | 25,000 – 30,000 |
| 5. | Masters dissertation (Mixed mode) (40 credit hours) | 30,000 – 40,000 |
| 6. | Masters dissertation (Research mode) | 40,000 - 60,000 |
| 7. | PhD thesis (Mixed mode) | 60,000 - 80,000 |
| 8. | PhD thesis (Research mode) | 80,000 - 100,000 |

The word limit includes footnotes, references, tables, figures and preliminaries. Justification for word limit:

1. The maximum word limit for (5), (6), (7) and (8) do follow the maximum word limit set by AASC.
2. The minimum word limit for (8) is a requirement set by the Malaysian Qualifications Agency (MQA).

A candidate who wishes to exceed the word limit specified must apply to the Dean of Faculty at least one month before the submission of the research report/dissertation/thesis for examination and provide reasons for the inability to adhere to the prescribed word limit.

1.4 Paper and Duplication

The research report/dissertation/thesis should be printed, single-sided, on high quality white A4 paper (201 × 297 mm; 80 grams). Computer pin-feed printout paper is not permitted.

The research report/dissertation/thesis, in softcover or hardbound copies, must be typed and duplicated by offset printing or good quality photocopying. All copies must be clean and legible.

1.5 Typing

1.5.1 Typing Quality

The research report/dissertation/thesis must be typed using font type Times New Roman, font size 12 (except for tables and figures) and justified, using Microsoft Word, or similar word-processing software. Research report/dissertation/thesis in Arabic should be typed using Font type Traditional Arabic in font size 16.

Words in a language that is different from the language of the research report/dissertation/thesis must be typed in *italics*.

For mathematical texts, the use of *Equation Editor* or *LaTeX* is advisable. Script fonts are not permitted.

Text should be typed on one side of a paper only. A high-quality laser should be used for the printing.

1.5.2 Spacing

Double-spacing should be used throughout the text, including abstract. Single-spacing should be used for long tables, quotations, footnotes and reference entries.

1.6 Margins

The stipulated margins for the general text are as follows:

| | |
|--------|----------|
| Top | : 2.0 cm |
| Right | : 2.0 cm |
| Left | : 4.0 cm |
| Bottom | : 2.0 cm |

The following guidelines also need to be followed as far as possible:

1. Typing should not extend more than one line below the bottom margin and then only to complete a footnote or the last line of a chapter, sub-heading or a caption.
2. All tables and figures including their captions should conform to margin requirements.
3. A new paragraph at the bottom of a page must have at least two full lines of text or it should begin on the next page.
4. There should be only two double spacings between two paragraphs.
5. Use justify alignment for paragraphs. Do not indent the starting word of a paragraph.

1.7 Pagination

All page numbers are to be placed without punctuation 1.0 cm from the bottom edge at the right-hand side. The recommended font and size for the page numbers are font type Times New Roman with font size 10.

In addition, the page numbering system must conform to the following rules:

1. The *Preliminaries* include the Title Page, Original Literary Work Declaration, Abstracts, Acknowledgement, Table of Contents, List of Tables, List of Figures and List of Abbreviations. The *Preliminaries* are numbered in consecutive lower case Roman Numerals (i, ii, iii, iv, etc.)
2. The *Title Page* is considered as page i, but the number is not typed. The Roman numeral ii appears on the first page that follows the title page and continues through for all the *Preliminaries*.
3. The whole *Main Text* (Chapters and References) and *Supplementaries* (Appendices and List of Publications and Papers Presented) are numbered consecutively in Arabic numerals (1, 2, 3, etc.) beginning with 1 on the first page of the text.

1.8 Footnotes

Candidates are advised to limit the use of footnotes unless they are proved necessary to the document. APA does not recommend the use of footnotes. Nevertheless, the APA format suggests using footnotes for two types of information: content comments and copyright permission.

Footnotes are used to elaborate or provide additional information regarding matters discussed in that page.

Footnotes are recorded using Arabic numeric and numbered consecutively. Raised superscript numerals in the text refer to explanatory notes and documented sources appearing at the bottom of the page as footnotes. The advantage of using footnotes is that explanatory type of information can be presented along with source citations on the same page or place.

Footnotes should use a smaller font than the text (font size 8). When using footnote, a number formatted in superscript is inserted following the punctuation mark in the text. Footnotes should be placed at the bottom of the page on which they appear.

An example of a footnote:

One of the earliest contemporarily models of creative thinking problem solving as a process by Guilford (1910) can be found in in *Creativity*.²

² Dewey, Jones. *How We Think*. D.C. Health, 1920.

1.9 Tables

Tables are useful for presenting a large quantity of information clearly and concisely. They typically display numerical data in columns and rows for easy classification and comparison. Tables do not duplicate text, but rather present information. They should be interpretable without the text.

The followings are basic presentation and formatting of tables.

1. *Numbering*: Each table is preceded by the capitalised word “Table” followed by an Arabic number (e.g., Table 1.1, Table 1.2, Table 1.1, Table 1.2 and so on according to the Chapter). The number given to a table is determined by the order in which that table is referred to in the text (i.e., the first table discussed is Table 1.1, the second is Table 1.2, and so on). Capitalise and bold the table number. Example: **Table 1.1**
2. *Titling*: Each table has a unique title written directly below the table number. Titles should be brief yet descriptive. Capitalise each major word in the title (but not of, on, in, and, etc.). Italicise titles. Do not put a period. Example: *Mean Performance Scores of Students with Different College Majors*
3. *Spacing*: Tables in the 7th edition APA Publication Manual can be double-spaced or single-spaced with readability as the primary consideration. Spacing should be consistent throughout the table.
4. *Ruling*: Put lines in a table only when they are necessary for clarity. Horizontal lines are permissible; vertical lines are not.
5. *Table notes*: Note or source for table is positioned below the table.

Table 1.1 is an example of a table.

Table 1.1

1.10 Figures

The 7th edition of the APA Publication Manual gives the following guidance in relation to figures:

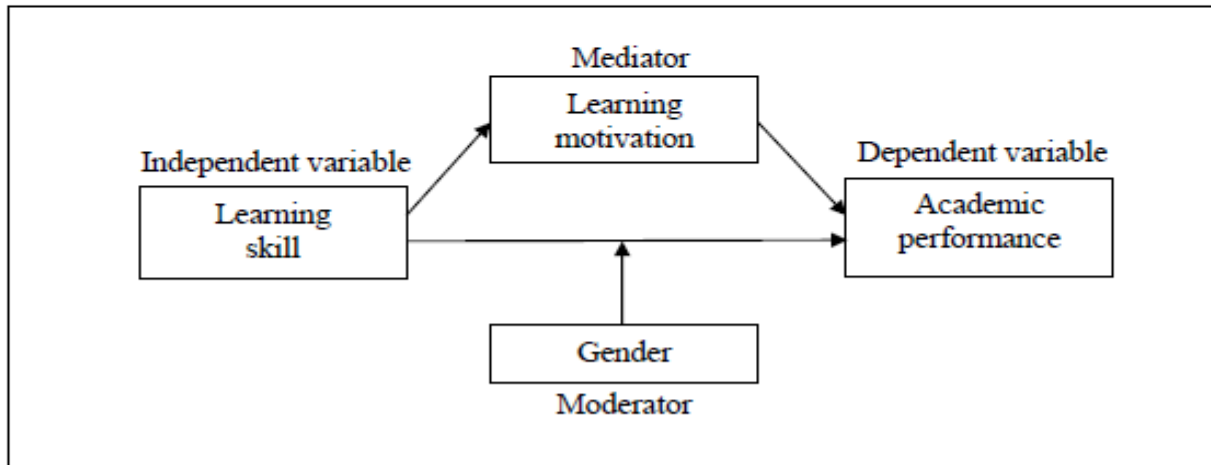

1. Augments rather than duplicates the text, conveys only essential facts, omits distracting material, and is carefully planned.

2. Be certain in figures of all types that lines are smooth and sharp, units of measure are provided, axes are clearly labelled, and elements within the figure are labelled or explained.
3. Note or source for figure is positioned below the figure.

Figure 1.1 is an example of a figure.

Figure 1.1

Conceptual Framework of the Study

Note. This model is improved from the Academic Performance Model of Green (2021)

CHAPTER 2 LAYOUT AND ARRANGEMENT OF CONTENTS

The structure of the research report, dissertation or thesis is based on a standard format which contains three main sections: *Preliminaries*, *Main Text* and *Supplementary*.

3.1 The Preliminaries

This section consists in order of the following:

2.1.1 Title Page

The title page is the first page after the front cover and should include:

1. The final research title which has been approved by the faculty.
2. Name of candidate according to the registration records.
3. A statement according to the mode of programme.
4. The year of submission.
5. The words on title page should be typed with Arial Narrow font, font size 12 and spacing 1.5.

See Appendices D1 for title page statements and D2 for examples of title pages.

2.1.2 Original Literary Work Declaration Form

This form must be completed by the candidate and signed by a witness (Supervisors or Head of Department/Deputy Dean of Postgraduate of the faculty). The original signed form must be included in all copies of the research report/dissertation/thesis. The form can be downloaded from the MAYA website in two languages (English and Bahasa Malaysia). If the research report/dissertation/thesis is written in English, the English version of the form is used and vice versa.

See Appendices E1 and E2 for examples.

2.1.3 Abstract

The abstract should be written as one paragraph, double-spaced and should not be more than 500 words. Each abstract/*abstrak* should have a title in bold capital letters with font size 12.

Where the language of the thesis is other than Bahasa Malaysia [Malaysia] or English [United Kingdom], an abstract in that language must also be included. The sequence of abstracts is as follows:

1. For research report/dissertation/thesis written in Bahasa Malaysia, the abstract in Bahasa Malaysia is followed by the English version.
2. For research report /dissertation/thesis written in English, the abstract in English is followed by the Bahasa Malaysia version.
3. For research report /dissertation/thesis written in Arabic, the abstract in Arabic is followed by its version in Bahasa Malaysia and English.

The Abstract page is assigned Roman numeral "iii" and the following pages should be numbered consecutively.

A good abstract should consist of brief description of the followings:

1. Statement of Problem
2. Objectives of the Study
3. Methodology
4. Findings
5. Conclusion

Appendix F presents an example of an abstract.

Note: Dissertation and thesis for proposal and candidature defences should have an abstract.

2.1.4 Acknowledgements

Most research reports/dissertations/theses include a message to convey appreciation to those who have been involved and provided their assistance directly or indirectly in the preparation of the study. This is optional and should not exceed a single page, which is numbered in Roman numeral accordingly.

2.1.5 Table of Contents

The table of contents lists the chapters, headings together with their page numbers. Headings should be labelled according to the chapter. The format of table of contents is shown in Appendix G.

2.1.6 List of Figures

This list should use the same numbers and captions which appear above the figures in the text and the appendices. The numbering system is according to chapter, for example: Figures in Chapter 1 are numbered sequentially as: Figure 1.1, Figure 1.2 and so on.

2.1.7 List of Tables

This list should use exactly the same numbers and captions that appear above the tables in the text and the appendices. The numbering system is according to chapter, for example: Tables in Chapter 1 are numbered sequentially as: Table 1.1, Table 1.2 and so on.

2.1.8 List of Abbreviations

If necessary to the presentation of the thesis, this list appears after the list of Tables and Figures.

2.2 Main Text

The text is organised into chapters. There is no restriction on the total number of chapters but has to be agreed upon by the supervisor and the candidate. Opinions of the examiners and examination board can be taken into consideration. Generally, the basic structure of the research report, thesis or dissertation is as follows:

Chapter 1: Introduction

This chapter introduces the problem to be investigated and its background; the aim, the research objectives and research questions must be all aligned logically; the significance of the study; the scope of the study; the limitation of the study and the definition of terms.

Note: The conceptual and theoretical frameworks can be included in chapter 1 or in chapter 2 Literature Review.

Chapter 2: Literature Review

This chapter discusses in detail a critical review of past literature by accredited scholars and researchers relevant to the study. The candidate can review in depth research conducted as necessary from older publications but should focus on recent/current publications within the latest five years.

Chapter 3: Methodology

This chapter discusses the research methods including research design, sampling procedure, instrumentation, data collection procedures and data analysis in detail with all the necessary justifications for the chosen research method.

Chapter 4: Findings

In this chapter, the findings must be presented in written text, with relevant tables and figures to answer the research questions. The interpretation of the findings must be presented in a scholarly manner.

Chapter 5: Discussion and Conclusion

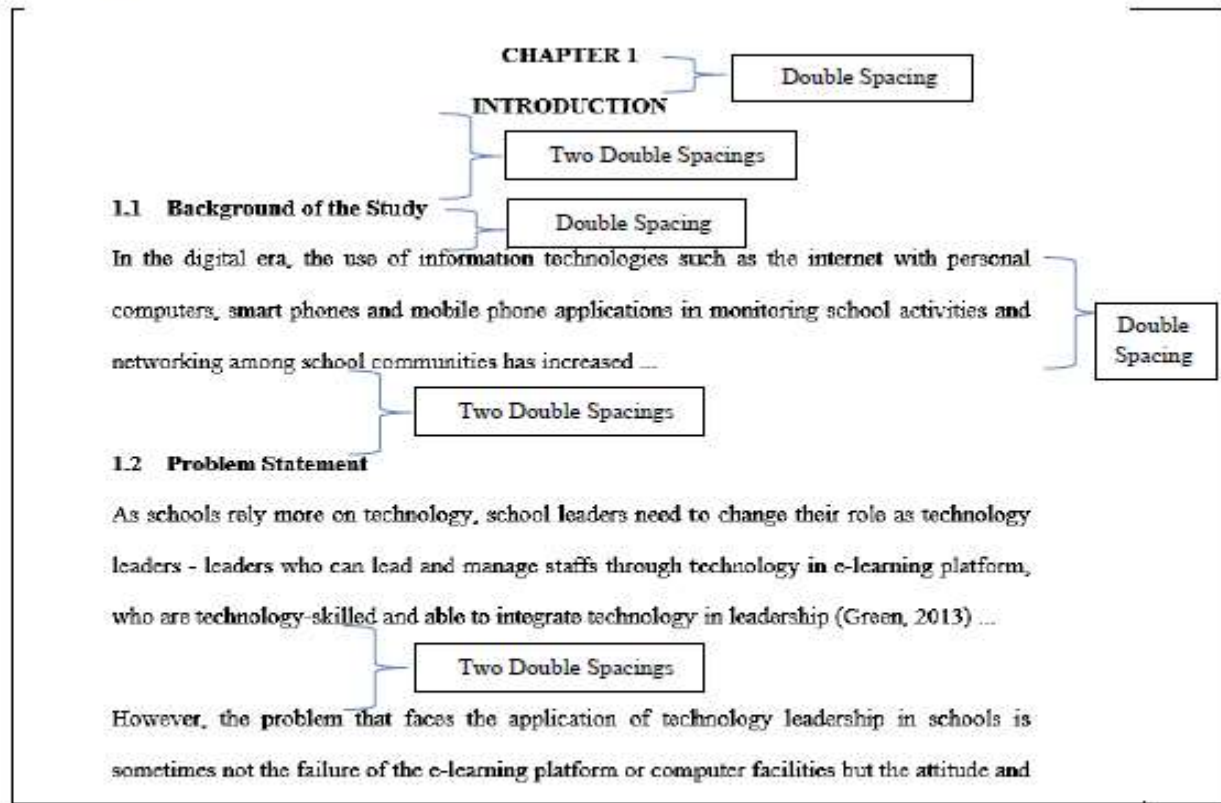

In this chapter, the research findings are summarized and discussed. The implications, recommendations, and suggestions for future research and a concise conclusion must be included.

2.2.1 Main Text Layout

An example of main text layout and text spacings is shown in Figure 2.1.

Figure 2.1

An Example of Main Text Layout

2.2.2 Format for Numbering Headings in Main Text

The format for numbering headings in the main text is shown in Figure 2.2.

Figure 2.2

Format for Numbering Headings

| |
|--|
| <p>CHAPTER 1</p> <p>CHAPTER TITLE</p> |
| <p>Chapter foreword which explains its contents.</p> |
| <p>1.1 Primary Heading</p> <p>The text below it begins from the left margin.</p> |
| <p>1.1.1 Secondary Heading 1</p> <p>Use secondary headings if there are two or more headings under a primary heading.</p> |
| <p>1.1.2 Secondary Heading 2</p> <p>Text is typed beginning from the left margin.</p> |
| <p>1.1.2.1 Tertiary Heading 1</p> <p>Tertiary headings are not listed in the <i>Table of Contents</i>.</p> |
| <p>1.1.2.2 Tertiary Heading 2</p> <p>Use tertiary headings if there are two or more headings below a secondary heading.</p> |

2.2.3 Format for Numbering Sub-Headings in Main Text

For sub-headings under each of the above headings, use unbold fonts with numbers (1, 2, 3 ...), followed by lower-case alphabets (a, b, c ...), and lower-case *Roman Numerals* (i, ii, iii ...). An example of sub-headings layout is shown in Figure 2.3.

Figure 2.3

Sub-headings Layout

1.7 Definition of Terms (*a primary heading*)

The followings are the definition of terms for this study.

1. Leadership practices
 - a. Transformational leadership practices
 - i. Idealised influence
 - ii. Inspirational motivation
 - b. Transactional leadership practices
2. Motivation

This numbering system provides a clear picture of the relationship between chapters, headings and sub-headings and shows how they are connected.

2.3 References

All works or studies referred to in the research report/dissertation/thesis in the form of quotations or citations must be included in the references. The references should be written consistently in the 7th edition of the American Psychological Association (APA) format.

Each reference should be written in single spacing format and a double space should be left between references. The list of references must be arranged in alphabetical order and the entries should not be numbered. The list must also have a hanging indentation of 0.5 inch. The format of references for journal article, book and chapter in book are as follows:

Journal article:

Author, A. A., & Author, B. B. (Year). Title of the article. *Name of the Periodical*, volume(issue), #-#. <https://doi.org/xxxx>

Book:

Author, A. A., & Author, B. B. (Copyright Year). *Title of the book* (7th ed.). Publisher. DOI or URL

Chapter in book:

Author, A. A., & Author, B. B. (Copyright Year). Title of the book chapter. In A. A. Editor & B. B. Editor (Eds.), *Title of the book* (2nd ed., pp. #-#). Publisher. DOI or URL

For examples:

2.4 In-text Citations

In-text citations in research report, dissertation and thesis must follow the rules set by the 7th edition APA Publication Manual. The following are format of in-text citaitions.

2.4.1 Author

1. General Author

Use the surname of the author for in-text citation. Example: (Green, 2021, p. 20)

2. Multiple Authors

a. Two authors:

- i. *Paranthesisal Citations:* (Green & White, 2022). For example: Intelligence is a factor of creativity (Green & White, 2022).
- ii. *Narrative Citations:* Green and White (2022). For example: Green and White (2022) state that intelligence is a factor of creativity.

b. Three or more authors:

- i. *Paranthesisal Citations:* (Green et al., 2022)
- ii. *Narrative Citations:* Green et al. (2022)

c. Organisational Authors

If the author of a work is an organisation, company, or group, list that group's full name in the in-text citation:

- i. (Selangor State Education Department, 2022)
- ii. (Ministry of Higher Education Malaysia, 2022)

If the organisation has a common acronym, introduce it in first in-text citation and then use the abbreviation in all subsequent citations:

- i. (Ministry of Education Malaysia [MOE], 2022)
- ii. (MOE, 2022)

d. No Author

If there is truly no author for a reference, use the title, or first few words of the title. Capitalise the words in the title for the in-text citation. Place in quotation marks if the title is an article or a chapter. Italicise if it is a book, webpage, or other relevant documents:

- i. ("How To Find", 2022)
- ii. (*Malay Language Dictionary*, 2022)

2.4.2 Date

1. Year

Use only year of the resource in the in-text citation. For example: (Green, 2022)

2. No Date

If there is no date for a reference, use the abbreviation n.d. For examples:

- a. (Ministry of Higher Education Malaysia, n.d.).
- b. Green (n.d.) states that ...

3. Same Author/Date

If two or more distinct works by the same author and published in the same year, differentiate them with letters. Letters will be assigned alphabetically by the order in which they are listed in the references list. For examples:

- a. (Green, 2022a)
Reference: Green, A. B. (2022a). *Creative arts*. Pearson. <https://doi.10.2909.112>.
- b. (Green, 2022b)
Reference: Green, A. B. (2022b). Developing a model for educational technology leadership practices. *Education and Science*, 42, 73-84. <https://doi.10.34255.110-2132>.

If both items are using n.d. instead of a year, include a hyphen before the differentiating letter. For example: (Ministry of Education Malaysia, n.d.-a)

2.4.3 Page Number

1. Page Numbers

If using information from a single page, use the abbreviation p. For example: (Green, 2022, p. 12)

2. No Page Numbers

If there are no page numbers on the resource, use section headers, paragraph numbers, or other descriptions to direct your reader to the information you are citing. For example: para. 1, Slide 8, Conclusion section.

Examples of no page numbers in-text citation:

- a. One of the author's main points is that "an important objective of education is to ensure that student outcomes are equitable" (Green, 2022, Chapter 1, Section 2, para. 5)
- b. (Brown, 2022, paras. 2-3)
- c. (White, 2022, Chapter 3)

3. Media

If citing a direct quotation from a video, you can use the time stamp in place of a page number within the in-text citation.

For example: Green (2022) states that "stress affects performance in a bell shape, where stress has a positive effect at moderate level, and negative effects at low level and high level." (4:12).

2.4.4 Narrative Citations

Narrative citations are the preferred method of citing quotes. Use them for paraphrasing or summarizing. The strength of narrative citations is that it flows better for a reader. A narrative citation weaves in the author's name(s) into the text, and then adds in the year in parentheses. The page number will bookend the quote at the end.

Use this format: Last name (Year) ... "quote" or paraphrase (p. X). For examples:

1. Green (2022) explains that "youth literacy has risen from 74% in 1980 to near-universal literacy of 96% today" (p. 42).
2. According to the Ministry of Education Malaysia (2022), the Malaysian Government has sustained high levels of investment in education over the past 63 years since independence (p. 23).

2.4.5 Parenthetical Citations

A parenthetical citation encompasses the components of the in-text citation in parentheses at the end of the sentence, prior to the closing period. This should mostly be used for paraphrasing, and typically not for direct quotes alone.

A page number is not necessary for paraphrasing but is encouraged. Use the format: (Author, Date, p. X). For examples:

1. School leaders need to change their role as technology leaders - leaders who can lead and manage staff with technology in e-learning platform (Green, 2022).
2. Technology leadership is defined as "virtual relationships of influence" (Green & White, 2022) whereby this new highly adaptive field of knowledge affects multiple daily interactions across professional education and training (Brown et al., 2022).

3. Moreover, the authors state that "the problem that faces the application of technology leadership in schools is sometimes not the failure of the e-learning platform or computer facilities but the attitude and behavior of leaders" (Creen & White, 2022, p. 18).

For more detail referencing style on multiple authors, authors of different ethnicity (e.g., Malay, Chinese, Indian, Punjabi, etc.), please refer to "Universiti Malaya Library APA 7th Edition Formatting and Style Guide" at:

<https://umlib.um.edu.my/wp-content/uploads/1616/46/APA-Style-7th-Edition.pdf>

2.5 Supplementaries

2.5.1 Appendices

This section supports the main written text of the thesis. Appendices consist of research instruments, additional illustration of data sources, raw data and quoted citations which are too long to be placed in the text. The appendix section supports the written text of the research report/dissertation/thesis by including materials that can provide additional information. These materials include research data, tables, examples of questionnaires, maps, photos and other materials that are too long to be included in the text or are not directly required to comprehend the text can be included as appendices.

Tables and graphics that are more than two pages long are suggested to be included in the Appendices section.

Appendices are labelled as Appendix A, Appendix B1, Appendix B2, Appendix C, etc. and they should correspond to the List of Appendices of Preliminary section.

2.5.2 List of Publications and Papers Presented

For master's degree and doctoral degree that publication is a requirement, published works as well as papers presented at conferences, seminars, symposiums etc. pertaining to the research topic of the research report/dissertation/thesis are suggested being included in this section. The first page of the article may also be appended.

Publications are labelled as Publication A, Publication B, and so on.

CHAPTER 3 OTHER RELATED GUIDELINES

3.1 Plagiarism

Postgraduate candidate of the Universiti Malaya are expected to produce original academic work. Plagiarism is defined as an academic fraud arising from the attitude of lying, insincerity, untrustworthiness, dishonesty and disrespect to fellow colleagues. Plagiarism happens when someone else's idea is taken without mentioning the source, and thus giving the impression that the idea is his own. This situation may occur when:

1. One's idea, taken word for word from an article or book that has been published.
2. The idea of a person from an article or book is taken using his own words.
3. A person's idea is taken from discussions whether in conferences, seminars, forums, talks or informal discussions between two parties.
4. Data, diagrams, tables, photographs or any other illustrative material derived from others is taken as if it were his own.

Postgraduate candidates are strongly advised to read the "How to Avoid Plagiarism: A Handbook for Postgraduate Students", which outlines the rules and regulations pertaining to acts of plagiarism.

3.2 Turnitin

The faculty requires the usage of *Turnitin*, an online web-based plagiarism detection application to avoid plagiarism and ensure academic integrity. The similarity index percentage for a research report/dissertation/thesis should equal to or less than 15% ($\leq 15\%$).

3.3 Publication from Research Report/Dissertation/Thesis

3.3.1 Type of Publications

For Masters (research mode) and PhD, candidates are required to publish research article or review article in journals indexed in:

1. Web of Science (WoS) Core Collection Databases (<https://apps.webofknowledge.com>)
 - a. Science Citation Index Expanded
 - b. Social Sciences Citation Index
 - c. Arts & Humanities Citation Index
2. Scopus (<https://www.scopus.com>)
3. Malaysian Citation Index (MyCite)(<http://www.mycite.my>)
4. Journals recognised by the faculty.
5. Publication must adhere to the conditions stated in the offer letter.

3.3.2 Authorship

For publication of journal article/book chapter/book from the research project, dissertation or thesis, the candidate must be the *first author* of the publication, followed by supervisor(s) as *co-author(s)*. For journal article, the supervisor can be the *corresponding author*.

The candidate must obtain the consent from supervisors for the publication. The consent can be in the form of a verification from the publisher or letter or email communication with the supervisors.

3.3.3 Timing

Publications accepted must be within the candidature of the candidate.

3.3.4 Topic of Publication

Publications must be related and conform to the candidate's research in the thesis/dissertation.

3.3.5 Affiliation

Publications must carry the affiliation of the department and/or faculty where the candidate is registered.

3.3.6 Blacklisted Journals

Publications in journals blacklisted by the Malaysian Ministry of Higher Education (MOHE) are not accepted. The journals include:

1. Academic Journal (www.academicjournals.org)
2. Euro Journal Inc (www.eurojournals.com)
3. Common Ground Publishing (www.commongroundpublishing.com)
4. Africa World Press Inc. (www.africaworldpressbooks.com)
5. Publications in Probable Predatory Journals according to Beall's List (<http://scholarlyoa.com/publishers/>)

The list of blacklisted journals is subject to change from time to time according to MOHE.

3.3.7 Completion Period

Candidates who have completed the examination of their dissertations/theses must fulfil the publication requirement as set by the University before the expiry of their maximum period of candidature.

If the candidates fail to fulfil the publication requirement within the approved period, they will be terminated from the program of study and considered as failed.

CHAPTER 4 SUBMISSION

4.1 Prior to Submission

Postgraduate candidates are required to obtain approval from the supervisor(s) and faculty via MAYA before online submission. This is to allow timely nomination of examiners for research report/dissertation/thesis.

Submission of research report/dissertation/thesis for examination has to be done within the candidature period after title approval by the faculty.

Candidates are strongly advised against copying the formatting done by other candidates as previously submitted research report/dissertation/thesis may not conform to the current formatting requirements. Failure to meet the formatting requirements may result in a thesis/dissertation being rejected at the point of submission.

Postgraduate candidates shall submit their research report/dissertations/theses to the Postgraduate Officer of the faculty.

4.2 Required Documents for Submission

Documents required for submission for the purpose of examination are as follows:

1. At least two (2) printed softbound/comb bound copies (or such numbers as may be determined by the faculty) of the research report/dissertation/thesis.
2. One (1) electronic copy (PDF format).
3. Submission of Thesis/Dissertation for Examination/Re-examination form.

Documents required for final submission prior to graduation after completing the corrections (if any), are as follows:

1. At least one (1) printed hardbound copy (or such numbers as may be determined by the faculty) of the final research report/dissertation/thesis.
2. One (1) electronic copy (PDF format).
3. Final Submission of Thesis/Dissertation form.
4. Repository Policy For Universiti Malaya Postgraduate Theses/Dissertation/Research Reports form.
5. Correction Report form (if applicable).

All the required forms can be downloaded from the MAYA portal in the following link:

<https://umsitsguide.um.edu.my/index.html>.
